## **Political Globalization:**

**Political Globalization** Morten Ougaard, 2003-11-25 Morten Ougaard provides a new and distinct theoretical perspective to the analysis of the globalization of politics. The book analyzes global governance as the partial and uneven globalization of different aspects of statehood. It focuses on the institutional infrastructure highlighting the role of the G7 OECD nexus in providing strategic leadership, discusses an emerging global function of societal persistence or public goods governance and relations of power between social forces and finally it discusses American hegemonic leadership in the light of the dual power persistence perspective. *Comparative Political Culture in the Age of Globalization* Hwa Yol Jung, 2002-01-01 With its specific focus on Asia, this anthology constitutes an excursion into the realm of transversality or the state of postethnicity which the book argues has come to characterize the global culture of our times. Hwa Yol Jung brings together prominent contemporary thinkers including Thich Nhat Hanh, Edward Said and Judith Butler to address this fundamental and important aspect of comparative political theory. The book is divided into three parts. Part One demythologizes Eurocentrism, deconstructing the privilege of modern Europe as the world's cultural, scientific, religious and moral capital. Part Two traces the rise of Asian thought and the process of East-West cultural hybridization while Part Three introduces the concept of the global citizen. Jung's anthology reveals a postmodern multiculturalism whose new philosophical matrix transgresses the existing cultural and intellectual typology to offer new understanding of today's pluralistic world.

Political Globalization James A. Yunker, 2007-08-05 According to conventional opinion, world government would be undesirable because it might develop into global tyranny as well as almost certainly entailing bureaucratic overload. This work vigorously contests this conventional opinion on the basis of an innovative plan for a limited world government tentatively designated the Federal Union of Democratic Nations. Although the proposed federation would represent a quantum advance beyond the United Nations of today, it would at the same time operate under some key restraints such as the reserved right of member nations to withdraw from the Federal Union at their own unilateral discretion. Yunker argues that despite these restraints, the Union would make a valuable contribution to the future security and prosperity of human civilization. He makes a compelling case that political globalization could and should complement the ongoing economic and cultural globalization of the contemporary era. Visionary yet pragmatic, this book represents the most up-to-date comprehensive and sophisticated advocacy of world government to be found in world federalist literature. Although *Political Globalization* is most directly aimed at international relations specialists and policy makers, it will also be highly illuminating and thought provoking to all those with a serious interest in humanity's long-term future. **The Political Economy of**

A Pentecostal Political Theology for American Renewal Steven M. Studebaker,2016-10-26 This book argues that Christians have a stake in the sustainability and success of core cultural values of the West in general and America in particular Steven M Studebaker considers Western and American decline from a theological and specifically Pentecostal perspective The volume proposes and develops a Pentecostal political theology that can be used to address and reframe Christian political identity in the United States Studebaker asserts that American Christians are currently not properly engaged in preventing America s decline or halting the shifts in its core values The problem he suggests is that American Christianity not only gives little thought to the state of the nation beyond a handful of moral issues like abortion but its popular political theologies lead Christians to think of themselves more as aliens than as citizens This book posits that the proposed Pentecostal political theology would help American Christians view themselves as citizens and better recognize their stake in the renewal of their nation The foundation of this proposed political theology is a pneumatological narrative of renewal a biblical narrative of the Spirit that begins with creation proceeds through Incarnation and Pentecost and

culminates in the new creation and everlasting kingdom of God This narrative provides the foundation for a political theology that speaks to the issues of Christian political identity and encourages Christian political participation
