Political Communication in America Robert E. Denton, Gary C. Woodward, 1985 **Ethical Dimensions of Political Communication** Robert E. Denton Jr., 1991-09-30 Focusing specifically on political communication ethics in the USA this book brings together a group of works which address ethical concerns related to political communication including political culture campaigns media advertising ghostwriting discourse politicians and new technologies **The 1992 Presidential Campaign** Robert E. Denton, 1994-07-30 Considers the 1992 presidential campaign from a communication perspective examining the nomination conventions the debates political advertising electronic town hall meetings and the role and impact of the media **Politics and Politicians in American Film** Phillip L. Gianos, 1998-01-26 Films have been a part of U S society for a century a source of great enjoyment for the audience and of great profit to filmmakers How does a mass entertainment medium deal with some of the great sources of dramatic real life political and economic conflict the Great Depression the Cold War in a way that attracts an audience without making it angry How does an industry which has from its beginnings been the subject of attacks from social political and religious groups deal with political issues and conflicts This book is an attempt to examine these questions it is also an examination of some of the greatest and most interesting American films ever made westerns gangster films comedies war films satires and film biographies to see what American films say about politics and politicians and what these films in turn say about the audience for which they were produced

Mediated Politics in Two Cultures Lynda Kaid, Jacques Gerstle, Keith R. Sanders, 1991-09-30 This first comparative study of the political communication processes in the United States and France brings together researchers from both countries to examine differences and similarities between the media s involvement in each nation s 1988 presidential election campaign The book analyzes the construction of mediated political reality in the two countries and concludes that French media do not concentrate more on policy issues than do American media The authors discuss television news and newsmagazine coverage of the overall campaigns and their particular political debates television commercials and broadcasts and political posters Also assessed are the interactions between party candidate presentations of political reality and voter interpretations of that reality The contributions are grouped into four sections Comparing Politics in Two Cultures which includes discussions of constructing a political communication project and the theoretical dimensions of the studies Mediated Campaign Messages which contains analyses of reality construction political advertising and political broadcasts Media Coverage of the Campaigns and Implications of Mediated Campaigning which covers the effects of television broadcasts on voter perception and possibilities for improving the electoral process This work is a useful resource for students scholars and politicians interested in political communication and comparative politics as well as for journalists and members of the media

Politics, Media, and Modern Democracy Paolo Mancini, David L. Swanson, 1996-05-30 This important new text brings together an outstanding group of international scholars to look at the current state of electoral politics around the world

Elements of the modern or American model of election campaigning have been adopted in many countries in recent years including the use of mass media the personalization of campaigns use of public opinion polls and a general professionalization of campaigns and conditions would seem to favor the spread of that model Contributors to this volume from established democracies new and restored democracies and democracies facing destabilizing pressure examine the extent to which electoral politics in their countries have been affected by the emergence of high tech professional campaigns Countries examined provide a cross section of today's democracies including the United States Britain Sweden Germany Russia Poland Spain Israel Italy Argentina and Venezuela The work will be of interest to scholars and students alike in political communication political parties and elections and comparative politics *The Idea of Political Marketing* Nicholas O. O'Shaughnessy, Stephan C.M. Henneberg, 2002-06-30 O'Shaughnessy Henneberg and their contributors examine how the theory and practice of marketing has been and can be applied to politics Particular attention was paid to the theory of political marketing with conceptual definitions developed to better facilitate communication between marketing professionals and political science researchers Political marketing is about the making and unmaking of governments in a democracy Despite its growing importance the marketing academic profession has shown very little interest in the political ramifications of their discipline while political scientists often come to political marketing with the view that it is cosmetic if not trivial O'Shaughnessy Henneberg and their contributors examine how the theory and practice of marketing has been and can be applied to politics As they show elections are a persuasion task writ large most especially with the demise of inherited class loyalties Following elections governments can employ marketing techniques to build support for their actions while opposition parties can press the government and its supporters through similar marketing approaches Of particular interest to scholars researchers and policy makers involved with politics political communication and the making of public policy

