## **Political Structural Technological Change:**

Conceptualizing Technological Change Govindan Parayil, 2002 Technological change has been rightfully identified as the single most important factor for improving material well being Yet despite its centrality in our lives we seem to know very little about technology and how it develops and changes both spatially and temporally In this original and thoughtful book Govindan Parayil draws together current scholarship from disciplines ranging from history to economics to sociology as he develops a cohesive theory of technological change Drawing on a detailed case study of the Green Revolution in Indian agriculture Parayil convincingly argues that technological change is contingent upon the social historical process of knowledge change Thus he explores the policy implications of analyzing technological change as a problem solving activity An innovative contribution to the literature on technological change this ambitious book will also be valuable for those interested in such practical applications as understanding the process of technology transfer

**Domestic Political Structures and Regional Economic Co-operation** Harold A. Crouch, 1984 The first issue of six in the ASEAN Political Studies series the purpose of this study is to examine how the contrasting domestic political structures of the ASEAN countries might affect the prospects of regional economic cooperation and integration It is often said that certain governments lack the political will needed to implement policies designed to enhance regional cooperation and integration In this study an attempt is made to understand why some governments have more political will power than others

Technological Change, Development and the Environment Clem Tisdell, Priyatosh Maitra, 2018-04-09 Originally published in 1988 this book considers some of the major social economic and environmental questions raised by the role of new technology in development Throughout the discussions of issues like the sustainability of the development effected by new technology is supported by detailed case studies from countries such as India Australia New Zealand China Bangladesh and South Africa

*A New Structure for National Security Policy Planning* Stephen A. Cambone, 1998-10-30

**Creative Technological Change** Ian Mcloughlin, 2002-03-11 Creative Technological Change draws upon a wide range of thinking from organisational theory innovation studies and the sociology of technology It explores the different ways in which these questions have been framed and answered especially in relation to new virtual technologies The idea of metaphor is used to capture the differences between and strengths and weaknesses of various ways of conceptualising the technology organisation relationship This approach offers the possibility of developing new ways of thinking about viewing and ultimately responding creatively to the organisational challenges posed by technological change

**Technology in American Water Development** Edward A. Ackerman, George O.G. Loff, 2013-11-26 Technology in American Water Development is an exploratory study This book addresses the proven technology which has influenced water development in the past those still effective in shaping its course and the emerging technology of today The heart of this study is in the thirty one case descriptions selected from both the emerging and proven technology Each case description has been treated as

briefly as is consistent with clarity and nontechnical language has been used wherever possible This title will help to introduce engineers and physical scientists to the administrative problems and opportunities which stem from their works

**Global Justice and the Politics of Information** Sky Croeser, 2014-09-19 The global social justice movement attempts to build a more equitable democratic and environmentally sustainable world However this book argues that actors involved need to recognise knowledge including scientific and technological systems to a greater extent than they presently do The rise of the Occupy movement the Arab Spring and the Wikileaks controversy has demonstrated that the internet can play an important role in helping people to organise against unjust systems While governments may be able to control individual activists they can no longer control the flow of information However the existence of new information and communications technologies does not in itself guarantee that peoples movements will win out against authoritarian governments or the power of economic elites Drawing on extensive interviews and fieldwork this book illustrates the importance of contributions from local movements around the world to the struggle for global justice Including detailed case studies on opposition to genetically modified crops in the south of India and the digital liberties movement this book is vital reading for anyone trying to understand the changing relationship between science technology and progressive movements around the world This book will be of interest to students and scholars of International Politics Social movements Global Justice and Internet politics

**How Computers Entered the Classroom, 1960-2000** Carmen Flury, Michael Geiss, 2023-06-19 In the history of education the question of how computers were introduced into European classrooms has so far been largely neglected This edited volume strives to address this gap The contributions shed light on the computerization of education from a historical perspective by attending closely to the different actors involved such as politicians computer manufacturers teachers and students political rationales and ideologies as well as financial political or organizational structures and relations The case studies highlight differences in political and economic power as well as in ideological reasoning and the priorities set by different stakeholders in the process of introducing computers into education However the contributions also demonstrate that simple cold war narratives fail to capture the complex dynamics and entanglements in the history of computers as an educational technology and a subject taught in schools The edited volume thus provides a comprehensive historical understanding of the role of education in an emerging digital society

**Global Environmental Change** National Research Council, Division of Behavioral and Social Sciences and Education, Board on Environmental Change and Society, Committee on the Human Dimensions of Global Change, 1991-02-01 Global environmental change often seems to be the most carefully examined issue of our time Yet understanding the human side human causes of and responses to environmental change has not yet received sustained attention Global Environmental Change offers a strategy for combining the efforts of natural and social scientists to better understand how our actions influence global change and how global change influences us The volume is accessible to the nonscientist and provides a wide range of examples and case studies It explores how the attitudes

and actions of individuals governments and organizations intertwine to leave their mark on the health of the planet The book focuses on establishing a framework for this new field of study identifying problems that must be overcome if we are to deepen our understanding of the human dimensions of global change presenting conclusions and recommendations

