Manning, 2015-11-17 Democratic policing today is a widely used approach to policing not only in Western societies but increasingly around the world Yet it is rarely defined and it is little understood by the public and even by many of its practitioners Peter K Manning draws on political philosophy sociology and criminal justice to develop a widely applicable fundamental conception of democratic policing In the process he delineates today s relationship between democracy and policing *Democratic Policing in a Changing World* documents the failure of police reform showing that each new approach such as crime mapping and hot spots policing fails to alter any fundamental practice and has in fact increased social inequalities He offers a new and better approach for scholars policy makers police governments and societies **Policing a Safe, Just and Tolerant Society** Peter Villiers, Robert Adlam, 2004 This book examined ethical policing and fundamental values **Functions of the Police in Modern Society** Egon Bittner, 1970 **Police for the Future** David H. Kane, 2014 The police are perhaps the most visible representation of government They are charged with what has been characterized as an impossible mandate control and prevent crime keep the peace provide public services and do so within the constraints of democratic principles The police are trusted to use deadly force when it is called for and are allowed access to our homes in cases of emergency In fact police departments are one of the few government agencies that can be mobilized by a simple phone call 24 hours a day 7 days a

week They are ubiquitous within our society but their actions are often not well understood Police Use of Force under International Law Stuart Casey-Maslen, Sean Connolly, 2017-08-10 The first detailed description of when and how the police may use force under the international law of law enforcement **Police Violence** William A. Geller, Hans Toch, 1959-12-11 Although the prevalence of police citizen conflict has diminished in recent decades police use of excessive force remains a concern of police departments nationwide This timely book focuses on what is known and what still needs to be learned to understand prevent and remediate police abuse of force The topics covered include a theory of police abuse of force the causes of police brutality measures of its prevalence the violence prone police officer public opinion about police abuse of force the issue of race officer selection training and attitudes police unions and police culture administrative review procedural justice and the review of citizen complaints the role of lawsuits and a survey of police brutality abroad In the final chapter Geller and Toch suggest new directions for research and practical innovations in law enforcement from which both police and citizens can benefit The contributors to this volume are scholars of criminology criminal justice social psychology law and public administration former police managers a police union leader civilian oversight agency administrators and analysts civil liberties advocates police litigation expert witnesses and media commentators The combination of theoretical and practical perspectives makes this book ideal for students and scholars of democratic policing and for those in police departments government and the media charged with addressing and understanding the problem of improper exercise of force *Criminal Justice Theory* Roger Hopkins Burke, 2013-03 Criminal Justice Theory examines the theoretical foundations of criminal justice in the modern era whilst also considering legal philosophy and ethics explaining criminal behaviour and discussing policing the court process and penology in the context of contemporary socio economic debates Throughout the book a realist theoretical thread acts as a guide interlinking concepts of social progress conflict and cerebral models of criminal justice whilst also recognizing our collusion in the creation of an increasingly pervasive culture of socio control which now characterizes contemporary society The complex theoretical issues tackled in this book are addressed in an accessible style making this a relevant and comprehensive introduction to criminal justice theory for students on a wide range of undergraduate criminal justice modules It is also a helpful guide for those commencing postgraduate studies in the disciplines of criminal justice criminology and law **Critiquing Evidence-Based Policing in Britain** Paul Betts, 2024-07-03 Evidence Based Policing EBP exerts significant influence on how actors think act and speak about UK policing to the point that it is becoming institutionalised Inspired by the insights of Michel Foucault into power knowledge governmentality and institutional reform over time this book provides a comprehensive account of the emergence of EBP in Britain as well as original discourse analysis and analytical research into the texts produced by EBP It presents a new history of EBP presented around EBP s story lines subject positions and the institutional changes it has created This history shows EBP shares a genealogical heritage with modern discourses of managerialism and neoliberalism EBP s roots are traced and it

is re presented as an extension of the problematic relationship in the production of criminological knowledge and the British state This history fundamentally challenges the notion on which EBP rests basing policing policy upon independent robust knowledge Instead this book argues EBP should be subject to greater illumination and challenge suggesting EBP is a contestable device that is doing political work It speaks to those interested in policing critical criminology and political science

The Future of Policing Jennifer Brown, 2013-10-08 The police service in England and Wales is facing major challenges in its financing political oversight and reorganisation of its structures Current economic conditions have created a wholly new environment whereby cost saving is permitting hitherto unthinkable changes in the style and means of delivery of policing services In the context of these proposed changes Lord Stevens formerly Commissioner of the Metropolitan Police Service was asked to chair an Independent Commission looking into the future of policing The Commission has a wide ranging remit and the papers in this book offer up to date analysis of contemporary problems from the novel perspective of developing a reform agenda to assist the Commission Bringing together contributions from both key academic thinkers and police professionals this book discusses new policing paradigms lays out a case for an evidence based practice approach and draws attention to developing areas such as terrorism public order and hate crime Policing is too important to be left to politicians as the health of a democracy may be judged by the relationship between the police and the public The aim of this book is to question and present analyses of problems offer new ideas and propose realistically achievable solutions without being so timid as to preserve the status quo It will be of interest to both academics and students in the fields of criminology and policing studies as well as professionals in the policing service NGOs and local authority organisations
