*Women's Writing from the Low Countries 1200-1875* Lia van Gemert, 2010. This book provides a welcome English translation of a marvelous anthology of women's religious and secular writing stretching from the visions of the late medieval mystics through the prison testaments of sixteenth-century Anabaptist martyrs to the pamphleteers and novelists of the growing urban bourgeoisie. The translations and introductions demonstrate the ways that women in the Low Countries shaped the intellectual and cultural developments of their eras.

*The Making of British Socialism* Mark Bevir, 2016-12-13. A compelling look at the origins of British socialism, *The Making of British Socialism* provides a new interpretation of the emergence of British socialism in the late nineteenth century, demonstrating that it was not a working-class movement demanding state action but a creative campaign of political hope promoting social justice, personal transformation, and radical democracy. Mark Bevir shows that British socialists responded to the dilemmas of economics and faith against a background of diverse traditions, melding new economic theories opposed to capitalism with new theologies which argued that people were bound in divine fellowship. Bevir utilizes an impressive range of sources to illuminate a number of historical questions: Why did the British Marxists follow a Tory aristocrat who dressed in a frock coat and top hat? Did the Fabians develop a new economic theory? What was the role of Christian theology and idealist philosophy in shaping socialist ideas? He explores debates about capitalism, revolution, the simple life, sexual relations, and utopian communities. He gives detailed accounts of the Marxists, Fabians, and ethical socialists, including famous authors such as William Morris and George Bernard Shaw. And he locates these socialists among a wide cast of colorful characters, including Karl Marx, Henry Thoreau, Leo Tolstoy, and Oscar Wilde. By showing how socialism combined established traditions and new ideas in order to respond to the changing world of the late nineteenth century, *The Making of British Socialism* turns

**Religion, Identity and Politics in Northern Ireland** Ms Claire Mitchell, 2013-05-28 Has conflict in Northern Ireland kept political dimensions of religion alive and has religion played a role in fuelling conflict Conflict in Northern Ireland is not and never will be a holy war Yet religion is more socially and politically significant than many commentators presume In fact religion has remained a central feature of social identity and politics throughout conflict as well as recent change There has been an acceleration of interest in the relationship between religion identity and politics in modern societies Building on this debate Claire Mitchell presents a challenging analysis of religion in contemporary Northern Ireland arguing that religion is not merely a marker of ethnicity and that it continues to provide many of the meanings of identity community and politics In light of the multifaceted nature of the conflict in Northern Ireland Mitchell explains that for Catholics religion is primarily important in its social and institutional forms whereas for many Protestants its theological and ideological dimensions are more pressing Even those who no longer go to church tend to reproduce religious stereotypes of them and us Drawing on a range of unique interview material this book traces how individuals and groups in Northern Ireland have absorbed religious types of cultural knowledge belonging and morality and how they reproduce these as they go about their daily lives Despite recent religious and political changes the author concludes that perceptions of religious difference help keep communities in Northern Ireland socially separate and often in conflict with one another

an accessible jargon free style     *Practising Existential Psychotherapy* Ernesto Spinelli, 2007-08-01 Existential psychotherapy has emerged as an approach that is distinctively different to that of the other models and systems within psychotherapy. It provides a set of significant challenges to and critiques of contemporary Western psychotherapy both at the level of theory and of practice. Although a substantial amount of writing that seeks to describe and delineate the theoretical underpinnings of existential psychotherapy already exists, this is not the case with texts dealing with the application of theory in the form of practice. *Practising Existential Psychotherapy* examines the unique qualities and possibilities of an existential approach to psychotherapy. Drawn from Ernesto Spinelli's own experience as an internationally recognised theorist, lecturer and practitioner, the book's overall aim is to provide a thorough and accessible explication of existential psychotherapy in practice. Beginning with an overview of the theoretical underpinnings and distinguishing features of existential psychotherapy, the text describes and develops a three phase structural model for its practice. As well as describing the key components of each phase, the text provides descriptive examples and topic focused exercises designed to assist readers in developing their own practice based understanding of existential psychotherapy. Ernesto Spinelli is a Professor in the School of Psychotherapy and Counselling at Regent's College London.
