Policing Citizens Authority And Rights:

Policing Citizens P. A. J. Waddington, 1999 This comparative text serves both as an introduction to contemporary police studies and an intervention into current debates concerning police reform and practice Policing Citizens Peter A. J **Policing Citizens** P.A.J. Waddington, 2002-11 This comparative text serves both as an introduction to contemporary police studies and an intervention into current debates concerning police reform and practice Non-Citizens Leanne Weber, 2013-09-11 Criminologists are increasingly turning their attention to the many points of intersection between immigration and crime control This book discusses the detection of unlawful non citizens as a distinct form of policing which is impacting on a growing range of agencies and sections of society It constitutes an important contribution not only to the literature on policing but also to the field of border control studies within criminology Drawing on the work of Clifford Shearing Ian Loader and P A J Waddington it offers new theoretical approaches to the study of police powers and practice Citizenship and Disadvantaged Groups in Chile Pablo Marshall, 2018-11-27 Citizenship and Disadvantaged Groups in Chile seeks to overcome an existing void in the literature of Latin American studies addressing the impact of Chile's post dictatorial legal framework on its historically and structurally disadvantaged groups concentrating on the various issues and challenges that affect them Within its eleven chapters it explores the changing social and legal status of LGBTI people the political disenfranchisement and the social exclusion that affects imprisoned individuals the harshness of policing on poor and marginalized communities the deprivation of indigenous peoples of meaningful rights the vulnerability that affects workers as a consequence of the existing model of labor relations the disenfranchisement that affects migrants seeking economic opportunities the denial of citizenship to women involved in the prohibition of abortion the unsatisfactory regulation of sex work the prevalence of domestic violence and the absence of adequate means for disadvantaged groups to institutionalize their political representation This book offers a distinctive contribution focusing on a specific country in the Global South that is presently undergoing a process of economic consolidation while facing many of the problems of traditional and unequal Latin American societies Lethal Force, the Right to Life and the ECHR Stephen Skinner, 2019-08-22 In its case law on the use of lethal and potentially lethal force the European Court of Human Rights declares a fundamental connection between the right to life in Article 2 of the European Convention on Human Rights and democratic society. This book discusses how that connection can be understood by using narrative theory to explore Article 2. law s specificities and its deeper historical social and political significance Focusing on the domestic policing and law enforcement context the book draws on an extensive analysis of case law from 1995 to 2017 It shows how the connection with democratic society in Article 2 s substantive and procedural dimensions underlines the right to life s problematic duality as an expression of a basic value demanding a high level of protection and a contextually limited provision allowing states leeway in the use of force Emphasising the need to identify clear standards in the interpretation and application of the right

to life the book argues that Article 2 law s narrative dimensions bring to light its core purposes and values These are to extract meaning from pain and death ground democratic society s foundational distinction between acceptable force and unacceptable violence and indicate democratic society s essential attributes as a restrained responsible and reflective system

The SAGE Handbook of Global Policing Ben Bradford, Beatrice Jauregui, Ian Loader, Jonny Steinberg, 2016-07-14 The SAGE Handbook of Global Policing examines and critically retraces the field of policing studies by posing and exploring a series of fundamental questions to do with the concept and institutions of policing and their relation to social and political life in today's globalized world The volume is structured in the following four parts Part One Lenses Part Two Social and Political Order Part Three Legacies Part Four Problems and Problematics By bringing new lines of vision and new voices to the social analysis of policing and by clearly demonstrating why policing matters the Handbook will be an essential tool for anyone in the field The Oxford Handbook of Police and Policing Michael Dean Reisig, Robert J. Kane, 2014 The police are perhaps the most visible representation of government They are charged with what has been characterized as an impossible mandate control and prevent crime keep the peace provide public services and do so within the constraints of democratic principles The police are trusted to use deadly force when it is called for and are allowed access to our homes in cases of emergency In fact police departments are one of the few government agencies that can be mobilized by a simple phone call 24 hours a day 7 days a week They are ubiquitous within our society but their actions are often not well understood of Austerity Michael Brogden, Graham Ellison, 2013 In the current context of financial retrenchment on public sector budgets public policing in England and Wales today faces the prospect of dramatic change While the question of role and function has been the bedrock of classical sociological theorizing on police this book grounds such theorising in explicating how British policing has arisen through a schismatic process why it is in a present mess and what it should be doing in the future The central themes of this critical text are An analysis of the congeries of roles and functions that our public police in England and Wales currently undertake and how they got there An examination of the effect of arbitrary reduction in police services including a reading of policing politics in an age of austerity A comparative critique of the British Brand of Policing The development of a normative manifesto for the future of British Policing This book will be essential for reading for students researchers and academics alike in criminology police studies and public and social policy The Politics of the Police Benjamin Bowling, Robert Reiner, James W. E. Sheptycki, 2019 The Politics of the Police offers a geographical and historical overview of the law and politics of the police This fifth edition covers a wider range of empirical and theoretical issues encompassing a transnational scope and reflecting the growing diversity of policing forms in today s globalized world

