Policing and the Condition of England Ian Loader, Aogán Mulcahy, 2003 Citizens it is said have lost faith in the English police Opinion polls repeatedly show that trust in and respect for the police have declined precipitously from the historically high levels achieved during the golden age of the 1950s Successive decades of rising crime political violence and urban disorder miscarriages of justice and declining effectiveness have left the police in what seems like a permanent crisis of legitimation A once revered national institution has become thoroughly profane In this major new work on the relationship between English policing and culture Ian Loader and Aogan Mulcahy reassess and revise this received sociological and popular wisdom on the fate that has befallen the English police Paying close attention to the symbolic and cultural significance of the police Loader and Mulcahy document the mix of profane and sacred sensibilities that struggle with one another to determine the contours of what they call English policing culture They draw on documentary analysis of official representations of policing and oral historical research with citizens police officers former government ministers and civil servants to show that far from being demystified policing is a cultural institution that remains deeply entangled with questions of subjectivity recognition belonging and collective identity This cultural sociology of English policing sheds new light on the social changes and conflicts that have called police authority into question in the decades since 1945 and offers an important appraisal of what is at stake in the contemporary cultural politics of policing

The Oxford Handbook of Police and Policing Michael Dean Reisig, Robert J. Kane, 2014 The police are perhaps the most visible representation of government They are charged with what has been characterized as an impossible mandate control and prevent crime keep the peace provide public services and do so within the constraints of democratic principles The police are trusted to use deadly force when it is called for and are allowed access to our homes in cases of emergency In fact police departments are one of the few government agencies that can be mobilized by a simple phone call 24 hours a day 7 days a week They are ubiquitous within our society but their actions are often not well understood

Plural Policing Trevor Jones, Tim Newburn, 2006-04-18 Policing is changing rapidly and radically An increasingly complex array of public private and municipal bodies as well as public police forces are engaged in the provision of regulation and security Consequently it is difficult to think of security provision primarily in terms of what the public police do and so the terminology of fragmented or plural policing systems has become well established within criminology and

police science Plural policing is now a central issue within criminology and police studies throughout the world and there is now a large and growing body of research and theory concerned with its extent nature and governance To date however this work has been dominated by Anglo American perspectives This volume takes a detailed comparative look at the development of plural policing and provides the most up to date work of reference for scholars in this field Edited by two of the world s leading authorities on policing and including individual contributions from internationally recognised experts in criminology and police studies this is the first ever volume to focus on plural policing internationally and to draw together empirical evidence on its developments in a formal comparative framework *Transformations of Policing* Alistair Henry,2017-05-15 Police and People in London is still the largest and most detailed study of a police force and its relations with the public that has yet been undertaken in Britain The twenty three years since its publication has seen a constantly accelerating rate of change in the legal framework of policing in the arrangements for democratic accountability of the police in the technologies involved in crime and policing in management structures and methods in the police service in financial control systems imposed by central government and in methods of assessing police performance Over the same period crime control has moved from the bottom to the top of the political agenda leading to increasing pressure on the police to be seen to be effective *Transformations of Policing* returns to the central issues discussed in 1983 and considers whether the main conclusions need to be revised in the light of what has happened since It also reviews areas of debate and research that have emerged more recently and highlights areas of turbulence that are creating fundamentally different patterns from before and raising genuinely new questions **Communicating Risk** Jonathan Crichton,Christopher N. Candlin,Arthur S. Firkins,2016-01-05 We live in world increasingly shaped by risk a fact underscored by recent events in the financial markets science and technology environmental policy and biosecurity law enforcement and criminal justice Risk assessment has become a central concern of governments organisations and the professions and the communication of risk is a crucial part of professional work Exploring how risk is discursively constructed across these domains is therefore central to our understanding of how professional practice affects people s lives *Communicating Risk* takes up this challenge with contributions from leading researchers and practitioners that examine key issues of risk communication across diverse professional domains *Selling Security* Alison Wakefield,2012-12-06 In recent years there has been massively increased demand for the services of the private security industry which has now assumed a far greater role in policing areas that were once the sphere of the police for example shopping malls leisure parks and transportation terminals This book provides a detailed account of the developments in urban planning public policy and the commercial world which have promoted the development of private security and provides a unique examination of security teams in operation in three very different environments a shopping mall a retail and leisure complex and an arts centre The study is set within a broader context that considers changes in retail and leisure patterns that have promoted the development of large multi purpose developments

shifts in town centre planning to create more secure high street retail and leisure facilities and the promotion of CCTV and security patrols Finally the book considers the ethical issues that arise with the massively increased use of private security and the broader policy issues which arise

Global Environment of Policing Darren Palmer,Michael M. Berlin,Dilip K. Das,2012-06-05 Police organizations across the globe are experiencing major changes Many nations cope with funding constraints as pressures within their societies terrorism and transnational crime and social and political transformations necessitate a more democratic form of policing Drawn from the proceedings at the International Police Executive Symposium

i **Crime and Security** Lucia Zedner,2017-07-05 The pursuit of security is now central to the development of public policy and a driving force behind the spread of private policing Just as new theoretical frameworks are needed to deal with the increasing tendency of crime control policies to focus on risk reduction new forms of governance are also required to deal with the rapid growth of the private security industry This volume brings together a wide range of contributions from leading scholars in the field and includes international and comparative perspectives on the challenges posed by the rise of the security society

Criminology Eamonn Carrabine,Pamela Cox,Nigel South,Maggy Lee,Ken Plummer,Jackie Turton,2009-01-13 The new edition of Criminology A Sociological Introduction builds on the success of the first edition and now includes two new chapters Crime Place and Space and Histories of Crime More than a collection of orthodox thinking this fully revised and updated textbook is also ground in original research and offers a clear and insightful introduction to the key topics studied in undergraduate criminology courses including crime trends from historical overview to recent crime patterns criminal justice system including policing and prisons ways of thinking about crime and control from the origins of criminology to contemporary theories research methods used by criminologists new topics within criminology including terrorism cybercrime human rights and emotion The book is packed with contemporary international case studies and has a lively 2 colour text design to aid student revision Specially designed to be accessible and user friendly the new edition is also supported by a fully interactive companion website which offers exclusive access to British Crime Survey data as well as other student and lecturer resources
