Policy Making For Russian Industry:

Policy-Making for Russian Industry Stephen Fortescue, 1997-03-27 A description of the contemporary Russian economy on the basis of an analysis of economic policy making structures and procedures The empirical detail is concentrated in the heavy industry sector although the relationships between all sectors receive attention All sources of policy making input are examined the presidency and central governmental agencies sectoral state agencies industrial representative associations parliament and the regions and individual enterprises Policy making procedures receive considerable attention as part of an effort to distinguish sharply between formal and informal styles of policy making **Routledge Handbook of Russian**

Politics and Society Graeme Gill, James Young, 2013-03 There is an ever burgeoning number of books analyzing the Russian experience or aspects of it This Handbook is the first single volume which gives both a broad survey of the literature as well as highlighting the cutting edge research in the area Through both empirical data and theoretical investigation each chapter in the Routledge Handbook Russian of Politics and Society examines both the Russian experience and the existing literature points to research trends and identifies issues that remain to be resolved Offering focused studies of the key elements of Russian social and political life the book is organized into the following broad themes General introduction Political institutions Political Economy Society Foreign Policy Politically economically and socially Russia has one of the most interesting development trajectories of any major country This Handbook seeks to answer questions about democratic transition the relationship between the market and democracy stability and authoritarian politics the development of civil society the role of crime and corruption and the creation of a market economy Providing a comprehensive resource for scholars and policy makers alike this book is an important contribution to the study of Russian Studies Eastern European studies and International Relations **Reforming the Russian Industrial Workplace** Elena Shulzhenko, 2017-04-21

Based on extensive original research this book explores how far the Soviet pattern of industrial workplace organisation characterised by a high level of management discretion authoritarian control and the use of punitive methods on the shop floor has been replaced by internationally established practices with a greater emphasis on a lean organisation and employee involvement in quality improvement The book explores how the market reforms of the 1990s raised companies attention to product quality but did not lead to a change in the management methods which only began with the increased internationalisation of the Russian economy in the 2000s The book includes a rich in depth study of multinational and domestic companies and argues that a move from the Soviet pattern of workplace organisation to new practices is only likely to occur in companies with strong ties to international partners who provide support for and audit the implementation and upholding of international management standards The research shows that local companies not exposed to such international collaboration continue with the old methods *Russian Environmental Politics* Ellie Martus, 2017-07-06 This book explores how policymaking works in Russia focusing on the important field of environmental policy It argues that contrary to the

prevailing view that power is concentrated in the president's hands policy is in fact made by the bureaucracy and influential industry and industrial association lobbyists

Russian Military Reform Carolina Vendil Pallin, 2008-08-29 This book examines reform of the Russian military since the end of the Cold War. It explores the legacy of the Soviet era explaining why at the time of the fall of the Soviet Union radical reform was long overdue in the wake of changing military technology, new economic and political realities and the emergence of new threats and challenges. It discusses the problems encountered by Gorbachev in his attempts to promote military reform in the late 1980s and goes on to analyse in detail the mixed fortunes of the policies of his successors Yeltsin and Putin. It describes how the onset of war in Chechnya in 1994 provided clear evidence of the weaknesses of the Russian military in modern conflicts and shows that although the Chechnya debacle did provide some impetus for reforms in the armed forces in 1997-98 the momentum was not continued under the Putin government. It argues that Putin's policies of bolstering central control over all aspects of decision making has left untouched many key problems facing the Russian military including infighting between different force structures, lack of transparency and independent scrutiny over defence spending and absence of consensus on the main threats to Russia and optimum force posture. Moreover, it argues that in his attempts to concentrate all means of control to a corrupt and inefficient Kremlin bureaucracy, Putin has deprived himself of all alternative channels of independent scrutiny, control and oversight, thus exacerbating the problems that continue to plague the Russian military.

Explaining Post-Soviet Patchworks Klaus Segbers, 2017-10-05 This title was first published in 2001. Based on extensive research, this trilogy provides new insights into Post-Soviet transformations without taking refuge in the traditional assumption that Russia is unique. Using powerful analytical tools, this trilogy marks the re-integration of the Former Soviet Union (FSU) into the main current of political science. An invaluable resource for all those interested in Russia and the Post-Soviet states. This first volume focuses on state, sectoral and transnational actors from a predominantly rational choice perspective. The book includes an extensive introduction by the editor which uses additional material gathered by the project team on two polls, 1999 and 2000, which in addition to the individual studies provide sufficient data to obtain unprecedented insights into the basic preferences and the logic of action of the main players in Russia. The outcomes of this research will be particularly relevant for students, researchers, journalists and decision makers interested in Russia and the Post-Soviet states, politics, international relations, economics, social policy and sociology.

