Poles Apart Jeremy Lister, 1997 Taylor & Francis Group, 2010-12-31 Arnhem William F. Buckingham, 2019-03-15
Explore this gripping day by day combat narrative of the infamous battle for a bridgehead over the Rhine **Structure and Assembly** J.E. Hesketh, I.F. Pryme, 1995-11-09 This volume of the treatise deals with structural aspects of the cytoskeleton the characteristics of the filaments and their components the organization of the genes motor proteins interactions with membranes Washing the Brain □ Metaphor and Hidden Ideology Andrew Goatly, 2007-01-17 Contemporary metaphor theory has recently begun to address the relation between metaphor culture and ideology In this wide ranging book Andrew Goatly using lexical data from his database Metalude investigates how conceptual metaphor themes construct our thinking and social behaviour in fields as diverse as architecture engineering education genetics ecology economics politics industrial time management medicine immigration race and sex He argues that metaphor themes are created not only through the universal body but also through cultural experience so that an apparently universal metaphor such as event structure as realized in English grammar is in fact culturally relative compared with e g the construal of cause and effect in the Algonquin language Blackfoot Moreover event structure as a model is both scientifically reactionary and as the basis for technological mega projects has proved environmentally harmful Furthermore the ideologies of early capitalism created or exploited a selection of metaphor themes historically traceable through Hobbes Hume Smith Malthus and Darwin These metaphorical concepts support neo Darwinian and neo conservative ideologies apparent at the beginning of the 21st century ideologies underpinning our social and environmental crises The conclusion therefore recommends skepticism of metaphor s reductionist tendencies *Gift and Duty* Paul H. De Neui, 2017-12-21 Is the Christian concept of grace anathema to the social structure of merit making found in Buddhist karmic communities Are all Buddhist forms of merit making purely for religious purposes to assuage cosmic consequences or are there other reasons Are there not Christian churches who operate under a legalistic view of God s divine wrath and are in essence living as karmic communities of the Christian type The result of discussions about these and other questions is the volume you now hold in your hand SEANET proudly presents what is number 14 in its series of missiological reference texts Gift and Duty Where Grace and Merit Meet Each of the ten authors presented here represent a particular perspective both Christian and Buddhist that can inform the other The goal of this volume is to lead to a deeper understanding of the significance of diverse religious and cultural perspectives **Accounts and Papers of the House of Commons** Great Britain. Parliament. House of Commons, 1867 On the Origin of Tepees Jonnie Hughes, 2011-08-09 Why do some ideas spread while others die off Does human culture have its very own survival of the fittest And if so does that explain why our species is so different from the rest of life on Earth Throughout history we humans have prided ourselves on our capacity to have ideas but perhaps this pride is misplaced Perhaps ideas have us After all ideas do appear to have a life of their own And it is they not us that benefit most when they are spread Many biologists

have already come to the opinion that our genes are selfish entities tricking us into helping them to reproduce Is it the same with our ideas Jonnie Hughes a science writer and documentary filmmaker investigates the evolution of ideas in order to find out Adopting the role of a cultural Charles Darwin Hughes heads off with his brother in tow across the Midwest to observe firsthand the natural history of ideas the patterns of their variation inheritance and selection in the cultural landscape In place of Darwin s oceanic islands Hughes visits the mind islands of Native American tribes Instead of finches Hughes searches for signs of natural selection among the tepees With a knack for finding the humor in the quirks of the American cultural landscape Hughes takes us on a tour from the Mall of America in Minneapolis to what he calls the maul of America Custer s last stand stopping at road sides and discoursing on sandwiches the shape of cowboy hats the evolution of barn roofs the 28 99 wording of jokes the wearing of moustaches and of course the telling features from tepees of different tribes Original witty and engaging On the Origin of Tepees offers a fresh way of understanding both our ideas and ourselves
