

COMPARATIVE POLICE SYSTEM.

INTRODUCTION

Policing is one of the most important functions undertaken by the every sovereign government. For the state machinery, police is an inevitable organ which would ensure maintenance of law and order, and also the first link in the criminal justice system. On the other hand, for common man, police force is a symbol of brute force of authority and at the same time, the protector from crime. Police men get a corporate identity from the uniform they wear; the common man identifies, distinguishes and awes him on account of the same uniform. The police systems across the world have developed on a socio cultural background, and for this reason alone huge differences exist between these police systems. Policing mainly rests on either of the two broad principles: Policing by consent and Policing by law.
