which it would take 1.6 planet earths to replace. We are already undermining the ecological systems which support all of life. Our present economic system has led to an unbelievable degree of economic inequality. To maintain this inequality both between nations and within nations military force is used and democracy is replaced by oligarchy. This book documents in detail the serious economic problems of today's world and it also proposes sustainable solutions. *The Economics of Thomas Robert Malthus* Samuel Hollander, 1997-01-01.
