Political Economy Of Basic Human Needs

Christian A. Conrad

Political Economy Of Basic Human Needs:

The Political Economy of Basic Human Needs Bruce Edward Moon, 1991 This volume reflects a new emphasis in development economics on conditions that promote the realization of human potential Moon defines development goals as attainment of basic needs and the reduction of absolute poverty He evaluates the effects of the state and political system as well as the role of the military in relation to these goals and makes a careful distinction between absolute poverty of basic needs deprivation and the relative poverty associated with income inequality Asserting that the normative case for concern with the poor is unassailable universal and compelling the author insists that the provision of basic needs may be necessary for rapid growth The volume includes a discussion of methodological premises in an appendix ISBN 0 8014 2448 8 45 00

Sustainability and the Political Economy of Welfare Max Koch, Oksana Mont, 2016-04-28 Welfare is commonly conceptualized in socio economic terms of equity highlighting distributive issues within growing economies While GDP income growth and rising material standards of living are normally not questioned as priorities in welfare theories and policy making there is growing evidence that Western welfare standards are not generalizable to the rest of the planet if environmental concerns such as resource depletion or climate change are considered Sustainability and the Political Economy of Welfare raises the issue of what is required to make welfare societies ecologically sustainable Consisting of three parts this book regards the current financial economic and political crisis in welfare state institutions and addresses methodological theoretical and wider conceptual issues in integrating sustainability Furthermore this text is concerned with the main institutional obstacles to the achievement of sustainable welfare and wellbeing and how these may feasibly be overcome How can researchers assist policymakers in promoting synergy between economic social and environmental policies conducive to globally sustainable welfare systems Co authored by a variety of cross disciplinary contributors a diversity of research perspectives and methods is reflected in a unique mixture of conceptual chapters historical analysis of different societal sectors and case studies of several EU countries China and the US This book is well suited for those who are interested in and study welfare ecological economics and political economy

The Political Economy of Poverty, Vulnerability and Disaster Risk Management Munyaradzi Mawere, 2017-11-29 Poverty remains a thorny and topical challenge and research topic to scholars and researchers on African development Scholars in the Global North have since the Second World War sought to research poverty and underdevelopment in Africa postulating what they think are the major causes of insipid and abject poverty in the continent but with little or no success on how to solve the poverty enigma Sadly little research and homework have been done by scholars in context in Africa on why there seems to be more production rather than eradication of poverty and vulnerability in Africa and among Africans This book is born out of the realisation for the need for both scholars on the ground and outside Africa to earnestly interrogate and reflect on the poverty situation that continues to haunt the people of Africa and rattle the conscience of the world at large With contributors from across the

continent and beyond the volume offers a balanced and rigorous multi faceted analysis of Africas poverty and vulnerability from a rich tapestry of perspectives The volume is handy to scholars and students in the fields of African and development studies as well as to students of Sociology Anthropology Political Science and Policy Studies *The Political Economy of Human Rights in Armenia* Simon Payaslian,2011-06-30 Since its independence from the Soviet Union in 1991 Armenia has experienced a reversal from democratization to a Soviet style authoritarian regime and has been accused of repressive approaches to human rights Here Simon Payaslian juxtaposes a masterful survey of the history of the Armenian people from the nineteenth century through the first republic 1918 21 and Sovietization to the present with the evolution of international human rights standards and argues that a statist and authoritarian political culture has impeded political liberalization and institutionalization of human rights principles Highlighting the clash between sovereignty on one side and human rights and democracy on the other this comprehensive and in depth analysis is essential for all those interested in human rights democratization political repression and the former Soviet republics **The Political Economy of Work** David Spencer,2008-09-25 This book offers a new and unique assessment of the theoretical analysis of work challenging some common preconceptions and promoting an original approach to the field contemplating its nature development and its impact on human well being **The Political Economy of Human Happiness** Benjamin Radcliff,2013-03-25 Data methods and theories of contemporary social science can be applied to resolve how political outcomes in democratic societies determine the quality of life that citizens experience Radcliff seeks to provide an objective answer to the debate between left and right over what public policies best contribute to people leading positive and rewarding lives Radcliff offers an empirical answer relying on the same canons of reason and evidence required of any other issue amenable to study through social scientific means The analysis focuses on the consequences of three specific political issues the welfare state and the general size of government labor organization and state efforts to protect workers and consumers through economic regulation The results indicate that in each instance the program of the Left best contributes to citizens leading more satisfying lives and critically that the benefits of greater happiness accrue to everyone in society rich and poor alike **Political Economy** Christian A. Conrad,2020-11-26 This textbook takes a new approach to political economy it combines the well known non quantitative theories with the findings of behavioral science and other disciplines such as psychology and sociology The question of how people behave and how such behavior can be guided towards moral welfare for everyone is the focus of this book The knowledge is first derived scientifically then the results are presented in summaries and conclusions Case studies provide a link to practice By means of exercises and behavioral games readers can apply and deepen their acquired knowledge Inside Capitalism: An Introduction to Political Economy Paul Phillips,2007 These Days Almost Anyone Is Bound To Be Depressed By The Litany Of Economic Woes Besieging Canada Mainstream Economists Politicians And Business Leaders Claim That Workers Wages Must Fall That The Social Safety Net Must Be Stripped Away That Taxes Must Be Cut And That

