Political Economy Of Protest And Patience East European And Latin American Transformations Compared:

The Political Economy of Protest and Patience Béla Greskovits, 1998 10 Crisis proof poor democracies *The Political Economy of Emerging Markets and Alternative Development Paths* Judit Ricz, Tamás Gerőcs, 2023-02-17 This volume is the continuation of our research on economic and developmental policy making in the global semi periphery in the post crisis cycle see our two recently published volumes titled *Market Liberalism and Economic Patriotism in Capitalist Systems* edited by Gerőcs and Szanyi 2019 Palgrave Macmillan and *The Post Crisis Developmental State Perspectives from the Global Periphery* edited by Gerőcs and Ricz 2021 Our new volume aims to be a contribution to the analysis of emerging market economies alternative development trajectories as we explore the new perspectives on semi peripheral dependent development since the Global Financial Crisis and especially amidst the new global pandemic the COVID 19 The scope of comparative capitalism research has also been altered accordingly to include the analysis of emerging economies outside the core of the world system and to make intertemporal comparisons possible such as to define and characterise historical waves of state capitalism Still we are convinced that to better understand the current wave of state capitalism and to explore its national varieties there is a need to critically reconsider existing theoretical approaches and methodologies and to search for new ones if necessary This book aims to be a contribution to the analysis of emerging market economies alternative development trajectories and explores new perspectives on semi peripheral dependent development especially amidst COVID 19 Backwardness and Modernization: Poland and Eastern Europe in the 16th-20th Centuries Jacek

Kochanowicz, 2018-01-31 The subject of this book is the economic backwardness of Poland and Eastern Europe in the modern era The studies in the first part analyse various aspects of the region's economic and social history in the period from the 16th to the 20th centuries such as the nature of peasant economics the character of economic evolution and the ambiguity of social and economic relations between Poland and the West The second part deals with the change following the fall of state socialism Papers in this part argue that for understanding the present it is necessary to take into consideration historical legacies It is also important to look at the process of this recent change comparatively both within Eastern Europe and comparing this region with other parts of the world Professor Kochanowicz's contention in these essays is that the so called transformation has had to cope not only with the effects of state socialism but also with a much longer legacy of backwardness **The Handbook of Political, Social, and Economic Transformation** Wolfgang Merkel, Raj

Kollmorgen, Hans-Jürgen Wagener, 2019-01-25 Political social and economic transformation is a complex historical phenomenon It can adequately be analysed only by a multidisciplinary approach The Handbook brings together an international team of scholars who are specialists in their respective research fields It introduces the most important areas theories and methods in transformation research with particular attention placed on the historical and comparative dimension Although focussing on post communist and other democratic transformations in our epoch the Handbook therefore

presents and discusses not only their problems paths and developments but also deals with the antecedent waves beginning with the Meiji Restoration in Japan in 1868 and its aftermath The book is structured into six parts Starting with basic concepts as systems actors and institutions Section I it gives an overview over major theoretical approaches and research methods Sections II and III The connection of theory and method with their application is essential allowing special insights into the past and opens analytical avenues for transformation research in the future Section IV provides a historically oriented description or interpretation of particular waves or types of societal transformation With a clear focus on present transformations the contributions to Section V provide a description and discussion of the problems structures actors and courses of the transformations within different spheres of civil society politics law and economics Finally brief lexicographic entries in Section VI delineate research perspectives and facts about relevant issues of societal transformation Each of the 79 contributions contains a concise list of the most important research literature

