American Warsaw Dominic A. Pacyga, 2022-12-22 American Warsaw chronicles the unique nature of Chicago's Polonia its community of Poles and Polish descendants outside of Poland Chicago Tribune Notable Book of 2019 For more than a century Chicago has been home to one of the largest Polish populations outside of Poland and the group has had an enormous influence on the city's culture and politics Yet until now there has not been a comprehensive history of the Chicago Polonia With American Warsaw award winning historian and Polish American Dominic A Pacyga chronicles more than a century of immigration and later emigration back to Poland showing how the community has continually redefined what it means to be Polish in Chicago He takes us from the Civil War era until today focusing on how three major waves of immigrants refugees and fortune seekers shaped and then redefined the Polonia Pacyga also traces the movement of Polish immigrants from the peasantry to the middle class and from urban working class districts dominated by major industries to suburbia He documents Polish Chicago's alignments and divisions with other Chicago ethnic groups with the Catholic Church with unions politicians and city hall and even among its own members And he explores the ever shifting sense of Polskosc or Polishness American Warsaw is a sweeping story that expertly depicts a people who are deeply connected to their historical home and at the same time fiercely proud of their adopted city As Pacyga writes While we were Americans we also considered ourselves to be Poles In that strange Chicago ethnic way there was no real difference between the two

Chicago Made Robert Lewis, 2009-05-15 From the lumberyards and meatpacking factories of the Southwest Side to the industrial suburbs that arose near Lake Calumet at the turn of the twentieth century manufacturing districts shaped Chicago's character and laid the groundwork for its transformation into a sprawling metropolis Approaching Chicago's story as a reflection of America's industrial history between the Civil War and World War II Chicago Made explores not only the well documented workings of centrally located city factories but also the overlooked suburbanization of manufacturing and its profound effect on the metropolitan landscape Robert Lewis documents how manufacturers attracted to greenfield sites on the city's outskirts began to build factory districts there with the help of an intricate network of railroad owners real estate developers financiers and wholesalers These immense networks of social ties organizational memberships and financial relationships were ultimately more consequential Lewis demonstrates than any individual achievement Beyond simply giving Chicago businesses competitive advantages they transformed the economic geography of the region Tracing these transformations across seventy five years Chicago Made establishes a broad new foundation for our understanding of urban industrial America

Packing Them In Sylvia Hood Washington, 2017-06-23 Sylvia Hood Washington's Packing Them In provides strong and often startling evidence of the depths and complexities of environmental racism in Chicago and offers an innovative historical explanation for how this social ill developed in nineteenth and twentieth century America Drawing from Michel Foucault's concept of power knowledge and from theories of racial formation Washington also demonstrates how the process through which some European immigrant groups were reclassified from non white to white over time allowed them to move out of spaces where they faced environmental injustice into spaces of environmental privilege This argument represents a significant contribution to environmental justice studies and suggests a comparative and relational ethnic studies approach to future treatments of the subject Packing Them In is a path breaking book and a welcome addition to the fields of environmental history and environmental justice studies David Naguib Dehlisen professor of Environmental Studies University of California Santa Barbara and author of *Garbage Wars: The Struggle for Environmental Justice in Chicago* A pathbreaking book Sylvia Hood Washington uses Chicago as a case study of how human health inequalities in urban environments change over time In showing the ways white identity shaped exposure to environmental pollutants in the nineteenth and early twentieth centuries she provides historical context to the environmental racism identified in the United States in the late twentieth century Packing Them In is instructive for those seeking to understand the structural origins of the present struggle for environmental justice and a model for undertaking studies of urban environmental history that address the struggle This model remains as important today as it was when Packing Them In was first published Carl Zimring associate professor and coordinator of the Sustainability Studies Pratt Institute and author of *Clean and White: A History of Environmental Racism*

Packing Them In is a path breaking book that is a must read for anyone interested in understanding how the social political and economic dimensions of urban environmental issues evolve over time Packing Them In makes a significant contribution to the environmental justice literature as it challenges the notion that racism and inequalities arise solely from black white dynamics By using history to understand the evolution of racial and spatial dynamics and by embedding the work in Michel Foucault theoretical framework of power and knowledge Washington demonstrates the importance of expanding traditional environmental justice frameworks in the analysis of case studies such as these Dorceta E Taylor James E Crowfoot collegiate professor of the University of Michigan School of Natural Resources and Environment *The Making of Urban America* Raymond A.