Environmental Regulations Must Be Relaxed There Is No Alternative We Are Told If Canada Is To Be Competitive But Is This Really The Case If We Are To Even Begin To Respond To This New Economic Mantra We Have To Know What Makes Our Economy Tick In *Inside Capitalism* Paul Phillips Introduces Us To Political Economic Analysis That Explains Why Firms Behave As They Do Why We Have Such A High Level Of Economic Monopoly And Who Benefits From The Economic Structure Of Capitalism In So Doing Phillips Shows Us That Traditional Economic Analysis Is Mainly Ideology Clearly The Dismal Prospects That Average Canadians Face Are Not The Result Of Immutable Economic Laws But Rather Due To The Political And Economic Power That Business Has Amassed With The Aid Of Successive Governments And The Bank Of Canada

Nonviolent Political Economy Freddy Cante, Wanda Tatiana Torres, 2019-07-05 *Nonviolent Political Economy* offers a set of theoretical solutions and practical guidelines to build an economy of nonviolence which implies a social state of peacefulness involving minimal violence and minimal destruction of nature The book provides renewed reflections on heterodox economics ecological economics anthropology Buddhism Gandhianism disarmament and business ethics as well as innovative initiatives such as Blue Frontiers It also sets out feasible solutions to rebuild countries that have suffered prolonged conflicts such as Syria Iraq and Kurdistan Bringing together authors from around the world this collection includes new perspectives on the abolition of profit disarmament obliteration of the consumer society expansion of collective property Buddhist and Gandhian economies small scale and artisanal production the increasing use of clean energies a gradual reduction in the human population political processes closer to direct and radical democracy and anarchy Discussing cutting edge developments this book provides valuable tools to build alternatives to the prevailing models of violent political economy It will be of great interest to a public of critical citizens students and researchers from a range of disciplines and backgrounds and all those seeking to understand the fundamental concepts of nonviolent political economy

The European Union and Supranational Political Economy Riccardo Fiorentini, Guido Montani, 2014-12-05 The financial crisis originated in 2008 in the United States had a dramatic impact on the world economy The European Union was immediately involved but its reaction to the crisis was clearly inadequate The misgovernment of the European economy not only put at risk the European Monetary Union but it also caused further hindrances to the recovery of the global economy The global financial turmoil shook deep rooted beliefs The doctrine of international neo liberalism is more and more criticized Nevertheless the critics of neo liberalism focus their attention on the relationship between the state and the market as if the nation states with their international organisations have enough power for an effective global governance of the world economy The model of European supranational integration though seriously imperfect can suggest some new way out from the crisis even at the world level based on a new relationship between the supranational government of the Union and the market In this book several academic disciplines are involved international economics international political economy international law international relations political theory and democratic theory Adopting such a multidisciplinary theoretical

perspective the volume tries to answer the following question Is a more supranational Europe able to provide a better government of the EMU Does this reform involve more European democracy *The U.S. Role in a Changing World Political Economy*, 1979 Global Political Economy and the Wealth of Nations Phillip O'Hara, 2004-03-25 This comprehensive collection documents the major processes performance institutions problems and policies associated with global political economy For the first time in a single volume the authors present a detailed analysis of the changing distribution and production of wealth throughout the world different measures of performance the glob **Comparative Inquiry In Politics And Political Economy** Ronald H Chilcote, 2018-03-05 Comparative Inquiry in Politics and Political Economy provides all the essentials for a superb introductory text in comparative politics comprehensive in scope historical in approach and fair minded in its treatment of liberal conservative and radical perspectives The best single survey of the field available today for classroom use James Petras SUNY Binghamton The student of comparative political inquiry now has a safe map to guide their way Ronald Chilcote has produced a fine overview of the theories and politics of this field equally attentive to mainstream and radical alternatives alike With a balance that does not preclude passion Chilcote provides a unique critical engagement with the subject of comparative politics and political economy Ronaldo Munck University of Liverpool Prof Chilcote has made a magisterial contribution to the social sciences This book situates comparative politics and international relations within the context of the development of social and economic thought over the past two hundred years It is an excellent resource for introducing upper division students to advanced ideas in the social sciences or for graduate students seeking a secure foundation in the intellectual development of the field Prof Chilcote s attention to a wide range of ideological and theoretical tendencies in the social sciences makes this book vastly more comprehensive than the syllabi of many graduate level survey courses Gregory Nowell SUNY Albany In this sweeping intellectual history of comparative politics and political economy Chilcote resolutely refuses to take for granted the assumptions of the Euro American mainstream Instead his refreshing survey juxtaposes the dominant approaches systematically to Marxist and other alternative paradigms Clear and direct exposition makes this a valuable text for advanced undergraduate and graduate students Richard Stahler Sholk Eastern Michigan University As an introductory text in comparative study this work begins with the assumption that students should examine a variety of perspectives and explore alternative possibilities as a means of arousing curiosity stimulating creativity building interest and self motivation and enhancing understanding of complex issues in politics and political economy The book provides the student with the foundations for comparative inquiry Its purpose is threefold to sketch an overview of the major theories and concepts to expose issues and summarize arguments and counter arguments and to encourage the beginning student to pursue critical thinking in the recognition that mainstream ideas deserve scrutiny that many essential questions remain unsettled and that the outcome may result in the formulation and reinforcement of a personal perspective premised on one s individual learning **Political Economy from Below** Rob

