The Constitution of the Republic of Austria Manfred Stelzer, 2022-12-01 This book shows how the Austrian Constitution has been

shaped and interpreted by the fundamental events in Austria's modern history. At the same time it emphasises the way in which the Constitution establishes a parliamentary system with additional presidential features limited in turn by Austria's federal structure and the parliaments of nine states. It charts the history and character of the constitution, the political structure, the legislative and executive branches of the federal government, public bodies, jurisdiction and fundamental Rights. This new edition explores the changing political landscape, particularly the development of a more competitive party system. It also looks at the response to COVID and the jurisprudence of the Austrian Constitutional Court in the face of the curtailment of rights in order to curb the pandemic. Offering the trademark combination of clarity of explanation and rigour of analysis that defines the series, this is an excellent guide to a fascinating constitutional structure. *Political Handbook of the World 2018-2019* Tom Lansford, 2019-03-19. The Politics of the Nazi Past in Germany and Austria David Art, 2005-12-19. This book argues that Germans and Austrians have dealt with the Nazi past very differently and these differences have had important consequences for political culture and partisan politics in the two countries. Drawing on different literatures in political science, Art builds a framework for understanding how public deliberation transforms the political environment in which it occurs. The book analyzes how public debates about the lessons of history created a culture of contrition in Germany that prevented a resurgent far right from consolidating itself in German politics after unification. By contrast, public debates in Austria nourished a culture of victimization that provided a hospitable environment for the rise of right-wing populism. The argument is supported by evidence from nearly two hundred semi-structured interviews and an analysis of the German and Austrian print media over a twenty-year period.
