## **Polish Presence In Canada And America:**

**Encyclopedia of Diasporas** Melvin Ember, Carol R. Ember, Ian Skoggard, 2004-11-30 Immigration is a topic that is as important among anthropologists as it is the general public. Almost every culture has experienced adaptation and assimilation when immigrating to a new country and culture, usually leaving for what is perceived as a better life. Not only does this diaspora change the country of adoption but also the country of origin. Many large nations in the world have absorbed and continue to absorb large numbers of immigrants. The foreseeable future will see a continuation of large scale immigration as many countries experience civil war and secessionist pressures. Currently, there is no reference work that describes the impact upon the immigrants and the immigrant societies relevant to the world's cultures and provides an overview of important topics in the world's diasporas. The encyclopedia consists of two volumes covering three main sections: **Diaspora Overviews** covers over 20 ethnic groups that have experienced voluntary or forced immigration. These essays discuss the history behind the social, economic, and political reasons for leaving the original countries and the cultures in the new places. **Topics** discusses the impact and assimilation that the immigrant cultures experience in their adopted cultures, including the arts they bring, the struggles they face, and some of the cities that are in the forefront of receiving immigrant cultures. **Diaspora Communities** include over 60 portraits of specific diaspora communities. Each portrait follows a standard outline to facilitate comparisons. The *Encyclopedia of Diasporas* can be used both to gain a general understanding of immigration and immigrants and to find out about particular cultures, topics, and communities. It will prove of great value to researchers and students, curriculum developers, teachers, and government officials. It brings together the disciplines of anthropology, social studies, political studies, international studies, and immigrant and immigration studies.

**Muslim American City** Alisa Perkins, 2020-07-07 Explores how Muslim Americans test the boundaries of American pluralism. In 2004, the al-Islah Islamic Center in Hamtramck, Michigan, set off a contentious controversy when it requested permission to use loudspeakers to broadcast the adhān or Islamic call to prayer. The issue gained international notoriety when media outlets from around the world flocked to the city to report on what had become a civil battle between religious tolerance and Islamophobic sentiment. The Hamtramck council voted unanimously to allow mosques to broadcast the adhān, making it one of the few US cities to officially permit it through specific legislation. *Muslim American City* explores how debates over Muslim Americans' use of both public and political space have challenged and ultimately reshaped the boundaries of urban belonging. Drawing on more than ten years of ethnographic research in Hamtramck, which boasts one of the largest concentrations of Muslim residents of any American city, Alisa Perkins shows how the Muslim American population has grown and asserted itself in public life. She explores, for example, the efforts of Muslim American women to maintain gender norms in neighborhoods, mosques, and schools, as well as Muslim Americans' efforts to organize public responses to municipal initiatives. Her in-depth fieldwork incorporates the perspectives of both Muslims and non-Muslims, including Polish Catholics, African American Protestants, and

other city residents Drawing particular attention to Muslim American expressions of religious and cultural identity in civil life particularly in response to discrimination and stereotyping Perkins questions the popular assumption that the religiosity of Muslim minorities hinders their capacity for full citizenship in secular societies She shows how Muslims and non Muslims have through their negotiations over the issues over the use of space together invested Muslim practice with new forms of social capital and challenged nationalist and secularist notions of belonging      Refractions of Germany in Canadian Literature and Culture Heinz Antor,2003 This volume presents a series of in depth studies of particular authors or specific aspects of Germany in Canadian literature and culture present and past Individual investigations resonate with each other adding up to a larger picture of Canada s views on Germany and things German in all their richness complexity and historical persistence      **Encyclopedia of Local History** Amy H.
