Political Science And Area Studies Rivals Or Partners

John Löwenhardt

Political Science And Area Studies Rivals Or Partners:

Political Science and Area Studies, Rivals Or Partners? Harry Eckstein, 1975
Studies Lucian W. Pye, Comparative Area Studies Ariel I. Ahram, Patrick Köllner, Rudra Sil, 2018-01-03 In the post World War II era the emergence of area studies marked a signal development in the social sciences As the social sciences evolved methodologically however many dismissed area studies as favoring narrow description over general theory Still area studies continues to plays a key if unacknowledged role in bringing new data new theories and valuable policy relevant insights to social sciences In *Comparative Area Studies* three leading figures in the field have gathered an international group of scholars in a volume that promises to be a landmark in a resurgent field The book upholds two basic convictions that intensive regional research remains indispensable to the social sciences and that this research needs to employ comparative referents from other regions to demonstrate its broader relevance *Comparative Area Studies* CAS combines the context specific insights from traditional area studies and the logic of cross and inter regional empirical research This first book devoted to CAS explores methodological rationales and illustrative applications to demonstrate how area based expertise can be fruitfully integrated with cutting edge comparative analytical frameworks
Political Science and Chinese Political Studies Sujian Guo, 2012-07-25 We have witnessed the substantial transformation of China studies particularly Chinese political studies in the past 30 years due to changes in China and its rising status in the world as well as changes in our ways of conducting research As area studies specialists we are no longer isolated from the larger disciplines of Political Science and International Relations IR but an integral part of them This book contains theoretically innovative contributions by distinguished political scientists from inside and outside China who together offer up to date overviews of the state of the field of Chinese political studies combines empirical and normative researches as well as theoretical exploration and case studies explore the relationship between Western political science scholarship and contemporary Chinese political studies examine the logic and methods of political science and their scholarly application and most recent developments in the study of Chinese politics and discuss the hotly contested and debated issues in Chinese political studies such as universality and particularity regularity and diversity scientification and indigenization main problems challenges opportunities and directions for the disciplinary and intellectual development of Chinese political studies in the context of rising China
Globalizing Regionalism and International Relations Beatrix Futák-Campbell, 2021-05-20 Building on the recent initiative to truly globalize the field of international relations this book provides an innovative interrogation of regionalism The book applies a globalizing framework to the study of regional worlds in order to move beyond the traditional conception of regionalism which views regions as competing blocs dominated by great powers Bringing together a wide range of case studies the book shows that regions are instead dynamic configurations of social and political identities in which a variety of actors including the less powerful interact and partake in regionalization processes and have done so through the centuries Asian Power

and Politics Lucian W. PYE, Mary W. Pye, Lucian W Pye, 2009-06-30 In a major new book Lucian W Pye reconceptualizes Asian political development as a product of cultural attitudes about power and authority He contrasts the great traditions of Confucian East Asia with the Southeast Asian cultures and the South Asian traditions of Hinduism and Islam and explores the national differences within these larger civilizations Breaking with modern political theory Pye believes that power differs profoundly from one culture to another In Asia the masses of the people are group oriented and respectful of authority while their leaders are more concerned with dignity and upholding collective pride than with problem solving As culture decides the course of political development Pye shows how Asian societies confronted with the task of setting up modern nation states respond by fashioning paternalistic forms of power that satisfy their deep psychological craving for security This new paternalism may appear essentially authoritarian to Western eyes but Pye maintains that it is a valid response to the people's needs and will ensure community solidarity and strong group loyalties He predicts that we are certain to see emerging from Asia's accelerating transformation some new version of modern society that may avoid many of the forms of tension common to Western civilization but may also produce a whole new set of problems This book revitalizes Asian political studies on a plane that comprehends the large differences between Asia and the West and at the same time is sensitive to the subtle variations among the many Asian cultures Its comparative perspective will provide indispensable insights to anyone who wishes to think more deeply about the modern Asian states

Brezhnev's Peace Program Peter M. E. Volten, 2019-03-13 Dr Volten analyses the foreign policy making process in the Soviet Union particularly in connection with the Brezhnev's Peace programme in the 1970s which was supposed to normalise political economic relations with the West and curb military rivalry

Party-Voter Linkage in Africa Anja Osei, 2012-03-11 Parties in Africa are often described as organisationally and programmatically weak On the other hand they mobilise substantial numbers of voters at election time This contradiction provokes an interesting question How do political parties in Africa relate to the society How do they mobilise their voters and sympathisers and which strategies do they employ Anja Osei analyses how parties in Ghana and Senegal adapt to their local context by employing locally embedded strategies

Specters of the West and the Politics of Translation Naoki Sakai, Yukiko Hanawa, 2001-01-01

The Democracy Makers Nicolas Guilhot, 2005 Nicolas Guilhot looks at how the U S government the World Bank political scientists NGOs think tanks have appropriated the movements for democracy and human rights His work charts the various symbolic and political meanings that have developed around the movement for human rights and democracy as well their strategic importance for the West Guilhot suggests that these shifting meanings reflect the transformation of a progressive emancipatory movement into an industry dominated by experts rather than grassroots leaders

The Reincarnation of Russia John Löwenhardt, 1995 In *The Reincarnation of Russia* John Löwenhardt presents the first in depth analysis of the initial and crucial stages of Russia's new statehood He examines Russia's recent turbulent history beginning with the explosive Declaration of State Sovereignty in June 1990 through the adoption of the

