**The Political Economy of Germany under Chancellors Kohl and Schröder** Jeremy Leaman, 2009-07-01 While unification has undoubtedly had major effects on Germany's political economy the pattern of current policy making preferences was established at an earlier stage in particular at the beginning of the Kohl era in 1982 This essentially neo liberal pattern can be seen to have dominated the modalities chosen to guide Germany through the process of unification and was mirrored in developments in other OECD countries and in particular within the EU This book demonstrates that the three policy imperatives neo liberal structural reform European monetary integration and unification produced a policy mix which together with other structural economic and demographic factors has had disappointing results in all three areas and hampered Germany's overall economic development

**Political Economy of Agrarian Reform in Central and Eastern Europe** Johan F.M Swinnen, 2018-08-10 First published in 1997 this volume responds to the challenges faced in post Communist Eastern Europe in the privatization and decollectivisation of agriculture The contributors feature specialists in agriculture finance economics and political science They begin with discussions on the political economy of privatization and a historical overview and continue with thoughts on agricultural decollectivization in twelve countries across Eastern Europe including Albania the Baltic countries Bulgaria Slovakia and Hungary The project reflects the basic framework of endogenous institutional change and policy analysis and uses a political economy framework to explain and interpret these agricultural trends

*The Political Economy of National Security, Critical Infrastructure and Securitization of Foreign Investments* Jakub M. Godzimirski, Morten Skumsrud Andersen, 2024-12-30 This book examines how new flows of foreign direct investments from autocracies are framed their effects and the policy responses to them within the context of challenges to the international liberal order Chapters address thematic and regional issues from national investment controls and threat perceptions to China and Russia's responses Collectively they explore a new dynamic in international politics the securitization of money crossing borders Historically foreign investments operated under minimal global regulation based on the assumption that they were beneficial and profit driven However the past decade has witnessed a radical shift in approaches to foreign investments due to changing investment patterns and the entry of state sponsored actors into this traditionally unregulated realm China and Russia are seen to leverage foreign investments to advance their long term economic and political objectives The book comprehensively examines the subsequent repositioning of foreign investment policy and its consequences for national and international politics

Law and the Political Economy of Hunger Anna Chadwick, 2019-01-31 This book is an inquiry into the role of law in the contemporary political economy of hunger In the work of many international institutions governments and NGOs law is represented as a solution to the persistence of hunger This presentation is evident in the efforts to realize a

human right to adequate food as well as in the positioning of law in the form of regulation as a tool to protect society from unruly markets In this monograph Anna Chadwick draws on theoretical work from a range of disciplines to challenge accounts that portray law's role in the context of hunger as exclusively remedial The book takes as its starting point claims that financial traders caused the 2007-8 global food crisis by speculating in financial instruments linked to the prices of staple grains The introduction of new regulations to curb the excesses of the financial sector in order to protect the food insecure reinforces the dominant perception that law can solve the problem Chadwick investigates a number of different legal regimes spanning public international law international economic law transnational governance private law and human rights law to gather evidence for a counterclaim law is part of the problem The character of the contemporary global food system a food system that is being progressively financialized owes everything to law If world hunger is to be eradicated Chadwick argues then greater attention needs to be paid to how different legal regimes operate to consistently privilege the interests of the wealthy few over the needs of poor and the hungry

**Market Reforms in Mexico** Mark Eric Williams, 2001 Taking Mexico as an example Williams political science Middlebury College considers the various successes and failures of market based reforms in areas like privatization deregulation and environmental policy He assesses policy initiatives under various administrations and compares Mexico's privatization efforts to those of Argentina Three case studies are presented and the findings analyzed in a comparative framework The role of coalitions in successful reforms is emphasized c Book News Inc

**Political Economy of Transition** Jozef M. van Brabant, 2012-11-12 This book addresses the policy questions surrounding the challenge of transforming eastern European economies from their planned administrative past to vibrant market based entities Jozef van Brabant considers in turn the wider set of challenges facing these economies stabilization privatization liberalization institution building and developing and maintaining the sociopolitical consensus before examining the evolving role of the state Using concrete examples from the eastern European countries throughout including the Czech Republic and Bulgaria this work systematically examines in a society wide context the initial conditions of transformation the policy tasks ahead and the manner in which policies have been pursued

Privatization in Eastern Germany Herbert Brücker, 2005-07-27 This book gives an analysis of privatization and restructuring by the Treuhandanstalt in East Germany It also addresses the theoretical and conceptual problems of large scale privatization in the transformation process

*The political economy of privatization* Bernardo Bortolotti, Kira Börner, Paolo Pinotti, 2003