**Emerging Issues and Prospects in African E-Government** Sodhi, Inderjeet Singh, 2014-07-31 Efforts have been made toward the application of electronic government in the developing world yet questions of how to best implement governance systems and address concerns from officials and citizens alike remain to be answered *Emerging Issues and Prospects in African E Government* explores relevant practices trends and potential challenges facing fledgling governments in the digital era This book focuses on the establishment and maintenance of e government in various African countries providing critical insights for government bodies policymakers administrators and public sector researchers working in local state and national governments around the world

*Culture and Politics in Economic Development* Volker Bornschier, 2005-02-15 In this important book pre eminent economic sociologist Volker Bornschier analyzes growth and development in the Old and New Worlds the so called developed countries He shows how sociological and political factors have a massive impact on economic change in those countries The book is a significant contribution to the burgeoning literature on social capital trust and democracy and will be of interest to those in the fields of economics sociology politics and development studies

*Technology Base of Mobile Cellular Operators in Germany and China* Mingtao Shi, 2007

*Restructuring Territoriality* Christopher K. Ansell, Giuseppe Di Palma, 2004-07-12 The bundling of political authority into mutually exclusive territorial boundaries territoriality is a fundamental principle of modern political organization Indeed it provides the foundation for other cherished institutions national sovereignty citizenship the modern welfare state and democracy Are globalization internationalization and Europeanization conspiring to unbundle territoriality If so are sovereignty citizenship the welfare state and democracy unravelling as well Is a new post national non territorial form of political organization heralded by the European Union being born With a focus on Europe this volume explores these issues from various substantive and theoretical perspectives The authors find evidence of the diffusion of authority both within and beyond the state producing novel institutional arrangements and new modes of governance But the United States may provide more useful insights into the new dispensation than the idea of a post national non territorial politics Interest in contemporary challenges to democracy run throughout this volume

**Technological Change and Organizational Action** Juha Laurila, David Preece, 2003-09-02 This book brings together a comprehensive collection of empirically grounded and theoretically informed research projects from studies of organizational practice which explore a number of technological changes

**Entrepreneurship Management (Text and Cases)** , *Internationalizing the Internet* Byung-Keun Kim, 2005-01-01 This compelling book focuses on the global formation of the Internet system It contests the common belief that the Internet s adoption was inevitable and instead examines the social and economic processes that allowed it to prevail over competing

standards and methods for achieving a global information infrastructure Researchers and academics involved with science and technology policy industrial and corporate change and the information society will welcome this insightful original and highly pertinent book It will also be of value for anyone with an interest in how the backbone of the digital economy was formed

**BOOK JACKET**      Sales Management John B Ford, Earl Honeycutt, Antonis Simintiras, 2003-12-08 As sales managers are encouraged to manage increasingly global territories the art of selling becomes complicated and the rules of negotiation more diverse This absorbing book considers the many facets of cross cultural sales management to provide salespeople and managers with a guide to making the most of the global sales force Topics covered include cross cultural negotiations hiring training motivating and evaluating the international sales force Customer Relationship Management CRM sales territory design and management Included in the book are ten international case studies designed to give sales students salespeople and their managers an explanation of diverse cultures and the dilemmas situations and opportunities that arise when selling across borders The experienced international authors have brought together the most up to date information on the global marketplace a subject neglected by many other texts While still tackling sales from a managerial perspective its cross cultural approach makes it essential reading for those wishing to succeed in global sales

**E-commerce and Cultural Values** Theerasak Thanasankit, 2003-01-01 There is substantial interest in research in developing countries especially in the use implementation and development of information technology and systems Many researchers have been moving toward an understanding of indigenous social and cultural structures and how they influence the use and development of information systems E Commerce and Cultural Values addresses these issues and brings together scholars to share their expertise on different aspects of the social side of e Commerce and information systems and how they impact the cultural values of a society

Educational Implications of Technological Change United States. National Commission on Technology, Automation, and Economic Progress, 1966

Remapping Global Politics Yale H. Ferguson, Richard W. Mansbach, 2004-11-11 This book seeks to redraw our mental maps of global politics and to explain the shifting and accelerating forces that are shaping those maps The authors build on the concept of post internationalism focusing primarily on political space and political identity which they argue are the new frontiers of global political theory They suggest that the state is losing capacity legitimacy and authority to remain the primary actor in world affairs and is giving way to a more complex post international universe characterized by diverse and overlapping polities This book is the result of the authors long standing joint research into the nature and dynamics of global politics a collaboration that has spanned over three decades It makes an important contribution to the literatures on globalization and the future of international relations theory
