Power and Politics in the Media Robert X. Browning, 2023-12-15 *Power and Politics in the Media: The Year in C-SPAN Archives Research Volume 9* features articles from multiple disciplines that use the C-SPAN Video Library to explore recent controversies in American politics. Topics covered include Supreme Court nominations, Supreme Court oral arguments, rhetoric on disasters and COVID-19, and the effect of clothing on the approval of women in power. What unites these topics is the unique use of the video record of C-SPAN to explore the intersections of politics, power, rhetoric, and the media in the contemporary United States. Written in accessible prose, this volume showcases some of the most pressing issues today in a variety of political and communication issues while demonstrating video research methodologies. **Social Media, Parties, and Political Inequalities** Kristof Jacobs, Niels Spierings, 2016-01-05 This book examines how social media have transformed politics in established democracies. Specifically, the authors examine the influence of the unique qualities of social media on the power balance between and within parties. They present a general theory as well as an in-depth case study of the Netherlands and compare it to the US and European democracies. The authors show how and why social media's introduction leads to equalization for some and normalization for others. Additional to national politics, Jacobs and Spierings investigate often overlooked topics such as local and European politics and the impact on women and ethnic minorities.

Presidential Polls And The News Media Paul J. Lavrakas, Michael Traugott, Peter V. Miller, 2019-06-26 Most news media are data-rich but analysis-poor when it comes to election polling. Since election polls clearly have the power to influence campaigns and election post-mortems, it is important that spin not take precedence over significance in the reporting of poll results. In this volume, experts in the media and in academe challenge the conventional approaches that most news media take in their poll-based campaign coverage. The book reports new research findings on news coverage of recent presidential elections and provides a myriad of examples of how journalists and news media executives can improve their analysis of poll data, thereby better serving our political processes. *World trends in freedom of expression and media development: regional overview of Asia and the Pacific* UNESCO, 2014-07-14
