especially powerful tool in politics today particularly for women By examining the political careers of four of the most prominent and influential women in contemporary U S politics\_Democrats Ann Richards and Hillary Rodham Clinton and Republicans Christine Todd Whitman and Elizabeth Dole\_Karrin Vasby Anderson and Kristina Horn Sheeler illustrate how metaphors in public discourse may be both familiar narratives to embrace and boundaries to overturn Politics, Propaganda and Public Opinion: the Influence of Race and Class on the 1993 - 1994 Health Care Reform Debate Fard Johnson,2005-12 In 1993 President Bill Clinton presented his Health Security Act to the US Congress The legislation was intended to reform the nation s health care system while mandating the provision of health insurance to all Americans A number of factors influenced the genesis and demise of the Act between 1993 and 1994 including presidential politics opposition from powerful interest groups and waning public support for the legislation This thesis investigates whether and how race and class influenced debate over Clinton s health care reform proposal Evidence is presented that race and class affected Clinton s decision to champion healthcare reform lent credibility to health insurance industry advertisements opposing the president s legislation and influenced public opinion on government financed health care and by extension health care reform These findings indicate that race and class may have played a role in the evolution and resolution of the 1993 to 1994 health care reform debate **The Moral Authority of Government** Henry Barbera,R. Hoxie,2023-05-31 These new essays prepared to commemorate the centennial of the National Institute of Social Sciences have been carefully crafted to deal with an overriding concern of our time those elements in political rule that go beyond legal rights and responsibilities into the moral requirements of effective governance The principal theme of this book is presidential leadership The presidency personifies government authority including moral authority In the first part of this book most of the essays argue that the moral authority of leaders depends on high personal standards as well as policy outcomes The second segment on the rule of law and character raises considerations not limited to the presidency Character and the authority that derives from it are demonstrated most effectively not by what someone does in his or her personal life but in the moral values of the causes espoused and effectiveness in pursuing them In the realm of international affairs governmental leadership must wrestle with the moral and constitutional guidelines known as reasons of state Under what circumstances is it morally acceptable for a leader or government to practice deception upon the citizenry to overthrow other governments to bomb civilians Many contributors raise the issue of what permits a government to take actions that would be immoral or illegal in individuals or groups The final segment expands and deepens this theme by exploring the work and role of non governmental agencies that influence both leaders and citizens in the public arena In short at a period that brings to a close a period in which the presidency has become more visible as well as more prominent this collective effort sheds new light on classic themes It will be an invaluable guide as we enter the new century The contributors include an illustrious galaxy of public officials and political scientists including Madeleine K Albright Judith A Best Betty Glad C Lowell Harriss

*Political Conversion* Don Waisanen, 2018-04-20

Stories of religious conversion have been told for millennia. Yet many prominent figures such as Ronald Reagan, Hillary Clinton, and Rick Perry have also used stories of their change from one political worldview to another as a communication strategy aimed at winning the hearts and minds of the public. This book is about political conversion stories in public discourse in their evolution from and interactions with religion. From a historical perspective, it charts the development of conversion narratives from religious contexts to their contemporary applications as specifically political messages. Since these narratives continue to be used in the culture wars, this book examines several related autobiographies that contributed to the use of this strategy in contemporary U.S. politics. Each case shows how shifts during the postwar period called for conversion texts under varying guises and illustrates how and why the majority of these stories have been of conversions from the ideological left to the right. Examining political conversion as a form of public persuasion, *Political Conversion* ultimately provides insight into what these types of civic religious stories mean for democratic communication and communities.
