Policing South Africa The Sap And The Transition From Apartheid:

Police Integrity in South Africa Sanja Kutnjak Ivkovich, Adri Sauerman, 2020-04-29 Policing in South Africa has gained notoriety through its extensive history of oppressive law enforcement. In 1994 as the country's apartheid system was replaced with a democratic order, the new government faced the significant challenge of transforming the South African police force into a democratic police agency, the South African Police Service (SAPS), that would provide unbiased policing to all the country's people. More than two decades since the initiation of the reforms, it appears that the SAPS has rapidly developed a reputation as a police agency beset by challenges to its integrity. This book offers a unique perspective by providing in-depth analyses of police integrity in South Africa. It is a case study that systematically and empirically explores the contours of police integrity in a young democracy. Using the organizational theory of police integrity, the book analyzes the complex set of historical, legal, political, social, and economic circumstances shaping police integrity. A discussion of the theoretical framework is accompanied by the results of a nationwide survey of nearly 900 SAPS officers probing their familiarity with official rules, their expectations of discipline within the SAPS, and their willingness to report misconduct. The book also examines the influence of the respondents' race, gender, and supervisory status on police integrity. Written in a clear and direct style, this book will appeal to students and scholars of criminology, policing, sociology, political science, as well as to police administrators interested in expanding their knowledge about police integrity and enhancing it in their organizations.

Policing and Human Rights Julia Hornberger, 2011-10-21 Policing and Human Rights analyses the implementation of human rights standards, tracing them from the nodal points of their production in Geneva through the board rooms of national police management and training facilities to the streets of downtown Johannesburg. This book deals with how the unprecedented influence of human rights, combined with the inability by police officers to live up to international standards, has created a range of policing and human rights vernaculars, hybrid discourses that have appropriated, transmogrified, and undercut human rights. Understood as an attempt by police officers as much as by the police as a whole to recover a position from which to act and to judge, these vernaculars reveal the compromised ways in which human rights are and are not implemented. Tracing how in South Africa human rights have given rise to new forms of popular justice, informal private policing, and provisional security arrangements, *Policing and Human Rights* delivers an important analysis of how the dissemination and implementation of human rights intersects with the post-colonial and post-transformation circumstances that characterise many countries in the South. *Security Sector Reform in Constitutional Transitions* Zoltan Barany, Sumit Bisarya, Sujit Choudhry, Richard Stacey, 2019-09-19 Security sector reform (SSR) is central to the democratic transitions currently unfolding across the globe as a diverse range of countries grapple with how to transform militias, tribal forces, and dominant military police and intelligence agencies into democratically controlled and accountable security services. Dare Not Linger Nelson Mandela, Mandla Langa, 2017-10-24 A memoir of Mandela's time in office as the first president of a democratic South Africa completed and expanded with his personal notes and speeches I have discovered the secret that after climbing a great hill one only finds that there are many more hills to climb I have taken a moment here to rest to steal a view of the glorious vista that surrounds me to look back on the distance I have come But I can rest only for a moment for with freedom comes responsibilities and I dare not linger for my long walk is not ended In 1994 Nelson Mandela became the first president of a democratic South Africa From the outset he was committed to serving only a single five year term During his presidency he and his government ensured that all of South Africa's citizens became equal before the law and he laid the foundation for turning a country riven by centuries of colonialism and apartheid into a fully functioning democracy Dare Not Linger is the story of Mandela's presidential years drawing heavily on the memoir he began to write as he prepared to leave office but was unable to finish Now the acclaimed South African writer Mandla Langa has completed the task using Mandela's unfinished draft detailed notes that Mandela made as events were unfolding and a wealth of unseen archival material With a prologue by Mandela's widow Graa Machel the result is a vivid and often inspirational account of Mandela's presidency and the creation of a new democracy It tells the story of a country in transition and the challenges Mandela faced as he strove to make his vision for a liberated South Africa a reality Underneath the history that has been made there is a human being who chose hope over fear progress over the prisons of the past Even as he became a legend to know the man Nelson Mandela is to respect him even more Barack Obama A rare human being who in freeing himself of his demons also became free to give his extraordinarily leadership to his country and the world Bill Clinton A critically important document as the principal firsthand record of Mandela's tumultuous time in office and the often ingenious measures he took to bring about peace the book contains many such practical lessons in governance Essential to students of Mandela's political career as well as of modern African history Kirkus Reviews

South Africa's 1994 Elections, 1994 Manufacturing Terrorism in Africa Mohamed Natheem Hendricks, 2020-07-03 This book uses Securitisation Theory to explore how Muslims have been constructed as a security issue in Africa after the 9 11 attacks in the United States These attacks became the rationale for

the US's Global War on Terror (GWOT). The centrality of Africa as an arena to execute the GWOT is the focus of this book. This book explores particularly how western centred security discourses around Muslims has permeated South African security discourse in the post apartheid period. It claims that the popular press and the local think tank community were critical knowledge sites that imported rather than interrogated debates which have underpinned policy initiatives such as the GWOT. Such theorisation seems contrary to the original architects of securitisation theory who maintain that issues become security concerns when institutional voices declare these as such. However this book confirms that non institutional voices have securitised the African Muslims by equating them with terrorism. This book illustrates that such securitisation reproduces partisan knowledge that promote Western interests.
