Health Insurance Reforms in Asia Sabrina Ching Yuen Luk, 2014-03-26 This book empirically examines health care financing reforms and popular responses in three major cities in East Asia: Shanghai, Singapore and Hong Kong. It adopts a new revised version of the theory of historical institutionalism to compare and explain the divergent reform paths in these three places over the past three decades. It also examines forces that propel institutional change. The book provides three detailed case studies on the development of health care financing reforms and the politics of implementing them. It shows that health care systems in Shanghai, Singapore and Hong Kong were the products of Western presence in the nineteenth century. It illustrates how greater attention is paid to the roles played by ideas, actors and environmental triggers without abandoning the core assumptions that political institutions and policy feedback remain central to impact health care financing reforms. It shows that health care financing reform is shaped by a complex interplay of forces over time. It also provides the most updated material about health care financing reforms in Shanghai, Singapore and Hong Kong. The central argument of this book is that health care financing reform is both an evolving process responding to changing circumstances and a political process revealing an intricate interplay of power relationships and diverse interests. It shows that institutional changes in health care financing system can be incremental but transformative in nature. It argues that social policies will continue to develop and welfare states will continue to adapt and evolve in order to cope with new risks and needs. This book sheds new lights on understanding the politics of health care financing reform and sources and modes of institutional change.

The Political Life of Medicare Jonathan Oberlander, 2003-06 In recent years bitter partisan disputes have erupted over Medicare reform. Democrats and Republicans have fiercely contested issues such as prescription drug coverage and how to finance Medicare to absorb the baby boomers. As Jonathan Oberlander demonstrates in *The Political Life of Medicare*, these developments herald the reopening of a historic debate over Medicare's fundamental purpose and structure. Revealing how Medicare politics and policies have developed since Medicare's enactment in 1965 and what the program's future holds, Oberlander's timely and accessible analysis will interest anyone concerned with American politics and public policy, health care politics, aging and the welfare state.

Urban Political Analysis Professor Patrick Dunleavy, 1980-01-01

The Politics of European Security Policies Xymena Kurowska, Patryk Pawlak, 2014-06-03 The book is a timely investigation into the European security policy dynamic from the perspective of actors engaged in the contentious policy process Instead of looking at security actors in isolation from one another the book enquires into the practice of the policy process and maps out the constellations of formal and informal actors sponsoring concrete ideas on what European security should be about The understandings of security shift and advocating a particular reading of security involves entering the political contest with actors advancing different conceptions The contributors analyse these different modalities overlapping scenes and shifting meanings that bring about EU security policies Our case studies illustrate how these processes unfold both at the intra EU level where different institutions supply and endorse their security framings and vis vis the EU and its neighbours The purpose of the book is to uncover by pluralistic means the rules of the game that structure the field of the EU's security making That way rather than impose a rigid theoretical model the editors structure the inquiry around three concepts security politics and policy This book was published as a special issue of Perspectives on European Politics and Society