Building Big Business in Russia Yuko Adachi, 2013-09-05 This book examines the development of big business in Russia since the early 1990s, explaining how post-Soviet enterprises, many of which made little sense as business units, were restructured into functional firms. It includes detailed case studies of three leading companies: Yukos Oil Company, Siberian Russian Aluminium and Norilsk Nickel.

Economic Policy Making and Business Culture David A. Dyker, 2012 This book addresses one of the fundamental problems in Russian society and in Russia's relations with the rest of the world: Why do Russians tend to react differently from us in given diplomatic or business situations? Why do they find the notion of a

contract difficult to grasp Why do they seem hostile to the principle of the level playing field How do they see Russia's position within the globalised economy In order to probe these issues the author begins with a historical analysis looking at the pattern of political and economic development since Tsarist times always asking the questions What is unique to Russia in all this and which unique features tend to recur in different periods In seeking to illuminate the interface between Russia and the world the author also examines Russia's attitude to itself and to its own resources natural and human to land as an agricultural resource and later oil and gas and to people as cheap labour and as highly trained scientific personnel This book is firmly based on scholarly sources in English French and Russian but aims to go beyond the academic audience to address the concerns of people encountering Russians and Russian organizations in their everyday lives

The Oxford Handbook of the Russian Economy Michael Alexeev, Shlomo Weber, 2013-06-04 By 1999 Russia's economy was growing at almost 7% per year and by 2008 reached 11th place in the world GDP rankings Russia is now the world's second largest producer and exporter of oil the largest producer and exporter of natural gas and as a result has the third largest stock of foreign exchange reserves in the world behind only China and Japan But while this impressive economic growth has raised the average standard of living and put a number of wealthy Russians on the Forbes billionaires list it has failed to solve the country's deep economic and social problems inherited from the Soviet times Russia continues to suffer from a distorted economic structure with its low labor productivity heavy reliance on natural resource extraction low life expectancy high income inequality and weak institutions While a voluminous amount of literature has studied various individual aspects of the Russian economy in the West there has been no comprehensive and systematic analysis of the socialist legacies the current state and future prospects of the Russian economy gathered in one book The Oxford Handbook of the Russian Economy fills this gap by offering a broad range of topics written by the best Western and Russian scholars of the Russian economy While the book's focus is the current state of the Russian economy the first part of the book also addresses the legacy of the Soviet command economy and offers an analysis of institutional aspects of Russia's economic development over the last decade The second part covers the most important sectors of the economy The third part examines the economic challenges created by the gigantic magnitude of regional geographic ethnic religious and linguistic diversity of Russia The fourth part covers various social issues including health education and demographic challenges It will also examine broad policy challenges including the tax system rule of law as well as corruption and the underground economy

Michael Alexeev and Shlomo Weber provide for the first time in one volume a complete well rounded and essential look at the complex emerging Russian economy The Russian Economy under Putin Torbjörn Becker, Susanne Oxenstierna, 2018-10-03 This book presents a comprehensive view of the state of the Russian economy under President Putin It considers the extent of Russia's integration in the world economy where Russia's exports of oil and gas are a key factor discusses Russia's internal challenges including changing demographics declining government revenue the need to counter over reliance on the oil and gas sector and the consequences of high military spending and assesses the prospects for economic reform highlighting especially the power struggles between different vested interests Overall the book provides a basis for understanding what has been going on in the Russian economy under President Putin and what the future may look like given the external environment internal challenges and reform processes Corruption and the Russian Economy Yulia Krylova, 2018-04-17

Corruption and the Russian Economy examines why the number of entrepreneurs is declining so rapidly in contemporary Russia how many economic opportunities are being irrevocably lost each year because of administrative corruption and why entrepreneurship has become one of the most dangerous occupations in the country over the last decade Based on extensive research including in depth interviews with entrepreneurs and case studies it reveals a corrupt system of government agencies at both the regional and local levels and the increasing involvement of public officials in unlawful seizures of businesses One major conclusion is that the vast majority of informal payments by entrepreneurs to regulatory agencies are made not to achieve illegal advantages but rather to secure the property rights that they are entitled to under the law

The Political Economy of Russian Aluminium Jakub M. Godzimirski, 2017-07-18 This book addresses how the progress of the Russian aluminium industry which has developed into an important global actor has been influenced by the interaction of global market forces and the evolution of the Russian political system After the collapse of the Soviet Union Russian aluminium producers needed to adapt to changing framework conditions both with regards to the global aluminium market and in Russia Examining the most important changes in the organization of the global aluminium trade the reorganization and consolidation of Russian aluminium industry and its oligarchization Godzimirski charts the evolution of the relationship between political and economic power in Russia and the impact that this development has had on survival and adaptation strategies of key aluminium players in the country Reducing Structural Dominance and Entry Barriers in Russian
