Polar Bear Save Our Species Series:

Save our species, 2001 **Extreme Environment** Ivo Vegter, 2012-09-05 Extreme Environment promises to provoke fresh and spirited debate about the modern environmental movement and the many ways in which environmentalism media economics public policy and the politics of liberty intersect In order to reduce poverty and continue to raise living standards requires a sensible balanced approach to a healthy productive environment No country but especially not those in the developing world can afford to be manipulated by the self interested moralising and alarmism perpetrated by some special interest groups Exaggeration by environmentalists many journalists and even some scientists causes undue fear and anxiety among those who don't already dismiss the green lobby for crying wolf Worse misinformation affects regulation and policymaking in ways that actively harm developing economies Starting with well researched work questioning the claims of opponents to shale gas drilling or fracking Ivo Vegter argues that public opinion and policy ought to be informed by accurate data and reasoned argument Using a wide range of examples from nuclear accidents and oil spills to food additives and agricultural chemicals he demonstrates why we should be as sceptical of the emotive rhetoric of environmentalists which just as often turns out to be alarmist or even false as we are of corporate spin Globally relevant but offering a unique perspective from a developing country South Africa this book is a must read for every thinking person who cares about the world we live in

Ethics and Justice for the Environment Adrian Armstrong,2012-05-31 Examining the issues of ethics and justice as they apply to the environment this book starts from the observation that the parallel expositions of environmental ethics and environmental justice appear to have few points of contact Environmental justice is highly politicized and concerned with human access to the environment and the unequal exposure to environmental pollution It grew out of the US civil rights movement the liberal tradition of rights and Rawls description of justice as fairness It is thus almost exclusively anthropocentric and does not address the question of justice for the environment By contrast environmental ethical studies are a wide ranging collection of approaches that are concerned with caring for the earth and the justifications for it but rarely consider the issue of justice Although the two movements do not come together at the theoretical level they do so at the grass roots activist level An essential component of this study is thus to consider both the issues of grass roots action and the application of the methods to actual case studies This book finds a common ground between these two strands and so to develop a unified statement of justice for the environment that includes the insights of both approaches particularly based on the capability ideas of justice developed by Martha Nussbaum

nineteen year pen pal relationship thus it was only natural for Walt to contact her when he passed in January 2007 Quickly he introduced her to the bright realm he found himself in Where knowledge and answers seem to flow around him like an old river circumventing the veils of the third dimension known as Earth and like a theater skim high lighting the depth and broadness of the creators vision Within days weeks he was sharing what he had experienced on passing the moments as he grew within his new residence and the giddy excitement as old questions exploded with amazing new and always bolder answers that arent answers at all but always more thrilling possibilities and alternatives He meets ancient seers babes prophets Buddha and Jesus He had always been a seeker of truth and spiritual knowledge but now that he is at the source he feels it is his duty to dispel the fear humans have of the other side and death Three years into this correspondence Walt called a halt to this his first book and his wife Lorraine Cookie and his friends have put this volume together for your enlightenment and education
