*Polis And Imperium* Edward Togo Salmon, 1974 *Polis And Imperium* Studies in Honour of Edward Togo Salmon **Polis and Imperium** James Allan Stewart Evans, 1974 **Athenian Political Thought and the Reconstitution of American Democracy** J. Peter Euben, John R. Wallach, Josiah Ober, 2018-07-05 In the contemporary United States the image and experience of Athenian democracy has been appropriated to justify a profoundly conservative political and educational agenda Such is the conviction expressed in this provocative book which is certain to arouse widespread comment and discussion What does it mean to be a citizen in a democracy Indeed how do we educate for democracy These questions are addressed here by thirteen historians classicists and political theorists who critically examine ancient Greek history and institutions texts and ideas in light of today's political practices and values They do not idealize ancient Greek democracy Rather they use it with all its faults as a basis for measuring the strengths and shortcomings of American democracy In the hands of the authors ancient Greek sources become partners in an educational dialogue about democracy's past one that goads us to think about the limitations of democracy's present and to imagine enriched possibilities for its future The authors are diverse in their opinions and in their political and moral commitments But they share the view that insulating American democracy from radical criticism encourages a dangerous complacency that Athenian political thought can disrupt

*Athenian Political Thought and the Reconstruction of American Democracy* J. Peter Euben, John R. Wallach, Josiah Ober, 1994 A collection of essays on Athenian democracy organized in three sections on situating the Athenian democracy in relation to various regimes exploring how discourse in democratic Athens displayed awareness of democracy's limitations and creating direct dialogues between the discourse of Athenian democracy and that of contemporary thought Annotation copyright by Book News Inc Portland OR **Demokratia** Josiah Ober, Charles Hedrick, 2021-03-09 This book is the result of a long and fruitful conversation among practitioners of two very different fields ancient history and political theory The topic of the conversation is classical Greek democracy and its contemporary relevance The nineteen contributors remain diverse in their political commitments and in their analytic approaches but all have engaged deeply with Greek texts with normative and historical concerns and with each others arguments The issues and tensions examined here are basic to both history and political theory revolution versus stability freedom and equality law and popular sovereignty cultural ideals and social practice While the authors are sharply critical of many aspects of Athenian society culture and government they are united by a conviction that classical Athenian democracy has once again become a centrally important subject for political debate The contributors are Benjamin R Barber Alan Boegehold Paul Cartledge Susan Guettel Cole W Robert Connor Carol Dougherty J Peter Euben Mogens H Hansen Victor D Hanson Carnes Lord Philip Brook Manville Ian Morris Martin Ostwald Kurt Raaflaub Jennifer Tolbert Roberts Barry S Strauss Robert W Wallace Sheldon S Wolin and Ellen Meiksins Wood *The City in the Classical and Post-Classical World* Claudia Rapp, H. A. Drake, 2014-04-14 In its various incarnations the Roman Empire

survived until 1918 when the last two rulers to bear the title Caesar Kaiser Wilhelm in Germany and Tsar Nicholas II of Russia fell from power This volume contains the thinking of an international team of twelve scholars who analyze two of the most important changes in political and religious identity brought about by that empire a change from the Greek kinship and polis based system to the territorial system of imperial Rome and the development of a universal religious consciousness that lasted from the adoption of Christianity in the fourth century to the development of the nation state in modern times

**European Values in International Relations** Vilho Harle, 2016-10-06 This book focuses on the problems and issues surrounding the idea of Europeanism The theory that common values would form the basis of a single European identity is argued against and the contributors concentrate on dualistic distinctions especially the dichotomy of friend and enemy in European political and international thought and suggest alternatives to them *Miracle Discourse in the New Testament*

Duane F. Watson, 2012-10-26 This volume explores the rhetorical role that miracle discourse plays in the argumentation of the New Testament and early Christianity The investigation includes both the rhetoric within miracle discourse and the rhetorical role of miracle discourse as it was incorporated into the larger works in which it is now a part The volume also examines the social cultural religious political and ideological associations that miracle discourse had in the first century Mediterranean world bringing these insights to bear on the broader questions of early Christian origins The contributors are L Gregory Bloomquist Wendy Cotter David A deSilva Davina C Lopez Gail O Day Todd Penner Vernon K Robbins and Duane F Watson **Aufstieg und Niedergang der römischen Welt: Principat. v** Hildegard Temporini, Wolfgang Haase, 1980

