Modernity Peter Wagner, 2013-04-18 We live in a modern age but what does modern mean and how can a reflection on modernity help us to understand the world today These are the questions that Peter Wagner sets out to answer in this concise and accessible book Wagner begins by returning to the question of modernity's Western origins and its claims to open up a new and better era in the history of humanity Modernity's claims and expectations have become more prevalent and widely shared but in the course of their realization and diffusion they have also been radically transformed In an acute and engaging analysis Wagner examines the following key issues among others Modernity was based on the hope for freedom and reason but it created the institutions of contemporary capitalism and democracy How does the freedom of the citizen relate to the freedom of the buyer and seller today And what does disaffection with capitalism and democracy entail for the sustainability of modernity Rather than a single model of modernity there is now a plurality of forms of modern socio political organisation What does this entail for our idea of progress and our hope that the future world can be better than the present one All nuance and broadening notwithstanding our concept of modernity is in some way inextricably tied to the history of Europe and the West How can we compare different forms of modernity in a symmetric non biased or non Eurocentric way How can we develop a world sociology of modernity

The Economy of Desire (The Church and Postmodern Culture) Daniel M. Jr. Bell, 2012-11-01 In this addition to the award winning Church and Postmodern Culture series respected theologian Daniel Bell compares and contrasts capitalism and Christianity showing how Christianity provides resources for faithfully navigating the postmodern global economy Bell approaches capitalism and Christianity as alternative visions of humanity God and the good life Considering faith and economics in terms of how desire is shaped he casts the conflict as one between different disciplines of desire He engages the work of two important postmodern philosophers Deleuze and Foucault to illuminate the nature of the postmodern world that the church currently inhabits Bell then considers how the global economy deforms desire in a manner

that distorts human relations with God and one another In contrast he presents Christianity and the tradition of the works of mercy as a way beyond capitalism and socialism beyond philanthropy and welfare Christianity heals desire renewing human relations and enabling communion with God **Locations of Buddhism** Anne M. Blackburn, 2010-04-15 Modernizing and colonizing forces brought nineteenth century Sri Lankan Buddhists both challenges and opportunities How did Buddhists deal with social and economic change new forms of political religious and educational discourse and Christianity And how did Sri Lankan Buddhists collaborating with other Asian Buddhists respond to colonial rule To answer these questions Anne M Blackburn focuses on the life of leading monk and educator Hikkaduve Sumangala 1827 1911 to examine more broadly Buddhist life under foreign rule In Locations of Buddhism Blackburn reveals that during Sri Lanka's crucial decades of deepening colonial control and modernization there was a surprising stability in the central religious activities of Hikkaduve and the Buddhists among whom he worked At the same time they developed new institutions and forms of association drawing on pre colonial intellectual heritage as well as colonial period technologies and discourse Advocating a new way of studying the impact of colonialism on colonized societies Blackburn is particularly attuned here to human experience paying attention to the habits of thought and modes of affiliation that characterized individuals and smaller scale groups Locations of Buddhism is a wholly original contribution to the study of Sri Lanka and the history of Buddhism more generally

Heidegger's Children Richard Wolin, 2015-08-25 Martin Heidegger is perhaps the twentieth century's greatest philosopher and his work stimulated much that is original and compelling in modern thought. A seductive classroom presence he attracted Germany's brightest young intellectuals during the 1920s. Many were Jews who ultimately would have to reconcile their philosophical and often personal commitments to Heidegger with his nefarious political views. In 1933 Heidegger cast his lot with National Socialism. He squelched the careers of Jewish students and denounced fellow professors whom he considered insufficiently radical. For years he signed letters and opened lectures with Heil Hitler. He paid dues to the Nazi party until the bitter end. Equally problematic for his former students were his sordid efforts to make existential thought serviceable to Nazi ends and his failure to ever renounce these actions. This book explores how four of Heidegger's most influential Jewish students came to grips with his Nazi association and how it affected their thinking. Hannah Arendt, who was Heidegger's lover as well as his student, went on to become one of the century's greatest political thinkers. Karl L. with returned to Germany in 1953 and quickly became one of its leading philosophers. Hans Jonas grew famous as Germany's premier philosopher of environmentalism. Herbert Marcuse gained celebrity as a Frankfurt School intellectual and mentor to the New Left. Why did these brilliant minds fail to see what was in Heidegger's heart and Germany's future? How would they after the war reappraise Germany's intellectual traditions? Could they salvage aspects of Heidegger's thought? Would their philosophy reflect or completely reject their early studies? Could these Heideggerians forgive or even try to understand the betrayal of the man they so admired? *Heidegger's Children* locates these paradoxes in the wider cruel irony that European Jews experienced their greatest calamity immediately following their fullest assimilation. And it finds in their responses answers to questions about the nature of existential disillusionment and the juncture between politics and ideas.
