Police And The People:

Police and the People Paul Harvey Ashenhurst, 1956 **Breaking Rules: The Social and Situational Dynamics of Young People's Urban Crime** Per-Olof H. Wikström, 2012-05-24

Breaking new ground in the study of crime in urban environments *Breaking Rules: The Social and Situational Dynamics of Young People's Urban Crime* examines the findings, theoretical basis and new methodology of The Peterborough Adolescent and Young Adult Development Study (PADS). This major longitudinal study investigates the role of the social environment on crime causation involving a cohort of 700 young people from the age of 12. A particular aim of PADS is to employ a new theory known as Situational Action Theory as well as the innovative methodology of econometrics combined with space-time budgets to improve the study of young people's offending and its changes. By reviewing the current literature and analysing the theoretical and methodological problems of previous research, the book explains how Situational Action Theory can help overcome central problems in criminological theorising. Using this new and innovative framework, it presents an analysis of the urban structure of Peterborough and its correlation to the differences in social life found in that area. The variations in the urban environment are examined in terms of crime victimization and fear of crime, and a detailed examination of young persons' crime and its spatial patterns is offered through the unique space-time budget data collected within PADS that enables analyses of young people's movements and crime involvement. With implications for policy and prevention as well as being the first study of its kind, this book should be of great interest to policy makers and practitioners interested in issues of urban environments as well as those studying crime in the urban environment and the role of the social environment in crime causation.

Policing in the 21st Century Dr. Lee P. Brown, 2012-12-29

Dr. Lee P. Brown, one of America's most significant and respected law enforcement practitioners, has harnessed his thirty years of experiences in police work and authored *Policing in the 21st Century: Community Policing*. Written for students, members of the police community, academicians, elected officials, and members of the public, this work comes from the perspective of an individual who devoted his life to law enforcement. Dr. Brown began his career as a beat patrolman who, through hard work, diligence, and continued education, became the senior law enforcement official in three of this nation's largest cities. The book is about Community Policing, the policing style for America in the Twenty-First Century. It not only describes the concept in great detail but it also illuminates how it evolved and how it is being implemented in various communities throughout America. There is no other law enforcement official or academician who is as capable as Dr. Brown of masterfully presenting the concept of Community Policing, which he pioneered. As a philosophy, Community Policing encourages law enforcement officials and the people they are sworn to serve to cooperatively address issues such as crime, community growth, and societal development. It calls for mutual respect and understanding between the police and the community. The book is written from the perspective of someone whose peers identify as the father of Community Policing and who personally implemented it in Police Departments under his command. It is a thoroughly amazing book that has been

heralded as a must read for anyone who has an interest in law enforcement Elected officials academicians leaders of the nations police agencies and members of the public will be captivated by Dr Browns literary contribution **Fieldnotes on a Study of Young People's Perceptions of Crime and Justice** Avi Brisman,2022-07-25 This book is an ethnographic examination of the young people who serve voluntarily as judges advocates and other court personnel at the Red Hook Youth Court RHYC in Brooklyn New York a juvenile diversion program designed to prevent the formal processing of juvenile offenders usually first time offenders for low level offenses such as fare evasion truancy vandalism within the juvenile justice system Focusing on the nine to ten week long unpaid training program that the young people undergo prior to becoming RHYC members this book offers a detailed description of young people s experiences learning about crime delinquency justice and law Combining moments of self reflection and autobiographical elements into largely uncooked fieldnotes the book seeks to demonstrate the hegemonic operations of a court the Red Hook Community Justice Center RHCJC a multi jurisdictional problem solving court and community center where the RHYC is housed the processes in which it secures belief in formal justice and the rule of law ensures consent to be governed and reproduces existing social structures An accessible and compelling read this book will appeal to students and scholars of criminology law sociology and youth justice as well as to those undertaking ethnographic research on young people crime and justice **A Glossary of Political Terms of the**