Yeltsin constitution in the elections of December 1993 and concluding with the early months of 1994 His analysis of Russia's struggle with the vestige of Soviet Communism and the attempt to create a more democratic form of government offers crucial insight into one of the critical turning points in contemporary history Building on analysis of the failure of the Soviet system L. Wenhardt compares the emergence of Russia as a newborn state with other countries that have undergone transitions from authoritarianism toward democracy Although it is often claimed that Russia is a unique case the author argues that the lessons of other nations are relevant to the Russian situation In conjunction with this comparative analysis and with consideration of the significance of the communist and Russian past L. Wenhardt discusses political and economic developments including both foreign and domestic policy concerns in Russia over the last four years He provides a better understanding of the Russian condition and a guarded optimism regarding the ongoing process taking place in Russia today The Reincarnation of Russia will be welcomed by scholars with specialized interests in the democratization of Russia political leaders journalists and general readers concerned with the global impact of Russia's changing status *America's Dream Palace* Osamah F. Khalil, 2016-10-17 As the postwar U.S. national security establishment required Middle Eastern expertise it cultivated a beneficial relationship with universities But by the time the Bush administration declared its Global War on Terror Osamah Khalil shows think tank agendas aligned with neoconservative goals were the drivers of America's foreign policy ***Beyond Sovietology*** Susan Gross Solomon, 2019-07-03 This volume a product of the Soviet Domestic Politics workshop sponsored by the Social Science Research Council marks an end and a new beginning The end of course is that of Sovietology now permanently overtaken by events The beginning encompasses not only a radical multiplication of subjects for analysis the post-Soviet states but also the arrival of a new generation of scholars entering the field at its turning point As the essays in this collection demonstrate they bring fresh contemporary social scientific questions and methods to an unprecedentedly accessible universe of diverse social groups and societies once subsumed under the Soviet rubric Their work enriches not only post-Soviet studies but the entire range of comparativist work in the social sciences Among the authors included here are Jane Dawson Ellen Hamilton Joel Hellman Mark Saroyan Joseph Schull and Michael Smith *Ibss: Anthropology: 1975* International Committee for Social Science, 1978-08-24 First published in 1978 Routledge is an imprint of Taylor Francis an informal company ***Crossing Boundaries*** Julie Thompson Klein, 1996 An interdisciplinary approach to knowledge ***Nationalism and Development in Africa*** James S. Coleman, 2023-04-28 James Smoot Coleman was the leading theorist of his time in African political studies His work fused liberal democratic idealism and scientific realism These essays represent the evolution of his thought from deep insight into African nationalism to a refined theory of modernization The collection is an indispensable contribution to the intellectual history of comparative African politics essential to scholars and others who grapple with problems in African development James Smoot Coleman was the leading theorist of his time in African political studies His work fused liberal democratic idealism and scientific realism These essays represent the

evolution of his thought from deep insight into African nationalism to a r **Amaeru** Donald D Mitchell,2019-09-03 This book postulates that amae is a motivational factor with universal impact upon Japanese people It explores the ways in which amae affects political behaviour and law as attitudes towards authority factionalism political opposition and citizen s movements *The SAGE Handbook of Comparative Politics* Todd Landman,Neil Robinson,2009-06-30 Editors Landman and Robinson have compiled an excellent tour d horizon of comparative politics Distinguished contributors explore theoretical and methodological issues as well as examine the critical substantive domains that animate today s comparativists Graduate students and academics will want to keep this volume on their book shelf Professor Mark Irving Lichbach University of Maryland The SAGE Handbook of Comparative Politics is a major new resource for scholars of comparative politics and of political science more generally The Handbook covers the field with admirable thoroughness but does not sacrifice depth for breadth The chapters are written by notable scholars who provide rich discussions of their topics and help to move the sub discipline forward B Guy Peters Professor University of Pittsburgh The SAGE Handbook of Comparative Politics presents in one volume an authoritative overview of the theoretical methodological and substantive elements of comparative political science The 28 specially commissioned chapters written by renowned comparative scholars guide the reader through the central issues and debates presenting a state of the art guide to the past present and possible futures of the field The Handbook is divided into three parts The first considers comparative methodologies and reviews the interactions between various sub fields of comparative politics political economy political sociology area studies international relations and institutional analysis The second section examines nine classic issues of concern to comparativists including government formation political behaviour and democratization In the final section nine new and emerging areas of comparative research are considered such as terrorism electoral corruption human rights and regional integration The SAGE Handbook of Comparative Politics is an essential resource for researchers in political science political sociology political economy international relations area studies and all other fields with a comparative political dimension Post-communist Studies And Political Science Jr. Fleron,Erik P Hoffmann,2019-08-15 Serious stock taking is in progress now among practitioners of what has been called Sovietology meaning studies of the Union of Soviet Socialist Republics The reason is that the field for the most part had not been expecting what happened in 1991 The USSR collapsed and went out of existence as a unified state system governing a sixth of the world s territory having allowed its East European empire to free itself from Soviet dominance somewhat earlier It might be said in defense of Sovietology that by the beginning of the 1980s it understood that economic and political crises were brewing in the Soviet Union and its outer empire But the field as a whole failed to grasp the full depth of the systemic crisis in Soviet Russia and the destructive or self destructive potentialities inherent in it As the editors of this valuable volume write in the Introduction Sovietology was not prepared for perestroika and postcommunism *A New Handbook of Political Science* Robert E. Goodin,Hans-Dieter Klingemann,1998 Aimed at political scientists A New Handbook

of Political Science provides the definitive survey of new developments over the last 20 years assessed in the context of historical trends in the field
