Polar Attack From Canada To The North Pole And Back:

Polar Attack Richard Weber, Mikhail Malakhov, 1996 On June 15 1995 Weber and Malakhov became the first people to complete the 1 000 mile round trip to the North Pole on foot with no outside support Their triumph of having reached the North Pole was followed by a dangerous 31 hour marathon through a blizzard to reach their camp six kilometers away where they had left all their supplies and equipment This book presents the gripping tale of their determination to complete this historic expedition of color photos

Quill & Quire, 1997. *Perils of Plenty* Jonathan N. Markowitz, 2020. Among scholars who focus on the politics of natural resources, conventional wisdom asserts that resource-scarce states have the strongest interest in securing control over resources. Counterintuitively, however, in *Perils of Plenty* Jonathan N. Markowitz finds that the opposite is true. In actuality, what states make influences what they want to take. Specifically, Markowitz argues that the more economically dependent states are on resource extraction rents for income, the stronger their preferences will be to secure control over resources. He tests the theory with a set of case studies that analyze how states reacted to the 2007 exogenous climate shock that exposed energy resources in the Arctic. Given the dangerous potential for conflict escalation in the Middle East and the South China Sea and the continued shrinkage of the polar ice cap, this book speaks to a genuinely important development in world politics that will have implications for understanding the political effects of climate change for many years to come. **Canadian**