*The Different Faces of Politics in the Visual and Performative Arts* Mario Thomas Vassallo, Andre P. Debattista, 2023-12-22 This book highlights the linkages between politics and governance and the arts The essays in the volume show how visual and performative arts have challenged those in power or conversely patronised by them been used for propaganda to stir up national fervour and found themselves at the receiving end of political censure They focus on the tension and symbiosis between the politician and the artist foregrounding how they have always tried to influence challenge and in some cases undermine one another This volume will serve as an indispensable source for researchers and academics in political science the humanities and performing arts **The Greek Discovery of Politics** Christian Meier, 1990 Why the Greeks How did it

happen that these people out of all Mediterranean societies developed democratic systems of government The outstanding German historian of the ancient world Christian Meier reconstructs the process of political thinking in Greek culture that led to democracy He demonstrates that the civic identity of the Athenians was a direct precondition for the practical reality of this form of government Meier shows how the structure of Greek communal life gave individuals a civic role and discusses a crucial reform that institutionalized the idea of equality before the law In Greek drama specifically Aeschylus Oresteia he finds reflections of the ascendancy of civil law and of a politicizing of life in the city state He examines the role of the leader as well as citizen participation in Athenian democracy and describes an ancient equivalent of the idea of social progress He

also contrasts the fifth century Greek political world with today's world drawing revealing comparisons The Greek Discovery of Politics is important reading for ancient historians classicists political scientists and anyone interested in the history of political thought or in the culture of ancient Greece *From Solon to Socrates* Victor Ehrenberg, 2010-10-04 From Solon to Socrates is a magisterial narrative introduction to what is generally regarded as the most important period of Greek history Stressing the unity of Greek history and the centrality of Athens Victor Ehrenberg covers a rich and diverse range of political economic military and cultural issues in the Greek world from the early history of the Greeks including early Sparta and the wars with Persia to the ascendancy of Athens and the Peloponnesian War **Sovereign City** Geoffrey Parker, 2004 This title provides an examination of the rise evolution and decline of the city state from ancient times to the present day

Pre-Revolution Origin of the USSR Carroll Quigley, 1958 *Aetolia and the Aetolians* Sebastiaan Bommeljé, Peter K. Doorn, 1987 *Revisiting Diaspora Spaces in India: A Contemporary Overview* Joydev Maity, 2023-09-12 This edited volume is a detailed and critical study of Indian diaspora writings and its diverse themes It focuses on dynamics and contemporary perspectives of Indian diaspora writings and analyzes emerging themes of this field like the experience of the Bihari diaspora migration to Gulf countries the relation between diasporic experience and self translation uprootedness and resistance discourse through ecocritical praxis and many more With the aid of a subtle theoretical framework the volume closely examines some of the key texts such as Goat Days Baumgartner's Bombay An Atlas of Impossible Longing The Circle of Reason and authors including Shauna Singh Baldwin M G Vassanji Sarat Chandra Chattopadhyay V S Naipaul and others The book also explores diaspora literature written in regional language and later translated into English and how they align with the fundamental Indian diaspora writings A significant contribution to Indian diaspora writings this volume will be of great importance to scholars and researchers of diaspora literature migration and border studies cultural memory and translation studies **Politics of the Archaic Peloponnese** K. Adshead, 1986 Early Christian Encounters with Town and Countryside Markus Tiwald, Jürgen Zangenberg, 2021-04-12 Ever since Jesus walked the hills of Galilee and Paul travelled the roads of Asia Minor and Greece Christianity has shown a remarkable ability to adapt itself to various social and cultural environments Recent research has demonstrated that these environments can only be very insufficiently termed as rural or urban Neither was Jesus Galilee only rural nor Paul's Asia only urban On the background of ongoing research on the diversity of social environments in the Early Empire this volume will focus on various early Christian worlds as witnessed in canonical and non canonical texts How did Early Christians experience and react to rural and urban life What were the mechanisms behind this adaptability Papers will analyze the relation between urban Christian beginnings and the role of the rural Jesus tradition In what sense did the image of Jesus the Galilean village Jew change when his message was carried into the cities of the Mediterranean world from Jerusalem to Athens or Rome Papers will not only deal with various personalities or literary works whose various attitudes towards urban life became formative for future Christianity They will also explore the different

local milieus that demonstrate the wide range of Christian cultural perspectives      **Mundus** ,1967      **Parables as Subversive Speech** William R. Herzog II,1994-05-01 William Herzog shows that the focus of the parables was not on a vision of the glory of the reign of God but on the gory details of the way oppression served the interests of the ruling class The parables were a form of social analysis as well as a form of theological reflection Herzog scrutinizes their canonical form to show the distinction between its purpose for Jesus and for evangelists To do this he uses the tools of historical criticism including form criticism and redaction criticism
