Political Leadership In Nato A Study In Multinational Diplomacy:

Political Leadership In Nato Robert S Jordan,2019-06-26 This unusual history of the first four secretaries general of NATO and their importance in the post war politics of Western defense is a study of diplomacy of individuals and the impact of their personalities on international events It can perhaps best be described in terms of what it is not It is not for example exclusively a book on NATO nor is it a text on international organization It is neither a history of European politics nor an analysis of East West relations It is not a specialized study of nuclear politics and it does not pretend to be a record of the political interplay between the United States and its European allies Yet all of these themes appear in the work In the course of preparing this book Dr Jordan came to know the four secretaries general as well as many other individuals involved in NATO since its inception While his analysis is objective and he has thoroughly documented his observations there is also a valuable personal element in his assessment of the impact the persons who occupied this relatively little known but very important office had on the institution they headed and the international political environment in which they operated

parts Following an introductory part offering a thematic overview of NATO framed by different approaches to domestic politics and global order the second part explores three broad questions what is NATO for who is NATO for and whither NATO Part Three is more expressly theoretical providing multi perspectival analyses of the Alliance Part Four then turns to how NATO works as a political military alliance Parts Five and Six are concerned with what NATO does in practical terms how it addresses a wide range of security threats and what operations it has mounted in response Part Seven looks at some of NATO s most significant allies including France Germany Italy Poland Turkey the United Kingdom and the United States Part Eight meanwhile is concerned with partnerships and key relationships beyond NATO s membership looking at Australia Georgia Ukraine Russia China the European Union and the European neutrals as well as ties to states in the Gulf the Middle East and North Africa The final part of the volume offers reflections on NATO s recent past and possible lines of future development

Research Handbook on NATO Sebastian Mayer,2023-07-01 This timely Research Handbook provides novel insights into the institutional complexities of the North Atlantic Treaty Organization NATO Through a defined focus on the post Cold War evolution of NATO it provides various theoretical perspectives on the Alliance and assesses wider research efforts within NATO studies

NATO and the UN Lawrence S. Kaplan,2010-02-24 When the North Atlantic Treaty Organization was formed just four years after the United Nations it provided its members with a measure of security in the face of the Soviet Union s veto power in the senior organization s Security Council as well as a means of coping with Communist expansion Ever since then the two institutions have been competitors in maintaining peace in the postwar world Occasionally they have cooperated more often they have not In *NATO and the UN* Lawrence Kaplan one of the leading experts on NATO examines the intimate and often contentious relations between the two and describes how this relationship has changed over the course of two generations Kaplan documents the many interactions between them throughout their interconnected history focusing on the major flashpoints where either NATO clashed with UN leadership the United States and the Soviet Union confronted each other directly or fissures within the Atlantic alliance were dramatized in UN sessions He draws on the organizations records as well as unpublished files from the National Archives and its counterparts in Britain France and Germany to provide the best account yet of working relations between the two organizations By examining their complex connection with regard to such conflicts as the Balkan wars Kaplan enhances our understanding of both institutions Crisis management has been a source of conflict between the two in the past but has also served as an incentive for collaboration and Kaplan shows how this peculiar but persistent relationship has functioned Although the Cold War years are gone the UN remains the setting where NATO problems have played out as they have in Iraq during recent decades And it is to NATO that the UN has turned for military power to face crises in the Balkans Middle East and South Asia Kaplan stresses the importance of both organizations in the twenty first century recognizing their potential to advance global peace and security while showing how their tangled history explains the obstacles that stand in the way His work offers significant

findings that will especially impact our understanding of NATO while filling a sizable gap in our understanding of post World War II diplomacy LBJ and the Presidential Management of Foreign Relations Paul Y. Hammond, 2010-07-22 In this insightful study Paul Y Hammond an experienced analyst of bureaucratic politics adapts and extends that approach to explain and evaluate the Johnson administration s performance in foreign relations in terms that have implications for the post Cold War era The book is structured around three case studies of Johnson s foreign policy decision making The first study examines economic and political development It explores the way Johnson handled the provision of economic and food assistance to India during a crisis in India s food policies This analysis provides lessons not only for dealing with African famine in later years but also for assisting Eastern Europe and the former Soviet Union The second case study focuses on U S relations with Western Europe at a time that seemed to require a major change in the NATO alliance Here Hammond illuminates the process of policy innovation particularly the costs of changing well established policies that embody an elaborate network of established interests The third case study treats the Vietnam War with special emphasis on how Johnson decided what to do about Vietnam Hammond critiques the rich scholarship available on Johnson s advisory process based on his own reading of the original sources These case studies are set in a larger context of applied theory that deals more generally with presidential management of foreign relations examining a president s potential for influence on the one hand and the constraints on his or her capacity to control and persuade on the other It will be important reading for all scholars and policymakers interested in the limits and possibilities of presidential power in the post Cold War era

