Political Bargaining

Doris Appel Graber

Political Bargaining:

Political Bargaining Gideon Doron, Itai Sened, 2001-03-27 This book brings an exciting and innovative new approach to the study of politics today It introduces political bargaining a process at the heart of all political and economic exchanges in contemporary society and the very essence of politics itself to provide a new framework and fresh insights to modern political science The authors trace the prevalence of bargaining processes in politics from the abstract level of individual human interaction and the state of nature to the more concrete political or institutionalized level They introduce students to theory the basic models of game theory rational choice theory and positivist approaches practice the practical manifestations of political bargaining in everyday national and international political life and process its setting the interests of the players involved the conditions and properties that affect their calculations and consequently their ability to obtain desired outcomes Political Bargaining provides students with the basic tools for learning about and participating in politics today by richly illustrating how the authoritative allocation of scarce resources is arrived at through a complex bargaining process between competing interests in society It will be essential reading for student and lecturer alike across political science and the social sciences more widely

Political Bargaining Gideon Doron, Itai Sened, 2001-03-27 This book brings an exciting and innovative new approach to the study of politics today It introduces political bargaining a process at the heart of all political and economic exchanges in contemporary society and the very essence of politics itself to provide a new framework and fresh insights to modern political science The authors trace the prevalence of bargaining processes in politics from the abstract level of individual human interaction and the state of nature to the more concrete political or institutionalized level They introduce students to theory the basic models of game theory rational choice theory and positivist approaches practice the practical manifestations of political bargaining in everyday national and international political life and process its setting the interests of the players involved the conditions and properties that affect their calculations and consequently their ability to obtain desired outcomes Political Bargaining provides students with the basic tools for learning about and participating in politics today by richly illustrating how the authoritative allocation of scarce resources is arrived at through a complex bargaining process between competing interests in society It will be essential reading for student and lecturer alike across political science and the social sciences more widely

Political Negotiation Jane Mansbridge, Cathie Jo Martin, 2015-11-17 Polarization Partisanship Rancor Character assassinations Government shutdowns Why can't our elected officials just get along and do their jobs The United States was once seen as a land of broad consensus and pragmatic politics Sharp ideological differences were largely absent But today politics in America is dominated by intense party polarization and limited agreement among legislative representatives on policy problems and solutions Americans pride themselves on their community spirit civic engagement and dynamic society Yet as the editors of this volume argue we are handicapped by our national political institutions which often but not always stifle the popular desire for policy innovation and political reforms

Negotiating Agreement in Politics explores both the domestic and foreign political arenas to understand the problems of political negotiation. The editors and contributors share lessons from success stories and offer practical advice for overcoming polarization. In deliberative negotiation, the parties share information, link issues, and engage in joint problem solving. Only in this way can they discover and create possibilities and use their collective intelligence for the good of citizens of both parties and for the country.

Political Capitalism Randall G. Holcombe, 2018-07-19 Explains why government policies favor elites over the masses, building on well-established theories from the social sciences.

Democratic Deals Melissa Schwartzberg, Jack Knight, 2024-06-11 Bargains are a fact of political life. But if bargaining inevitably involves asymmetric power, can it ever be just? Drawing on an analogy to the private law of contracts and on case studies across arenas of civic life, *Democratic Deals* shows that subject to proper limits, bargaining can secure political equality and protect fundamental interests.

The Encyclopedia of Public Choice Charles Rowley, Friedrich Schneider, 2008-01-25 The Encyclopedia provides a detailed and comprehensive account of the subject known as public choice. However, the title would not convey sufficiently the breadth of the Encyclopedia's contents, which can be summarized better as the fruitful interchange of economics, political science, and moral philosophy on the basis of an image of man as a purposive and responsible actor who pursues his own objectives as efficiently as possible. This fruitful interchange between the fields outlined above existed during the late eighteenth century, during the brief period of the Scottish Enlightenment, when such great scholars as David Hume, Adam Ferguson, and Adam Smith contributed to all these fields and more. However, as intellectual specialization gradually replaced broad-based scholarship from the nineteenth century onwards, it became increasingly rare to find a scholar making major contributions to more than one. Once Alfred Marshall defined economics in neoclassical terms as a narrow positive discipline, the link between economics, political science, and moral philosophy was all but severed, and economists redefined their role into that of the humble dentist, providing technical economic information as inputs to improve the performance of impartial, benevolent, and omniscient governments in their attempts to promote the public interest. This indeed was the dominant view within an economics profession that had become besotted by the economics of John Maynard Keynes and Paul Samuelson immediately following the end of the Second World War.

Economic Crisis, Trade Unions and the State Otto Jacobi, Bob Jessop, Hans Kastendiek, Marino Regini, 2022-12-30 Originally published in 1986, this book analyses the impact of the changing economic and political climate on trade unions in Europe. The first part of the book deals with general issues, and the succeeding parts look at developments in the UK, Italy, and the former West Germany.

