stirring in world affairs The Political Economy of Agricultural and Food Policies Johan Swinnen, 2018-05-24 Winner of the European Association of Agricultural Economists Book Award Food and agriculture have been subject to heavy handed government interventions throughout much of history and across the globe both in developing and in developed countries Today more than half a trillion US dollars are spent by some governments to support farmers while other governments impose regulations and taxes that hurt farmers Some policies such as price regulations and tariffs distribute income but reduce total welfare by introducing economic distortions Other policies such as public investments in research food standards or land reforms may increase total welfare but these policies come also with distributional effects These distributional effects influence the preferences of interest groups and in turn influence policy decisions Political considerations are therefore crucial to understand how agricultural and food policies are determined to identify the constraints within which welfare enhancing reforms are possible or not and finally to understand how coalitions can be created to stimulate growth and reduce poverty WTO Negotiations and Agricultural Trade Liberalization Eugenio Díaz-Bonilla, Søren Elkjær Frandsen, Sherman Robinson, 2006 The purpose of this book is to analyze the effects of developed countries agricultural policies on developing countries. The main focus is on food security poverty and other topics such as multifunctionality biotechnology and regional agreements as an input to policy reform within the World Trade Organization WTO trade negotiations The book arises from a joint project between the Food and Resource Economics Institute in Denmark and the International Food Policy Research Institute in Washington Food Politics Robert Paarlberg, 2013-10 In a lively and easy to navigate question and answer format Food Politics carefully examines and explains the most important issues on today s global food landscape Agricultural Trade Reform and the Doha Development Agenda Kym Anderson, Will Martin, 2005-11-16 Providing the most complete and up to date analysis of the range of agricultural issues under negotiation in the multilateral trade negotiations underway in the World Trade Organization WTO this title is a valuable resource to policymakers agricultural private sector and academics in developing and assessing the negotiating options Agriculture: The United States and the 1999 WTO Ministerial Meeting, **Starved for Science** Robert Paarlberg, 2009-08-05 In Starved for Science Paarlberg explains why poor African farmers are denied access to productive technologies particularly genetically engineered seeds with improved resistance to insects and drought He traces this obstacle to the current opposition to farm science in prosperous countries
