CHRISTOPHER CLAPHAM (ed.), *Private Patronage and Public Power*, Londra, Frances Pinter Publishers, 1982, pp. 222.

Si tratta di due raccolte di saggi molto diverse fra di loro, per impianto e sistemi politici analizzati, ma che nelle esplicite intenzioni dei curatori si propongono entrambe di studiare il clientelismo come fenomeno macro-societario, nei suoi rapporti cioè con lo Stato da un lato (Clapham), e come modo generale di regolazione dell'accesso alle risorse di una società (Eisenstadt). L'approccio è quindi, nei saggi caratterizzanti delle due raccolte, molto diverso — più teorico, profondo, ambizioso — della maggior parte di studi nella letteratura, che trattano generalmente del fenomeno clientelare più in modo descrittivo che teorico, più come forma di associazione diadica che di sistema, insomma più come pratica sociale che come struttura sociale. In questo quadro si staglia nettamente il contributo di Eisenstadt-Roniger (nel volume Eisenstadt-Lemarchand), che mi sembra uno dei più importanti tentativi di fondare una teoria del clientelismo come struttura sociale specifica, a metà strada fra sistemi puramente ascrivibili (parentela, sistemi castali) e sistemi burocratico-universalistici.

Il volume Eisenstadt-Lemarchand si articola intorno alla chiara introduzione di Lemarchand e al saggio conclusivo di Eisenstadt, e comprende sia saggi relativi a sistemi politici europei (Italia, Francia e Polonia), che saggi su paesi del Terzo Mondo (Messico, Perù, Turchia). Nel complesso, la parte dedicata al contesto europeo mi sembra migliore degli studi dedicati ai paesi non europei, con la parziale eccezione dello studio di Susan/Kaufman Purcell sul Messico. Il volume di Clapham è quasi interamente dedicato a sistemi extra-europei, salvo un saggio di M.D. Higgins sull'Irlanda e uno di

present day Getty examines a number of case studies of political practices in the Stalin era and after These include cults of personality the transformation of Old Bolsheviks into noble grandees the Communist Party's personnel selection system and the rise of political clans family circles after the 1917 Revolution Stalin's conflicts with these clans and his eventual destruction of them were key elements of the Great Purges of the 1930s But although Stalin could destroy the competing clans he could not destroy the historically embedded patron client relationship as a final chapter on political practice under Putin shows

Political Parties and Democracy in Turkey Jacob M. Landau, Metin Heper, 2016-03-31 Since the establishment in 1945 of a constitutional democracy political parties have figured prominently in Turkish politics This book first published in 1991 examines the role they have played Key features of the political culture of the Turkish republic have created dilemmas for multi party democracy Atatürkism still exerts a powerful influence on the country's bureaucratic and military elites With their notion of responsible leadership and of democracy as rational intellectual debate in pursuit of the best policy they have expected an unrealistic degree of idealism and statesmanlike behaviour from the leaders of political parties Three times in 1960 1971 and 1980 the military has intervened in politics on the third occasion to undertake wholesale constitutional and legal restructuring aimed at producing sensible politicians Given these ambiguous circumstances what role have the political parties themselves played in the promotion and functioning of democracy in Turkey and what are their attitudes to the issues involved This collection of essays discusses political parties since the foundation of the Turkish Republic in 1923 until the 1990s With contributions from leading political scientists and historians of modern Turkey it is indispensable reading for all those concerned with the country

Corruption and Democracy in Latin America Charles H. Blake, Stephen D. Morris, 2009-07-19 Corruption has blurred and in some cases blinded the vision of democracy in many Latin American nations Weakened institutions and policies have facilitated the rise of corrupt leadership election fraud bribery and clientelism Corruption and Democracy in Latin America presents a groundbreaking national and regional study that provides policy analysis and prescription through a wide ranging methodological empirical and theoretical survey The contributors offer analysis of key topics including factors that differentiate Latin American corruption from that of other regions the relationship of public policy to corruption in regional perspective patterns and types of corruption public opinion and its

impact and corruption's critical links to democracy and governance. Additional chapters present case studies on specific instances of corruption: diverted funds from a social program in Peru; Chilean citizens' attitudes toward corruption; the effects of interparty competition on vote buying in local Brazilian elections; and the determinants of state level corruption in Mexico under Vicente Fox. The volume concludes with a comparison of the lessons drawn from these essays to the evolution of anticorruption policy in Latin America over the past two decades. It also applies these lessons to the broader study of corruption globally to provide a framework for future research in this crucial area.