Inside Political Campaigns Gary A. Copeland, Karen S. Johnson-Cartee, 1997-04-22 As Dan Nimmo notes in his introduction *Inside Political Campaigns* endeavors to trace the sources of professional campaign wizardry by encapsulating the theories and concepts that practitioners and scholars alike claim to guide and rationalize consultants' magical weaving of strategies tactics and techniques into a winning tapestry of political communication This study presents the theoretical areas political communication consultants draw upon in making strategic and tactical decisions in political campaigns And it provides an understanding of what motivates political consultants to choose a particular campaign strategy by explaining how various strategies work with the voting public While the book is research driven its academic findings are tempered and expanded by the authors' personal political consulting experiences The text will be of interest to scholars students and practitioners alike in political communication advertising public opinion political science political rhetoric and campaigns and elections IBSS: Political Science: 1994 British Library of Political and Economic Science at the London School of Economics, 1995-12-08 The IBSS is the essential tool for librarians university departments research institutions and any

The Political Communication Reader Ralph Negrine, James Stanyer, 2023-04-28 The Political Communication Reader gathers together key writings in a unique one volume resource The selected texts are grouped into thematic sections each introduced by the editors covering such areas as the exercise of power media and democracy the media and elections media effects political participation and the media the personalization of politics new technologies and the reshaping of political communication Available as a companion Reader to Brian McNair's Introduction to Political Communication textbook students will find The Political Communication Reader a valuable resource in this popular subject area

The Only Constant is Change Ben Epstein, 2018 Over the course of American political history political elites and organizations have often updated their political communications strategies in order to achieve longstanding political communication goals in more efficient or effective ways But why do successful innovations occur when they do and what motivates political actors to make choices about how to innovate their communication tactics Covering over 300 years of political communication innovations Ben Epstein shows how this process of change happens and why To do this Epstein following an interdisciplinary approach proposes a new model called the political communication cycle that accounts for the technological behavioral and political factors that lead to revolutionary political communication changes over time These changes at least the successful ones have been far from gradual as long periods of relatively stable political communication activities have been disrupted by brief periods of dramatic and permanent transformation These transformations are driven by political actors and organizations and tend to follow predictable patterns Epstein moves beyond the technological determinism that characterizes communication history scholarship and the medium specific focus of much political communication work The book identifies the political communication revolutions that have in the United States led to four relatively stable political communication orders over history the elite mass broadcast and the current information orders It identifies and tests three phases of each revolutionary cycle ultimately sketching possible paths for the future The Only Constant is Change offers readers and scholars a model and vocabulary to compare political communication changes across time and between different types of political organizations This provides greater understanding of where we are currently in the recurring political communication cycle and where we might be headed

Meet the Candidate Videos John Parmelee, 2003-03-30 Parmelee shows how presidential primary campaign videocassettes serve many functions for candidates on their road to the White House These videocassettes which include images and issues often based on polling data and focus groups are sent out before the primaries to battleground states to establish an initial image of the candidate A variety of methods are used to explore the videocassettes of the Democratic and Republican presidential candidates Gary Bauer Bill Bradley George W Bush Steve Forbes Al Gore and John McCain who released presidential primary meet the candidate videos during the 2000 race Frame analysis quantitative content analysis and in depth interviews with the producers of these videos were employed to

provide answers to Parmelee's main research question: What function do candidate videos serve in presidential primary campaigns? Findings indicate that these videos, which can run from 5 to 20 minutes in length, serve a clear educational function to explain the candidates' stand on key policy issues. The videos, which are mailed to voters, journalists, and potential donors and shown to Democratic and GOP faithful at party functions, also serve as fundraisers, surrogate speakers, and inoculators. But while the videos share some common functions, each campaign targets its video to a slightly different audience based on the campaign's overall strategy. Of particular interest to scholars, students, and other researchers involved with American presidential politics and political communications.