**Between Presidential Power and Legislative Veto** Andreas Hahn, 2010 Reform success and reform delay are subject to a variety of explanations In general high decisiveness leads to reform propensity while its absence or high resoluteness to policy gridlock The Brazilian reform experience is contradicting both aspects are present factors leading to decisiveness as well as those inducing gridlock and reform delay Leaving the static point of view and accounting for a dynamic development this apparent contradiction gets resolved in fact the executive gained growing leeway

during the 1990s providing it with the means to achieve a higher degree of decisiveness of the political system by simultaneously guaranteeing resoluteness. It is however greatly mistaken to consider this development as a blank cheque to universal encompassing reforming in all areas. Despite growing executive dominance and growing policy consensus some particular reforms were a success while others did not surpass its initial stages. This is finally due to path dependency and explicit policy specificities triggering different institutional constraints and veto points which even strong Presidents cannot override.

Political Economy of Palestine Alaa Tartir, Tariq Dana, Timothy Seidel, 2021-05-18. This book explores the political economy of Palestine through critical interdisciplinary and decolonial perspectives underscoring that an approach to economics that does not consider the political a de politicized economics is inadequate to understanding the situation in occupied Palestine. A critical interdisciplinary approach to political economy challenges prevailing neoliberal logics and structures that reproduce racial capitalism and explores how the political economy of occupied Palestine is shaped by processes of accumulation by exploitation and dispossession from both Israel and global business as well as from Palestinian elites. A decolonial approach to Palestinian political economy foregrounds struggles against neoliberal and settler colonial policies and institutions and aids in the de fragmentation of Palestinian life land and political economy that the Oslo Accords perpetuated but whose histories of de development over all of Palestine can be traced back for over a century. The chapters in this book offer an in depth contextualization of the Palestinian political economy analyze the political economy of integration fragmentation and inequality and explore and problematize multiple sectors and themes of political economy in the absence of sovereignty.

Privatization and Culture Peter B. Boorsma, Annemoon van Hemel, Niki van der Wielen, 2013-12-01. CARIA BODO Board Member of the Cultural Information and Research Centres liaison in Europe CIRCLE and Director of the Observatory for the Performing Arts at the Department of the Performing Arts of the Italian Prime Minister's Office Roma. The relation between the public and the private sector in the field of culture the central theme of this publication was thoroughly debated during the 1997 CIRCLE Round Table in Amsterdam. It was not the first time CIRCLE addressed this issue. In 1988 CIRCLE's Bureau was invited to participate in a seminar in Budapest on The State the Market and Culture. I will never forget the emotional impact of Sacha Rubinstein's demonization of state support and his apotheosis of the role of the market in the cultural field in Russia. So in advance of actual events we suddenly had a premonition of what was going to happen of the turmoil which was about to radically change the socio political scene of Central and Eastern Europe. Six years later in 1994 we met again in Budapest for a Conference on The Distribution of Roles between Government and Arts Councils Associations and Foundations.

The Political Economy of Water and Sanitation Matthias Krause, 2010-04-02. According to recent estimates around 6 000 people mostly children under five die every day from diseases caused by inappropriate water and sanitation services. Much of the academic and political debate surrounding this issue has focused on private sector participation. By shifting the attention towards the influence of governance Krause examines

the political and sectoral institutions that are essential for the provision of WS services Utilizing data from sixty nine developing countries Matthias Krause demonstrates that the level of democracy has a statistically significant positive impact on access to WS services and that low quality governance of sub national governments compromises the internal efficiency of providers and the widespread access to services This book makes a critical contribution to the water and sanitation research and will help academics and policy makers to rethink the way in which they deal with water issues **IBSS: Political**

Manuel Couret Branco,2019-06-05 Over time there has been a miscommunication between mainstream economics and human rights that has paved the way to a justificatory ideology that validates the submission of human rights to the logic of market capitalism This book shows how the discourse of mainstream economics is intrinsically opposed to the strengthening of human rights and outlines the principles upon which a human rights based political economy can be built Considering a variety of recognized human rights such as the right to water and sanitation the right to social security the right to work cultural freedom and democracy this book describes how mainstream economics theory conflicts with these rights and explores alternative modes of thinking that incorporate human rights concerns into economics Moreover the book also reflects on the teaching of political economy for human rights It sets out that a political economy favourable to human rights must be pluralist interdisciplinary participatory de commodified non utilitarian and non consequentialist The author proposes that it must not only assume the performative character of economics but also and especially its transformative purpose Political Economy for Human Rights will offer students academics activists and policy makers useful tools to understand some of the main contradictions of contemporary societies and new paths leading to a more just and fraternal world It will also be of great interest to the general public concerned with human rights and economic issues