Democracy and Prebendal Politics in Nigeria Richard A. Joseph, 2014-02-06 Originally published in 1987, this book examines the relationship between the pattern of party formation in Nigeria and a mode of social, political, and economic behaviour. Richard Joseph terms prebendalism. He demonstrates the centrality in the Nigerian polity of the struggle to control and exploit public office and argues that state power is usually viewed by Nigerians as an array of prebends, the appropriation of which provides access to the state treasury and to control over remunerative licenses and contracts. In addition, the abiding desire for a democratic political system is frustrated by the deepening of ethnic, linguistic, and regional identities. By exploring the ways in which individuals at all social levels contribute to the maintenance of these practices, the book provides an analysis of the impediments to constitutional democracy that is also relevant to the study of other nations.

Competition and Structure Albert Breton, 2000-06-05 The essays in this volume, written by well-known economists and other social scientists from North America, Europe, and in one case Australia, share to an unusual degree a common concern with the competitive mechanisms that underlie collective decisions and with the way they are embedded in institutional settings. This gives the book a unitary inspiration whose value is clear from the new understanding and insights its chapters provide on important theoretical and practical issues such as the social dimension and impact of trust; the management of information in bureaucratic settings; the role of political parties in constitutional evolution; inter-level rivalry and reassignments of powers in federal and unitary systems of government; the impact of ethnicity and nationalism on federal institutions or arrangements; and the response of governments and overarching institutions of globalization.

Who's Afraid of Frances Fox Piven? Frances Fox Piven, 2011 The sociologist and political scientist Frances Fox Piven and her late husband Richard Cloward have been famously credited by Glenn Beck with devising the Cloward-Piven Strategy, a world view responsible, according to Beck, for everything from

creating a culture of poverty and fomenting violent revolution to causing global warming and the recent financial crisis Called an enemy of the people over the past year Piven has been subjected to an unprecedented campaign of hatred and disinformation spearheaded by Beck How is it that a distinguished university professor past president of the American Sociological Association and recipient of numerous awards and accolades for her work on behalf of the poor and for American voting rights has attracted so much negative attention For anyone who is skeptical of the World According to Beck here is a guide to the ideas that Glenn fears most Who's Afraid of Frances Fox Piven is a concise accessible introduction to Piven's actual thinking versus Beck's outrageous claims from her early work on welfare rights and poor people's movements written with her late husband Richard Cloward through her influential examination of American voting habits and her most recent work on the possibilities for a new movement for progressive reform A major corrective to right wing bombast this essential book is also a rich source of ideas and inspiration for anyone interested in progressive change **Comparative**

Ethnicity and Elections in Turkey Gul Akdag, 2014-09-15 Ethnicity and Elections in Turkey attempts to understand the mobilization strategies of incumbent parties to consolidate and increase their support among swing voters of an ethnic group By analyzing the strategy of AKP on voters of Kurdish origin it investigates the conditions under which it can mobilize them through the clientelistic network and its effectiveness in increasing support for the party This investigation is conducted through a district and neighborhood level case study conducted in the districts of Beyo lu Sancaktepe and Beykoz situated in Istanbul The main hypotheses are tested through five different steps Firstly an examination of electoral results identifies a large number of voters of Kurdish origin as ideologically close to pro Islamist and pro Kurdish parties Secondly the book identifies the main organs responsible of mobilizing voters and defines the nature of the clientelistic network Thirdly the study suggests that the incorporation of these voters into the party's clientelistic network is a function of the number and

time of entry of activists of Kurdish origin in the party's ranks and the intensity of their contacts with the voters. Fourthly, it reveals the effectiveness of clientelistic mobilization in consolidating and increasing support among swing voters of Kurdish origin. Lastly, the inner party organization and critical juncture experienced by the party are argued to be influential in its ability to increase its network through the incorporation of new activists. Providing an alternative explanation of AKP's electoral success in Turkey, this book is essential reading for students and scholars with an interest in Middle East politics, political parties, and political science. *Post-communist Studies And Political Science* Jr. Fleron, Erik P.

Hoffmann, 2019-08-15. Serious stock taking is in progress now among practitioners of what has been called Sovietology, meaning studies of the Union of Soviet Socialist Republics. The reason is that the field for the most part had not been expecting what happened in 1991. The USSR collapsed and went out of existence as a unified state system governing a sixth of the world's territory, having allowed its East European empire to free itself from Soviet dominance somewhat earlier. It might be said in defense of Sovietology that by the beginning of the 1980s it understood that economic and political crises were brewing in the Soviet Union and its outer empire. But the field as a whole failed to grasp the full depth of the systemic crisis in Soviet Russia and the destructive or self-destructive potentialities inherent in it. As the editors of this valuable volume write in the Introduction, Sovietology was not prepared for perestroika and postcommunism.
