Poland's Journalists Jane Leftwich Curry,1990-02-22 Originally published in 1990 Polish Journalists Professionalism and Politics is a study of how in the face of constant political instructions and restrictions Polish journalists act as independent forces in their society      **Public Broadcasting and Political Interference** Chris Hanretty,2011-05-03 Examines the

consequences of interference by political parties in the work of public broadcasters      **Outside the "Comfort Zone"**

Tatiana Klepikova,Lukas Raabe,2020-07-06 Traditionally privacy studies have focused on the liberal democratic societies of the global West whereas non democratic contexts have played a marginal role in the discussion of the private and public spheres not in the least because of the political stances of the Cold War era This volume offers explorations of highly diversified performances and discourses of privacy by various actors which were embedded into the culturally economically and politically specific constructions of late socialism in individual states of the Warsaw Pact While the experience of socialism varied across the Bloc there were also some reactions to socialism and some reverse responses of socialist regimes to these reactions that one can trace through all states Contributions to this volume take us across the Eastern Bloc and beyond it from the Soviet Union into late socialist Poland Romania and East and West Germany While looking at specific countries they provide a glimpse into a broader perspective that reaches beyond the borders of individual late socialist states Together these articles document a palette of paradigms of the construction and transformation of the private spheres that overcame the national borders of individual states and left an imprint across the Eastern Bloc thereby contributing to rethinking Cold War rhetoric in regard to these states      **Mass Media** James B. Martin,2002 Mass media has become an

integral part of the human experience News travels around the world in a split second affecting people in other countries in untold ways Although being on top of the news may be good at least for news junkies mass media also transmits values or the lack thereof condenses complex events and thoughts to simplified sound bites and often ignores the essence of an event or story The selective bibliography gathers the books and magazine literature over the previous ten years while providing access through author title and subject indexes      **Politics and the Press in Indonesia** Angela Romano,2013-05-13 This

book explores the evolving political culture in Indonesia by discussing the country s dominant political philosophies then showing how those philosophies affect the working lives of ordinary Indonesian citizens It focuses in particular on the working lives of news journalists a group that occupies a strategic social and political position      Professionals, Power and

Solidarity in Poland Michael D. Kennedy,1991-02-14 The Solidarity movement of the early 1980s not only triggered a transformation in Polish society it forced a fundamental reconsideration of the nature of socialism throughout the Soviet Union and Eastern Europe Seen as one of the most important social movements of the century this pathbreaking study analyses Solidarity s significance in Soviet societies      *The East European Economy in Context* David Turnock,2003-09-02

Since 1989 the former communist countries of Eastern Europe have witnessed a profound and dramatic upheaval The

economic coherence of this region formerly maintained through the adoption of the Soviet system of government has fractured In *The East European Economy in Context Communism and Transition* David Turnock examines the transition from communist to free market economies both within and between the states of Eastern Europe As well as containing an informative survey of the impact of communism *The East European Economy in Context* provides Political profiles of individual countries A clear study of the contrasts between northern and balkan groups Summaries of regional variations in the transition process An exploration of the new state structures and resources Discussion of political stability inter ethnic tensions and progress in economic change      *Britain and Poland 1939-1943* Anita Prazmowska, 1995-03-23 Poland was a problematic issue for the Big Powers throughout the Second World War For Britain Poland was a major stumbling block in British Soviet relations as Polish Soviet territorial disputes clashed with the needs of the British Soviet United States alliance As the Polish government in exile attempted to obtain a guarantee of British support and many thousands of Polish troops fought for the British cause the perception grew that the Churchill government had a debt to pay Ultimately however it was a debt which Britain could not discharge because of its dependence on Soviet participation in the war In this book Anita Prazmowska looks at British policies from the point of view of wartime strategy relating this to Polish government expectations and policies She describes a tragic situation where Polish soldiers were trapped between the grandiose and unrealistic plans of their government and the harsh realities of a war which they fought with no prospect of a satisfactory outcome for them or their country      **Media and Society** James Curran, David Hesmondhalgh, 2019-05-16 Media and Society is an established textbook popular worldwide for its insightful and accessible essays from leading international academics on the most pertinent issues in the media field today With this updated edition David Hesmondhalgh joins James Curran and a team of leading international scholars to speak to current issues relating to media and gender media and democracy sociology of news the global internet the political impact of the media popular culture the effects of digitisation on media industries media and emotion and other vital topics The media are in a state of ferment and are undergoing far reaching change The sixth edition tries to make sense of the media s transformation and its wider implications Purely descriptive accounts date fast so the emphasis has been on identifying the central issues and problems arising from media change and on evaluating its wider consequences What is judged to be the staple elements of the field has evolved over time as well as becoming more international in orientation Yet the overriding aim of the book to be useful to students has remained constant This text is an essential resource for all media communication and film studies students who want to broaden their knowledge and understanding of how the media operates and affects society across the globe      **Rebellious Civil Society** Grzegorz Ekiert, Jan Kubik, 2010-08-04 Poland is the only country in which popular protest and mass opposition epitomized by the Solidarity movement played a significant role in bringing down the communist regime This book the first comprehensive study of the politics of protest in postcommunist Central Europe shows that organized protests not only

