Oluwagbenga Michael Akinlabi, 2022-04-21 This book offers an historical and contemporary analysis of policing and police citizen relations in Nigeria to understand why people co operate or don t with the police It examines police legitimacy and the validity of procedural justice theory in a post colonial African context where corruption brutality and lack of accountability are not uncommon to find more refined and alternative answers to the question of why people co operate or don t with the police The history of policing in Nigeria is explored first and then procedural justice theory is tested through an extensive cross sectional survey of the public One of the core findings is that citizens co operation with the police is driven

less by legitimacy but more by effectiveness considerations and dull compulsion a concept akin to legal cynicism This study represents one of the first attempts to test and understand dull compulsion and its relevance in this context Overall it develops the field by illustrating that there are significant variations between contexts when addressing the influence of perceived procedural justice policing on perceptions of police legitimacy and it explains the implications for policy makers
