Police Relics:

Relics of the Christ Joe Nickell, 2007-03-16 Religious relics defined as either portions of or objects connected with the body of a saint or other holy person are among the most revered items in the world Christian relics such as the Holy Grail the True Cross and the Lance of Longinus are also the source of limitless controversy Such items have incited people to bloodshed and some say have been a source of miracles Relics inspire fear and hope among the faithful and yet are a perennial target for skeptics both secular and Christian To research the authenticity of numerous Christian relics Joe Nickell takes a scientific approach to a field of study all too often tainted by premature conclusions In this volume Nickell investigates such renowned relics as the Shroud of Turin the multiple heads of John the Baptist and the supposedly incorruptible corpses of saints first examining the available evidence and documented history of each item From accounts of true believers to the testimony of the relics alleged fabricators Nickell then presents all sides of each story allowing the evidence to speak for itself For each relic Nickell evaluates both the corroborating and contradictory bodies of evidence and explores whether the relic and attributed miracles can be reconstructed In addition to his own experiments Nickell presents findings from the world's top scientists and historians regarding these controversial objects of reverence and ire explaining the circumstances under which each case was examined Radiocarbon dating and tests to determine the validity of substances such as blood or patina indicate a variety of possible origins Nickell even reveals some of the techniques used to create archaeological forgeries and explains how investigators have exposed them Each relic is a mystery to be solved guided by the maxim extraordinary claims require extraordinary proof Nickell seeks only the truth **Police Relics** George E. Relics of War Jennifer Raab, 2024-09-10 How a single haunting image tells a story about violence mourning and memory In 1865 Clara Barton traveled to the site of the notorious Confederate prison camp in Andersonville Georgia where she endeavored to name the missing and the dead The future founder of the American Red Cross also collected their relics whittled spoons woven reed plates a piece from the prison's dead line a tattered Bible and brought them back to her Missing Soldiers Office in Washington DC presenting them to politicians journalists and veterans families before having them photographed together in an altar-like arrangement *Relics of War* reveals how this powerful image produced by Mathew Brady opens a window into the volatile relationship between suffering martyrdom and justice in the wake of the Civil War Jennifer Raab shows how this photograph was a crucial part of Barton's efforts to address the staggering losses of a war in which nearly half of the dead were unnamed and from which bodies were rarely returned home for burial The Andersonville relics gave form to these absent bodies offered a sacred site for grief and devotion mounted an appeal on behalf of the women and children left behind and testified to the crimes of war The story of the photograph illuminates how military sacrifice was racialized as political reconciliation began and how the stories of Black soldiers and communities were silenced Richly illustrated *Relics of War* vividly demonstrates how one photograph can capture a precarious moment in history serving