Verbal Behavior and Politics Doris Appel Graber, 1976

Survey of the Alliance for Progress; Labor Policies and Programs Robert H. Dockery, 1968

The Law and Politics of Unconstitutional Constitutional Amendments in Asia Rehan Abeyratne, Ngoc Son Bui, 2021-11-29 This book explains how the idea and practice of UCA are shaped by and inform constitutional politics through various social and political actors and in both formal and informal amendment processes.

across Asia This is the first book length study of the law and politics of unconstitutional constitutional amendments in Asia Comprising ten case studies from across the continent and four broader theoretical chapters the volume provides an interdisciplinary comparative perspective on the rising phenomenon of unconstitutional constitutional amendments UCA across a range of political legal and institutional contexts The volume breaks new ground by venturing beyond the courts to consider UCA not only as a judicial doctrine but also as a significant feature of political and intellectual discourse The book will be a valuable reference for law and political science researchers as well as for policymakers and NGOs working in related fields Offering broad coverage of jurisdictions in East Asia Southeast Asia and South Asia it will be useful to scholars and practitioners within Asia as well as to those seeking to better understand the law and politics of the region

Reports and Documents United States. Congress,1969 The New Unionism in the New Society Leo Troy,1994-05-31 Leo Troy describes and analyzes the changes in the economy and labor markets and the subsequent and continuing changes in unions He contrasts new and old unionism detailing the characteristics of the new union movement and patterns of organization He sets this discussion in the context of the new industrial relations system and compares and contrasts the old and new philosophies of unionism The book concludes with an examination of the philosophy of the new unionism and its consequences

The Civic Bargain Brook Manville,Josiah Ober,2023-09-19 A powerful case for democracy and how it can adapt and survive if we want it to Is democracy in trouble perhaps even dying Pundits say so and polls show that most Americans believe that their country s system of governance is being tested or is under attack But is the future of democracy necessarily so dire In The Civic Bargain Brook Manville and Josiah Ober push back against the prevailing pessimism about the fate of democracy around the world Instead of an epitaph for democracy they offer a guide for democratic renewal calling on citizens to recommit to a civic bargain with one another to guarantee civic rights of freedom equality and dignity That bargain also requires them to fulfill the duties of democratic citizenship governing themselves with no boss except one another embracing compromise treating each other as civic friends and investing in civic education for each rising generation Manville and Ober trace the long progression toward self government through four key moments in democracy s history Classical Athens Republican Rome Great Britain s constitutional monarchy and America s founding Comparing what worked and what failed in each case they draw out lessons for how modern democracies can survive and thrive Manville and Ober show that democracy isn t about getting everything we want it s about agreeing on a shared framework for pursuing our often conflicting aims Crucially citizens need to be able to compromise and must not treat one another as political enemies And we must accept imperfection democracy is never finished but evolves and renews itself continually As long as the civic bargain is maintained through deliberation bargaining and compromise democracy will live

Survey of the Alliance for Progress United States. Congress. Senate. Foreign Relations,1968 Congressional Record United States. Congress,1968

American Urban Politics in a Global Age Paul Kantor,Dennis R. Judd,2015-10-05 Bringing together a

selection of readings that represent some of the most important trends and topics in urban scholarship today American Urban Politics provides historical context and contemporary commentaries on the economy politics culture and identity of American cities This seventh edition examines the ability of highly autonomous local governments to grapple with the serious challenges of recent years challenges such as the stresses of the lingering economic crisis and a series of recent natural disasters Features Each chapter is introduced by an editor s essay that places the readings into context and highlights their central ideas and findings Division into three historical periods emphasizes both the changes and continuities in American urban politics over time The reader is the perfect complement for Judd Swanstrom s City Politics The Political Economy of Urban American 7 e also available in a new edition ISBN 0 205 03246 X

Hearings, Reports and Prints of the Senate Committee on Foreign Relations United States. Congress. Senate. Committee on Foreign Relations,1968 *Politics, Economics, and Welfare* Robert A. Dahl,2017-09-29 For most of this century the habit of thinking about politics and economics in terms of grand and simple alternatives has exerted a powerful influence over the minds of those concerned with economic organization Politics Economics and Welfare is a systematic attack on the idea of all embracing ideological solutions to complex economic problems [Black Presidential Politics in America](#) Ronald W. Walters,1988-01-01 Assesses how Blacks have used presidential elections to exercise their political influence and looks at primaries party conventions behind the scenes bargaining and the general election

Labour and Politics in Nigeria Robin Cohen,2024-03-08 Originally published in 1974 and with a new introduction for the 1981 edition this book is a clear and vivid history of the role of organized labour in the politics of Nigeria It covers the period from the first General Strike of 1945 to the civil war and reintegration of the country As well as providing an analysis of the characteristics and attitudes of Nigeria s wage earners this study is concerned with their place in the wider political and social life of the country The attempts of the trade unions to create a representative central labour organisation are considered as is the internal structure of the unions themselves The book also examines the relationship of the Unions with the political parties of the first Republic and later with the Military Government The influence of the trade unions in the determination of wage rates is analysed The book concludes with an overview of trade unions in other parts of Africa with which the performance and characteristics of organized labour in Nigeria are compared
