their bodies to reach ultimate form *Recreating Japanese Men* Sabine Fruhstuck, Anne Walthall, 2011-10-04 *Recreating Japanese Men* is a wonderful and invaluable book. Its interdisciplinary mix of essays opens the door to a new world of scholarship on masculinity in Japan. David L. Howell, Harvard University. By considering a wide variety of alternative masculinities throughout Japanese history, these essays reveal the tensions, conflicts, and overlapping between competing masculine and feminine ideals and practices in surprising ways. Robert A. Nye, Oregon State University. This gallery of striking but also subtle images of Japanese masculinity both reinforces old and reveals new historical understandings of Japanese political and military institutions, social divisions, and cultural anxieties. Essential reading in both Japan and masculinity studies. Gary Cross, author of *Men to Boys: The Making of Modern Immaturity*.

The Chakra System with the Minor Chakras Harry Eilenstein, 2022-11-03. Best known are the seven main chakras: Root Chakra, Hara, Solar Plexus, Heart Chakra, Throat Chakra, Third Eye, and Crown Chakra. But they are not the only chakras; there are also, for example, the minor chakras in the arms and the legs. Of particular interest are also the intermediate chakras between the main chakras, which limit their lands like borders with gates that can pump the life force from one chakra to another and play an important role in the formation and resolution of trauma. The chakras are the organs of the life force body. Just as the physical body has a blood circulation, the life force body also has a life force circulation, the Kundalini, which flows in the three central veins of the Sushumna and Ida and Pingala. Furthermore, there is a special form of secondary chakras that transform the images in the chakras into docking points for the outside world: the kshetrams and the aura points. They correspond to the sense organs and the hands of the physical body. In order to be able to grasp this complex system, which is nevertheless constructed in a very simple and coherent way in all its details and in its great elegance, this book compares the knowledge of the chakras of different peoples, the acupuncture points of Chinese Medicine, the Marma points from Indian Ayurveda, and the Rang Dr l points from Tibetan Medicine. The result of these considerations is the description of the meaningful attitude in life after all: the chakras are also the organs of the psyche, and their healthy state therefore is also the healthy attitude of a person.

The Tri-unit Philosophy Porter Mellen Jones, 1906 [The Language Codes](#) R. Neville Johnston, 2000-04-01. Why is it that after we fall in love, so many of us get hurt? Because we fell. But love feels light, energizing. So it would be more fitting to say: I've ascended in love and not set ourselves up for a fall. Johnston will have you laughing out loud as you learn the unconscious ways we disempower ourselves with the words and phrases we've been taught to use. You can even write yourself an emancipation proclamation when you finish reading this book.