International Organizations and Military Affairs Hylke Dijkstra, 2016-02-05 From the UN Department of Peacekeeping Operations to the NATO International Staff and the European External Action Service international bureaucrats make decisions that affect life and death In carrying out their functions these officials not only facilitate the work of the member states but also pursue their own distinct agendas This book analyzes how states seek to control secretariats when it comes to military operations by international organizations It introduces an innovative theoretical framework that identifies different types of control mechanisms The book presents six empirical chapters on the UN NATO and EU secretariats It provides new data from a unique dataset and in depth interviews It shows that member states employ a wide range of control mechanisms to reduce the potential loss of influence They frequently forfeit the gains of delegation to avoid becoming dependent on the work of secretariats Yet while states invest heavily in control this book also argues that they cannot benefit from the services of secretariats and keep full control over outcomes in international organizations In their delegation and control decisions states face trade offs and have to weigh different cost categories the costs of policy administrative capacity and agency loss This book will be of interest to scholars postgraduates and officials in international organizations and national governments dealing with questions of international political economy security studies and military affairs **NATO's Post-Cold War Politics** S. Mayer, 2014-08-26 This collection is the first book length study of NATO s bureaucracy and decision making after

the Cold War and its analytical framework of internationalization draws largely on neo institutionalist insights

Eisenhower Günter Bischof, Stephen E. Ambrose, 1995-04-01 In observance of Dwight David Eisenhower's one hundredth birthday in 1990 the Eisenhower Center at the University of New Orleans sponsored a series of lectures by distinguished American and European scholars who espouse an exciting breadth of interpretation regarding the man and his times In Eisenhower A Centenary Assessment Günter Bischof and Stephen E. Ambrose have assembled thirteen of those lectures revised and updated thus providing an important contribution to scholarship on the thirty fourth United States president The collection is truly balanced in the interpretive sense with essays by leading revisionist and postrevisionist scholars on Eisenhower Four of the essays address Eisenhower historiography and his role as military commander two concern his presidential domestic policies and the remainder represent an assortment of ongoing research into select areas of his foreign policy by a younger generation of scholars demonstrating how much the evaluation of Eisenhower's handling of foreign affairs remains in ferment Ambrose concludes the volume with a broad summary of Eisenhower's achievements and legacies As Bischof and Ambrose state in their Introduction Eisenhower played a central role for so long and so crucial a period in twentieth century history that his impact contributions successes and failures will be subject to reinterpretation and debate for as long as Western civilization lasts His reputation has already undergone ups and downs from the negative opinions of his contemporaries to the enthusiasm of revisionists in the late seventies and early eighties to the more critical assessments of postrevisionist scholars in the late eighties and the nineties Such is the inevitable cycle of scholarship to look at old problems with new perspectives using new documentation or innovative methods to arrive at new conclusions This centennial reexamination of Eisenhower's place in history will remain a milestone in years to come NATO After Fifty Years S. Victor Papacosma, Sean Kay, Mark R. Rubin, 2001 Since the foundation of the Atlantic Alliance after World War II the face of world politics and consequently of NATO has changed dramatically NATO after Fifty Years examines from a wide range of perspectives the past present and future of the alliance now in the throes of its most uncertain period The contributors to this volume bring a diversity and breadth of perspectives that will make this book an invaluable teaching tool for courses relating to U S defense policy arms control and the military in politics international organizations war and peace international conflict and government and politics in Europe **From Manager to Visionary** K. Maloney,2007 In *Learning to Love the Bomb* Sean M Maloney explores the controversial subject of Canada s acquisition of nuclear weapons during the Cold War Based on newly declassified Canadian and U S documents it examines policy strategy operational and technical matters and weaves these seemingly disparate elements into a compelling story that finally unlocks several Cold War mysteries For example while U S military forces during the 1962 Cuban Missile Crisis were focused on the Caribbean Sea and the southeastern United States Canadian forces assumed responsibility for defending the northern United States with aircraft armed with nuclear depth charges flying patrols and guarding against missile attack by Soviet submarines This defensive strategy was a closely guarded secret because it conflicted with Canada s image as a peacekeeper and therefore a more passive member of NATO than its ally to the south It is revealed here for the first time The place of nuclear weapons in Canadian history has until now been a highly secret and misunderstood field subject to rumor rhetoric half truths and propaganda *Learning to Love the Bomb* reveals the truth about Canada s role as a nuclear power *Regional Organisations and the Development of Collective Security* Ademola Abass,2004-12 This book examines the development of collective security by regional organisations particularly after the Cold War It analyses the various constitutional developments that have occurred within regional arrangements such as ECOWAS African Union SADC OAS and NATO and critically analyses how these developments have propelled regional organisations to depart from the normative framework of regional arrangement contained in Chapter VIII of the UN Charter Through a comprehensive examination of practice the book evaluates the impact of regional organisations newly asserted powers to authorise enforcement action and determine when situations within member states warrant their intervention It inquires into the legal justifications for these developments both from within the UN Charter and regional treaties and practice and asks whether consensual intervention that is the use of force by regional organisations on the basis of their members consent contravenes or constitutes an exception to the prohibition of the use or threat of force

under Article 24 of the Charter The book also analyses the regime of complementarity between the UN and regional organisations