Knowles,2017-07-05 Communitarian anarchism is a generic form of socialism that denies the need for a state or any other authority over the individual from above and which requires absolute belief that the individual cannot exist outside of a community of others This book suggests that the communitarian anarchists of the nineteenth century developed and articulated a distinct tradition of economic thought The period of this study begins with the first major writing of the French communitarian anarchist Pierre Joseph Proudhon in 1840 and ends with the temporary burial of anarchist theorizing at the beginning of the First World War in 1914 However he tradition of communitarian anarchist economic thought did not end in 1914 The economic thought explored in this book provides a fresh perception of the fragmentation evident in many societies today especially where there is a substantial informal economy **Global Political Economy** Theodore H. Cohn,2015-08-07 Praised for its authoritative coverage Global Political Economy places the study of IPE in its broadest theoretical context This text not only helps students understand the fundamentals of how the global economy works but also encourages them to use theory to more fully grasp the connections between key issue areas like trade and development Written by a leading IPE scholar Global Political Economy equally emphasizes theory and practice to provide a framework for analyzing current events and long term developments in the global economy *Theories Of Comparative Political Economy* Ronald H Chilcote,2018-02-05 Professor Chilcote has written an extraordinary comprehensive comparison of mainstream liberal views and alternative radical views of history development class government and democracy This book will be extremely valuable to both students and scholars Howard Sherman University of California Riverside Theories of Comparative Political Economy builds on die proposition that the study of politics and economics has evolved into political economy in a number of significant ways and that the new issues and ideas that became prominent in the 1980s and 1990s will cany on into the new millennium This book is a sequel to Chilcote s Theories of Comparative Politics Westview 1981 which was substantially revised and published in a second edition in 1994 *Political Economy of China's Climate Policy* Jiahua Pan,2022-06-21 This book covers major advances in China s climate policy over the past decade and presents theoretical approaches to climate justice and low carbon transformation from a Chinese perspective It analyzes the political economy of China s climate policy and subsequently addresses the following major aspects carbon emissions and human rights equity and carbon budgets economic analysis of low carbon transformation economics of adaptation to climate change and international climate regime building **GLOBAL SECURITY AND INTERNATIONAL POLITICAL ECONOMY - Volume IV** P.Bilgin, P.D. Williams, M. Sekiguchi, J. K. Galbraith, S. T. Inayatullah, J. Wiener, R. A. Schrire, I.L. Murphy,2010-09-19 Global Security and International Political Economy is a component of Encyclopedia of Social Sciences and Humanities in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias This 6 volume set contains several chapters each of size 5000 30000 words with perspectives issues of great relevance to our world such as Global Security Global Security and the International System The Regional Dimension of Global Security The National Dimension Of

Global Security The Societal Dimension Of Global Security The Human Security Agenda In World Politics History Of Empires And Conflicts The Myth Of The Clash Of Civilizations In Dialogical Historical Context Causes And Prevention Of Armed Conflict International Development Policies And Global Security Environment And Global Security Political Economy Of International Security Political Issues In Human Resource Development Globalization And The Consumer Society These volumes are aimed at the following five major target audiences University and College students Educators Professional practitioners Research personnel and Policy analysts managers and decision makers and NGOs

Encyclopedia of Political Economy: A-K Phillip Anthony O'Hara,1999 Based on developments in political economy since the 1960s this text is a compendium of the main principles concepts problems institutions schools and policies associated with political economy It is a comprehensive introduction to the field *Encyclopedia of Political Economy* Phillip O'Hara,1999-02-04 Content Description Includes bibliographical references and index