Liberalism Versus Conservatism

François B. Gérard, 2000. Everyone eschews labels yet we all seem to possess them in the minds of legions of politicians, marketers, and even the ever-peering government. We are being targeted daily by flaming liberals, left-wing liberals, right-wing conservatives, compassionate conservatives, religious conservatives, and liberals, pinko liberals, middle-of-the-road liberals, conservatives, and liberals, pinko liberals, middle-of-the-road liberals, and conservatives, and of course by neoconservatives and neoliberals. The search is on for kindred souls, the types who will open their wallets to support whatever it is the hucksters are peddling. But what do these concepts mean, and do their torchbearers grasp the underlying philosophies, or do they care? This bibliography lists over hundreds of entries under each category, which are then indexed by title and author.

The Inaugural Addresses of Twentieth-Century American Presidents, Halford Ryan, 1993-06-30. The essays in Halford Ryan's *The Inaugural Addresses of Twentieth-Century American Presidents* explore how presidents have used their addresses to empower themselves in office. The volume's construct holds that the president delivers persuasive speeches to move the Congress and the people and to move the people to move the Congress if it is intransigent. Even on Inauguration Day, a largely ceremonial occasion, the president seeks acquiescence and action from Congress and the people in his first rhetorical deed as the nation's chief executive officer. Since scholars agree that the rhetorical presidency arose in the twentieth century with Theodore Roosevelt, the book commences with Roosevelt's address, followed by all subsequent presidents' inaugurals, including that of Bill Clinton. The author's methodology applies classical rhetoric to the nexus of political discourse: the interrelationships between the speaker, the speech, and the audience, discussing *vox populi*, *elocutio*, *inventio*, and *actio*. Each of the chapters analyzes the political situation with regard to political purpose, giving special attention to genre, criticism, and to the themes of campaign rhetoric that were or were not carried forth into the inaugural address. The essayists explicate the evolution of each inaugural's preparation, criticize its delivery, and evaluate its persuasive strengths and weaknesses by accounting for its reception by the media and by the American people. Recommended for scholars of political communication and rhetoric, political science, history, and presidential studies.

Modern Political Communications

James Staney, 2007-09-04. The author provides an accessible and comprehensive account of the fast-paced transformation of political communication systems of the United States and the United Kingdom and the consequences of this for democratic practice.

The Political Pundits

Dan

Nimmo, James E. Combs, 1992-05-21 Nimmo and Combs discuss the key role political analysts play their methods and strategies and the potential danger they pose to American democracy by transforming it into a punditocracy which replaces serious citizen debate with discussion guided by show business values Punditry Nimmo and Combs argue produces symbolic rather than effective healing of political ills political paternalism rather than political reflection and in the end public disenchantment with politics

Global Political Campaigning Fritz Plasser, 2002-02-28 Plasser examines the changing practices of election campaigning worldwide Based on data of an indepth survey of campaign managers and political consultants from 43 countries he provides insights into the professional role definitions and strategic orientations determining the future of electioneering in media centered democracies The first section gives a state of the art overview of the international literature and modernization theories describing and analyzing the ongoing process of modernization and growing professionalization of electioneering around the world The second section deals with the topic of an Americanization of campaign practices in countries fundamentally different from the United States from a diffusion point of view A special focus is the role of U S overseas consultants in influencing and modifying campaign practices in foreign countries based on indepth interviews about the professional experiences of leading figures of the Americans overseas consultancy business The third section deals with central features of campaign practices from a comparative perspective and provides information and data about the media infrastructure and political culture indicators for 50 countries as well as a detailed comparison of country specific campaign regulations party system features and campaign styles The fourth section focuses on the results of Plasser s Global Political Consultancy Survey among 592 campaign professionals from 43 countries The results of this first worldwide survey offer insights into professional orientations role definitions and practices of campaign managers and political consultants throughout the world The fifth section discusses different area and country specific campaign styles from a comparative perspective The final chapters present a global typology of distinct campaign styles across the world summarize the central findings and link them to the ongoing debate about the future of electioneering in media centered democracies An essential research tool for scholars students and other researchers involved with comparative electioneering political management and political communication
