## **Political Identity Social Change:**

**Political Identity and Social Change** Jamie Frueh, 2012-02-01 Political Identity and Social Change builds upon the constructivist theory of political identity to explore the social changes that accompanied the end of apartheid in South Africa. To gain a better understanding of how structures of identity changed along with the rest of South Africa's institutions, Frueh analyzes three social and political conflicts: the Soweto uprisings of 1976, the reformist constitutional debates of 1983-1984, and post-apartheid crime. Analyzing these conflicts demonstrates how identity labels function as structures of social discourse, how social activity is organized through these structures, and how both the labels and their power have changed during the course of South Africa's transition. In this way, the book contributes not only to the study of South African society but also provides lessons about the relationship between identity and social change.

**Political Psychology** Cristian Tileagă, 2013-10-03 This book provides an introduction to political psychology through a focus on European politics and topics. It describes a style of doing political psychology in Europe that has developed out of dialogue with, as well as critique of, North American approaches. By emphasising the theoretical and methodological diversity of political psychology, the book is intended to contribute to a greater understanding of the strength and utility of the field. It opens up and extends the study of political psychology to a variety of socio-political contexts and manifestations of political behaviour. Clearly outlines the usefulness and promises of distinctive critical approaches in social and political psychology. Explicitly considers the role of language, communication, identity, and social representations in the construction of political meanings. Political Psychology will appeal to upper-level students and scholars who seek to extend their knowledge of the complex relationship between psychology, politics, and society.

**Political Protest and Social Change** Charles F. Andrain, David Ernest Apter, 1995-09 At the close of the twentieth century, political protests have erupted throughout the world. While the collapse of communism was certainly one of the most spectacular protest-related events, smaller protests have become ubiquitous. In Los Angeles, labor activists campaign against commercial real estate owners to unionize janitors, mainly Latina immigrants. In the People's Republic of China, peasants revolt against tax collectors. Amazonian Indians protest public and economic policies that destroy their culture and rainforest habitat. This book analyzes the reciprocal impact of cultural beliefs, sociopolitical structures, and individual behaviors on protests throughout the world. Why do individuals participate in protest activities? How do cultural beliefs, personal attitudes, and subjective perception influence the potential protester? Addressing the issue of agency in protest, the authors also examine why protestors enlist different tactics to achieve their goals. Why are some protests violent and others nonviolent? When and why do activists conclude that it is better to accommodate than confront? Finally, and crucially, what are the consequences of protest movements?

*Political Protest and Social Change* C. Andrain, D. Apter, 1994-12-19 This book probes three issues about the linkage between political protests and social change. First, why do individuals participate in protest activities, including nonviolent movements and revolutions? How do cultural beliefs

sociopolitical structures personal attitudes motives and perceptions shape the decision to participate Second why do participants choose certain tactics Protesters use different types of tactics violent vs nonviolent public vs covert organized vs spontaneous and confrontation vs accommodation with other groups political parties and government agencies Most activists view a particular tactic as a useful means to attain their policy demands Third what policy consequences emerge from the activities of protest movements The book explores the impact of protests on social change and on the distribution of political power particularly greater access of subordinate groups to government policymakers A theory of political opportunities helps explain these issues about the origins activities and outcomes of protests

Islamic Political Identity in Turkey M. Hakan Yavuz, 2003-08-28 In November of 2002 the Justice and Development Party swept to victory in the Turkish parliamentary elections Because of the party's Islamic roots its electoral triumph has sparked a host of questions both in Turkey and in the West Does the party harbor a secret Islamist agenda Will the new government seek to overturn nearly a century of secularization stemming from Kemal Atatürk's early twentieth century reforms Most fundamentally is Islam compatible with democracy In this penetrating work M Hakan Yavuz seeks to answer these questions and to provide a comprehensive analysis of Islamic political identity in Turkey He begins in the early twentieth century when Kemal Atatürk led Turkey through a process of rapid secularization and crushed Islamic opposition to his authoritarian rule Yavuz argues that since Atatürk's death in 1938 however Turkey has been gradually moving away from his militant secularism and experiencing a quiet Muslim reformation Islamic political identity is not homogeneous says Yavuz but can be modern and progressive as well as conservative and potentially authoritarian While the West has traditionally seen Kemalism as an engine for reform against reactionary political Islam in fact the Kemalist establishment has traditionally used the Islamic threat as an excuse to avoid democratization and thus hold on to power Yavuz offers an account of the soft coup of 1997 in which the Kemalist military bureaucratic establishment overthrew the democratically elected coalition government which was led by the pro Islamic Refah party He argues that the soft coup plunged Turkey into a renewed legitimacy crisis which can only be resolved by the liberalization of the political system The book ends with a discussion of the most recent election and its implications for Turkey and the Muslim world Yavuz argues that Islamic social movements can be important agents for promoting a democratic and pluralistic society and that the Turkish example holds long term promise for the rest of the Muslim world Based on extensive fieldwork and interviews this work offers a sophisticated new understanding of the role of political Islam in one of the world's most strategically important countries