The Future of Policing Jennifer M. Brown, 2013-10-08 The police service in England and Wales is facing major challenges in its financing political oversight and reorganisation of its structures Current economic conditions have created a wholly new environment whereby cost saving is permitting hitherto unthinkable changes in the style and means of delivery of

policing services In the context of these proposed changes Lord Stevens formerly Commissioner of the Metropolitan Police Service was asked to chair an Independent Commission looking into the future of policing The Commission has a wide ranging remit and the papers in this book offer up to date analysis of contemporary problems from the novel perspective of developing a reform agenda to assist the Commission Bringing together contributions from both key academic thinkers and police professionals this book discusses new policing paradigms lays out a case for an evidence based practice approach and draws attention to developing areas such as terrorism public order and hate crime Policing is too important to be left to politicians as the health of a democracy may be judged by the relationship between the police and the public The aim of this book is to question and present analyses of problems offer new ideas and propose realistically achievable solutions without being so timid as to preserve the status quo It will be of interest to both academics and students in the fields of criminology and policing studies as well as professionals in the policing service NGOs and local authority organisations State Building in Putin's Russia Brian D. Taylor, 2011-02-21 This book argues that Putin's strategy for rebuilding the state was fundamentally flawed Taylor demonstrates that a disregard for the way state officials behave toward citizens state quality had a negative impact on what the state could do state capacity Focusing on those organizations that control state coercion what Russians call the power ministries Taylor shows that many of the weaknesses of the Russian state that existed under Boris Yeltsin persisted under Putin Drawing on extensive field research and interviews as well as a wide range of comparative data the book reveals the practices and norms that guide the behavior of Russian power ministry officials the so called siloviki especially law enforcement personnel By examining siloviki behavior from the Kremlin down to the street level State Building in Putin's Russia uncovers the who where and how of Russian state building after communism of Force Michael J. Palmiotto, 2016-08-05 Police use of force has been a major concern for police departments and citizens in the United States since the 1840s when police first started carrying guns Starting with a historical introduction Police Use of Force presents readers with critical and timely issues facing police and the communities they serve when police encounters turn violent Dr Palmiotto offers in depth coverage of the use of force deadly force non lethal weapons militarization of policing racism and profiling legal cases psychology perception and training and violence prevention Police Use of Force also investigates many case studies both famous Rodney King and contemporary Ferguson MO Essential reading for both criminal justice professionals and academics this text places police conflict within a complex modern context inviting cogent conversation in the classroom and the precinct Stop and Search and Police Legitimacy Ben Bradford, 2017-01-06 Stop and search is a form of police citizen interaction that is confrontational often stressful for those involved and potentially damaging to the relationship between police and public The extent to which police officers use their power to stop and perhaps search members of the public is intimately linked not only to the present day context of policing but also to longer term patterns in the aims of policing the ends used to achieve them and ultimately to the ideology of policing in England and