Organized Labor In Postcommunist States Paul J. Kubicek, 2010-11-23 The end of communism was marked by many ironies not the least of which was the emergence of working class movements that challenged what the party state called workers paradises Throughout eastern Europe labor unions played a significant role in bringing about regime change then emerged as the largest organizations in civil society Once well positioned to play a significant role in if not to dominate the postcommunist transformation of Russia Poland Ukraine and Hungary among other countries organized labor groups have largely vanished from the stage Examining and explaining this disjunction is the focus of Organized Labor in Postcommunist States Paul Kubicek offers a comparative study of organized labor's fate in four postcommunist countries and examines the political and economic consequences of labor's weakness He notes that with few exceptions trade unions have lost members and suffered from low public confidence Unions have failed to act while changing economic policies have resulted in declining living standards and unemployment for their membership While some of labor's problems can be traced to legacies of the communist period Kubicek draws upon the experience of unions in the West to argue that privatization and nascent globalization are creating new economic structures and a political playing field hostile to organized labor He concludes that labor is likely to remain a marginalized economic

and political force for the foreseeable

Trust and Democratic Transition in Post-Communist Europe Ivana Markova, 2004-09-09 These ten essays are concerned with theoretical and empirical analyses of trust and distrust in post Communist Europe after the collapse of the Soviet bloc in 1989 Differences between meanings of trust in countries with democratic traditions and in post totalitarian countries raise questions about the ways in which history culture and social psychology shape the nature and development of political phenomena The authors show that while political and economic changes can have rapid effects cultural and psychological changes may linger behind and influence the quality of political trust and representations of democracy

From Triumph to Crisis Hilary Appel, Mitchell A. Orenstein, 2018-05-10 The postcommunist countries were amongst the most fervent and committed adopters of neoliberal economic reforms Not only did they manage to overcome the anticipated domestic opposition to shock therapy and Washington Consensus reforms but many fulfilled the membership requirements of the European Union and even adopted avant garde neoliberal reforms like the flat tax and pension privatization Neoliberalism in the postcommunist countries went farther and lasted longer than expected but why Unlike pre existing theories based on domestic political economic struggles this book focuses on the imperatives of re insertion into the international economy Appel and Orenstein show how countries engaged in competitive signaling enacting reforms in order to attract foreign investment This signaling process explains the endurance and intensification of neoliberal reform in these countries for almost two decades from 1989 2008 and its decline thereafter when inflows of capital into the region suddenly dried up This book will interest students of political economy and

Eastern European and Eurasian politics *The Routledge Handbook of Transformative Global Studies* S. A. Hamed Hosseini, James Goodman, Sara C. Motta, Barry K. Gills, 2020-06-09 The Routledge Handbook of Transformative Global Studies provides diverse and cutting edge perspectives on this fast changing field For 30 years the world has been caught in a long global interregnum plunging from one crisis to the next and witnessing the emergence of new vibrant multiple and sometimes contradictory forms of popular resistance and politics This global interregnum or a period of uncertainty where the old hegemony is fading and the new ones have not yet been fully realized necessitates critical self reflection brave intellectual speculation and un learning of perceived wisdoms and greater transdisciplinary collaboration across theories localities and subjects This Handbook takes up this challenge by developing fresh perspectives on globalization development neoliberalism capitalism and their progressive alternatives addressing issues of democracy power inequality insecurity precarity wellbeing education displacement social movements violence and war and climate change Throughout it emphasizes the dynamics for system change including bringing post capitalist feminist de colonial and other critical perspectives to support transformative global praxis This volume brings together a mixture of fresh and established scholars from across disciplines and from a range of both Northern and Southern contexts Researchers and students from around the world and across the fields of politics sociology international development international relations geography economics area studies and philosophy will find this an invaluable and fresh guide to global studies in the 21st century **Ahead of the Curve?** Louis Emmerij, Richard Jolly, Thomas George Weiss, 2001 Traces the history of ideas central to UN debates from its establishment in 1945 to the late 1990s Analyses the four founding ideas of the UN peace and negotiation in place of war decolonization human rights and economic and social development and highlights the different phases of the UN s intellectual history the focus on development in the 1960s the challenge of employment and basic needs in the 1970s UN global conferences in the 1970s and 1990s the financial and social crises of the globalization era the collapse of the Socialist bloc widening income gaps and crises of national and global governance **Corporate Governance in a Changing Economic and Political Environment** M.