continued under the new regime but also had a powerful impact on Poland's democratic consolidation. Following the collapse of communism in 1989, the countries of Eastern Europe embarked on the gargantuan project of restructuring their social, political, economic, and cultural institutions. The social cost of these transformations was high, and citizens expressed their discontent in various ways. Protest actions became common events, particularly in Poland. In order to explain why protest in Poland was so intense and so particularized, Grzegorz Ekiert and Jan Kubik place the situation within a broad political, economic, and social context and test it against major theories of protest politics. They conclude that in transitional polities where conventional political institutions such as parties or interest groups are underdeveloped, organized collective protest becomes a legitimate and moderately effective strategy for conducting state-society dialogue. The authors offer an original and rich description of protest movements in Poland after the fall of communism as a basis for developing and testing their ideas. They highlight the organized and moderate character of the protests and argue that the protests were not intended to reverse the change of 1989 but to protest specific policies of the government. This book contributes to the literature on democratic consolidation, on the institutionalization of state-society relationship, and on protest and social movements. It will be of interest to political scientists, sociologists, historians, and policy advisors. Grzegorz Ekiert is Professor of Government, Harvard University. Jan Kubik is Associate Professor of Political Science, Rutgers University.

**Poland and the Holocaust in the Polish-American Press, 1926-1945** Magdalena Kubow, 2020-07-10. Contrary to the common notion that news regarding the unfolding Holocaust was unavailable or unreliable, news from Europe was often communicated to North American Poles through the Polish language press. This work engages with the origins debate and demonstrates that the Polish language press covered seminal issues during the interwar years, the war, and the Holocaust extensively on their front and main story pages and were extremely responsive, professional, and vocal in their journalism. From Polish Jewish relations to the cause of the Second World War and subsequently the development of genocide-related policy, North American Poles had a different perspective from mainstream society on the causes and effects of what was happening. New research for this book examines attitudes toward Jews prior to and during the Holocaust and how information on such attitudes was disseminated. It utilizes selected Polish newspapers of the period 1926-1945, predominantly the *Republika Gornik*, as well as survivor testimony.

How are conflicting political interests brought together as policies are developed in the Soviet Union? In *Patronage and Politics in the USSR*, first

published in 1991 Professor John Willerton offers major insights into the patronage networks that have dominated elite mobility regime formation and governance in the Soviet Union during the past twenty five years Using the biographical and career details of over two thousand national leaders and regional officials in Azerbaijan and Lithuania John Willerton traces the patron client relations underlying recruitment mobility and policymaking He explores the strategies of power consolidation and coalition building used by Soviet chief executives since 1964 as well as the institutional links and policy outcomes that have resulted from network politics The author also assesses the manner and extent to which leaders in politically stable and less stable settings spanning different national cultural contexts have relied upon patronage networks to consolidate power and to govern Finally Professor Willerton explores how in a period of dramatic change patron client networks may have given way to institutionalised interest groups and political parties