Wales Stop and Search and Police Legitimacy draws upon both police administrative and survey based data to examine what has for many years been one of the most highly charged and contested aspects of police practice Taking a decidedly quantitative empirical approach this book examines the patterning of police stops over social and geographic space the problem of ethnic disproportionality and the evidence concerning how people experience and react to being stopped by police particularly in relation to issues of fairness legitimacy cooperation and compliance A further important concern is the extent to which this form of police practice shapes and re shapes the identities of those affected by it This ground breaking study is a comprehensive resource for students and scholars in the fields of criminology sociology social policy ethnic and racial studies and human rights It will also be of special interest to police leaders and policy makers Policing Tim Newburn, 2012-08-21 This new edition of the Handbook of Policing updates and expands the highly successful first edition and now includes a completely new chapter on policing and forensics It provides a comprehensive but highly readable overview of policing in the UK and is an essential reference point combining the expertise of leading academic experts on policing and policing practitioners themselves Queer Histories and the Politics of Policing Emma K. Russell, 2019-08-13 Despite ongoing challenges to the criminalisation and surveillance of gueer lives police leaders are now promoted as allies and defenders of LGBT rights However in this book Emma K Russell argues that the surface inclusion of select LGBT identities in the protective aspirations of the law is deeply tenuous and conditional and that police recognition is both premised upon and reproductive of an imaginary of good queer citizens those who are respectable responsible and just like their heterosexual counterparts Based on original empirical research Russell presents a detailed analysis of the political complexities compromises and investments that underpin LGBT efforts to achieve sexual rights and protections With a historical trajectory that spans the so called decriminalisation era to the present day she shows how LGBT activists have both resisted and embraced police incursions into queer space and how with LGBT support police leaders have re crafted histories of violence as stories of institutional progress Queer Histories and the Politics of Policing advances broader understandings of the nature of police power and the shifting terrain of sexual citizenship It will be of interest to students and researchers of criminology sociology and law engaged in studies of policing social justice and gender and sexuality **Police Use of Force** Joseph B. Kuhns, Johannes Knutsson, 2010-04-09 A team of expert contributors provides an in depth exploration of police use of force firearms and less than lethal weapons from a dozen countries across five continents Police Use of Force A Global Perspective is a fascinating international exploration of police use of force firearms and less than lethal weapons in nations around the world The book is comprised of three sections the first focuses on the use of force generally the second explores firearms and deadly force and the final section considers less than lethal weapons including pepper spray TASERs and other emerging technologies currently on the horizon The essays gathered here will provide readers with an understanding of the vast differences in how police use force in various countries as well as why police use force differently under different forms

of government Topics covered include use of force definitions training procedures policy issues abuse of police authority use of force during interrogations and the use of firearms by armed and unarmed police forces Finally there is an essay focusing on how shooting and killing a suspect impacts an officer in the months and years that follow Militarization and Democracy in West Germany's Border Police, 1951-2005 David M. Livingstone, 2024 A social history of West Germany's Bundesgrenzschutz BGS Federal Border Police that complicates the telling of the country's history as a straightforward success story The 2020 murder of George Floyd by Minneapolis police officers shows that police violence is still a problem in Western democracies Floyd's murder prompted some critics to hail the German police as a model of democratic policing that should be emulated After 1945 Germany's police forces had supposedly shed the militarization and authoritarian impulses still prevalent in other nations forces These uncritical appraisals however deserve closer analysis This book is a social history of West Germany's Bundesgrenzschutz BGS a federal border guard established in 1951 that became re unified Germany's first national police force It argues that the BGS revived authoritarian traditions of militarized policing and kept them alive long into the postwar era even though the country was supposedly consigning these problematic legacies to its past The BGS was staffed and led by Wehrmacht and SS veterans until the late 1970s and while West Germany was democratizing BGS commanders were still planning to fight wars and were teaching its officers street fighting tactics While the end outcome was positive the study contributes to the growing body of recent research that complicates the writing of the Federal Republic s history as a success story Dealing explicitly with post fascist West Germany's struggle to establish a democratic police force the book enters a conversation with studies concerned with democratization security and Germany's effort to overcome its Nazi past DAVID M LIVINGSTONE holds a PhD in History from the University of California San Diego He is retired as Chief of Police of Simi Valley California and is an adjunct professor at California Lutheran University Policing Images Rob Mawby, 2013-08-21 In recent years the police have become one of the most watched and most visible organisations and across the media there has been constant interest in the police In such a situation the police themselves have been intensely concerned with promoting projecting and protecting the police image This book is concerned to document and to explain this image work the activities in which the police engage that construct and project images of policing Drawing upon first hand research with the police themselves including such examples as the way the South Yorkshire Police handled the Miners Strike and the Hillsborough stadium disaster the book includes a detailed look at police press and public relations officers at work and at operational policing and police work Its broader argument is that image work has the capacity to both legitimate policing and to mask problems of legitimation At a time of intense debate about the future role and nature of the police this book makes a key contribution and raises important questions about the implications of police image work for both democratically accountable policing and the wider transformations in society being brought about by the media and its management Children in Police Custody Miranda Bevan, 2024-01-04 Drawing on the first comprehensive study in England and Wales to review the police custody process from the perspective of children Bevan traces the child's journey from arrest through detention and interview to release or remand A rights based approach is used to evaluate the effectiveness of the protection under the present legal framework
