## **Political Culture In Libya:**

*Political Culture in Libya* Amal S M Obeidi, Amal Obeidi, 2013-09-05 Few empirical studies of Arab countries have dealt with political culture and political socialisation or focused on people's beliefs, values and attitudes towards the government or political leaders mainly because the regimes have been reluctant to allow opinion to be tested. The significance of this book is that it assesses the influence of state ideology on the new generation of Libyans and examines their political culture.

Political Culture in Libya Amal Suleiman Mahmoud Obeidi, 1996      PHD THESIS: Political Culture in Libya Amal Suleiman Mahmoud Obeidi, 1996      Libya's Past, Present, and Vision of the Future Mehmet Nesip Ögün, Serdar Yurtsever, Abdulkarim Said, 2020-02-26 The dynamics of religion, tribalism, oil and ideology have always been dominant in Libya which is trying to establish a new order in the political arena after the Gadhafi regime and NATO intervention. This process which has had painful side effects and faced various serious difficulties is carried out with a certain system. This book examines the current political practices of Libya and the state administration process and studies the past and present administrative processes that are present in the social and cultural structure of Libyan society.      **Libya and the Global**

**Enduring Disorder** Jason Pack, 2022-02-15 We no longer inhabit a world governed by international coordination, a unified NATO bloc or an American hegemon. Traditionally the decline of one empire leads to a restoration in the balance of power via a struggle among rival systems of order. Yet this dynamic is surprisingly absent today; instead the superpowers have all at times sought to promote what Jason Pack terms the Enduring Disorder. He contends that Libya's ongoing conflict more so than the civil wars in Yemen, Syria, Venezuela or Ukraine constitutes the ideal microcosm in which to identify the salient features of this new era of geopolitics. The country's post-Qadhafi trajectory has been molded by the stark absence of coherent international diplomacy while Libya's incremental implosion has precipitated cross-border contagion further corroding global institutions and international partnership. Pack draws on over two decades of research in and on Libya and Syria to highlight the Kafkaesque aspects of today's global affairs. He shows how even the threats posed by the Arab Spring and the Benghazi assassination of US Ambassador J. Christopher Stevens couldn't occasion a unified Western response. Rather they have further undercut global collaboration, demonstrating the self-reinforcing nature of the progressively collapsing world order.      **Political Islam in a Time of Revolt** Ferran Izquierdo Brichs, John Etherington, Laura Feliu, 2017-07-31 This book explores the increasing political and social prominence of Islamist groups across the Middle East in recent years. The aftermath of the 2011 uprisings saw some groups access or even control political institutions through success at the ballot box while there has also been a marked resurgence of armed Islamist groups that have had profound effects at both the national and regional level. This volume helps us to understand the nature and development of organised political Islam over recent decades in several key Arab and Mediterranean countries: Mauritania, Morocco, Algeria, Tunisia, Libya, Egypt, Syria, Lebanon, the Palestinian Territories and Turkey. The book identifies the central social and political Islamist

actors traces their ideological differences and similarities and analyses power relations both within and between these organizations in the context of political instability and uncertainty It will be of interest to students and scholars across a broad range of disciplines including political science sociology and international relations Political Aesthetics of Global Protest Pnina Werbner, 2014-07-30 From Egypt to India and from Botswana to London worker youth and middle class rebellions have taken on the political and bureaucratic status quo When most people can no longer earn a decent wage they pit themselves against the privilege of small wealthy and often corrupt elites A remarkable feature of the protests from the Arab Spring onwards has been the salience of images songs videos humour satire and dramatic performances This collection explores the central role the aesthetic played in energising the massive mobilisations of young people the disaffected the middle classes and the apolitical silent majority Discover how it fuelled solidarities and alliances among democrats workers trade unions civil rights activists and opposition parties

**Local Self-Governance and Varieties of Statehood** Dieter Neubert, Hans-Joachim Lauth, Christoph Mohamad-Klotzbach, 2022-12-13 The debate on governance originates in the OECD world At the latest since the postcolonial debate we know that we need to test our assumptions under radically different conditions This book offers an extended perspective of local self governance by examining cases from South Asia Africa and Latin America together with a study of militias in the USA The chapters present a wide variety of local actors who pursue different notions of order legitimized by local traditions based on hierarchy or deeply rooted communalism Islamic theology or grassroots democracy Some local actors claim a state like authority and challenge the territorial state In such cases there is no longer a shadow hierarchy but opposition to the state Different violent actors fight for supremacy and the state is just one actor among others The empirical studies presented in this book show how different kinds of local self governance are combined with varieties of statehood and thus contribute to an understanding of the notion of governance in a fundamental sense that goes beyond the special case of the OECD world

**Political Culture, Political Science, and Identity Politics** Howard J. Wiarda, 2016-04-08 Political Culture defined as the values beliefs and behavioral patterns underlying the political system has long had an uneasy relationship with political science Identity politics is the latest incarnation of this conflict Everyone agrees that culture and identity are important specifically political culture is important in understanding other countries and global regions but no one agrees how much or how precisely to measure it In this important book well known Comparativist Howard J Wiarda traces the long and controversial history of culture studies and the relations of political culture and identity politics to political science Under attack from structuralists institutionalists Marxists and dependency writers Wiarda examines and assesses the reasons for these attacks and why political culture went into decline only to have a new and transcendent renaissance and revival in the writings of Inglehart Fukuyama Putnam Huntington and many others Today political culture now updated to include identity politics stands as one of these great explanatory paradigms in political science the others being structuralism and institutionalism Rather than seeing them as diametrically exposed Howard Wiarda

shows how they may be made complementary and woven together in more complex multicausal explanations This book is brief highly readable provocative and certain to stimulate discussion It will be of interest to general readers and as a text in courses in international relations comparative politics foreign policy and Third World studies Break all the Borders Ariel I. Ahram, 2019-01-09 Since 2011 civil wars and state failure have wracked the Arab world underlying the misalignment between national identity and political borders In *Break all the Borders* Ariel I Ahram examines the separatist movements that aimed to remake those borders and create new independent states With detailed studies of the Islamic State in Iraq and Syria the federalists in eastern Libya the southern resistance in Yemen and Kurdish nationalist parties Ahram explains how separatists captured territory and handled the tasks of rebel governance including managing oil exports electricity grids and irrigation networks Ahram emphasizes that the separatism arose not just as an opportunistic response to state collapse Rather separatists drew inspiration from the legacy of Woodrow Wilson and ideal of self determination They sought to reinstate political autonomy that had been lost during the early and mid twentieth century Speaking to the international community separatist promised a more just and stable world order In Yemen Syria Iraq and Libya they served as key allies against radical Islamic groups Yet their hopes for international recognition have gone unfulfilled Separatism is symptomatic of the contradictions in sovereignty and statehood in the Arab world Finding ways to integrate instead of eliminate separatist movements may be critical for rebuilding regional order *The 2011 Libyan Uprisings and the Struggle for the Post-Qadhafi Future* J. Pack, 2013-06-18 *The 2011 Libyan Uprisings* is a thematic investigation of how pre existing social regional tribal and religious fissures influenced the trajectory of the 2011 Libyan Uprisings and an analysis of what this means for the post Qadhafi future *Libya's Fragmentation* Wolfram Lacher, 2020-02-20 Shortlisted for the Conflict Research Society's 2021 Book of the Year Prize Shortlisted for the British Kuwait Friendship Society 2021 Book Prize After the overthrow of the Qadhafi regime in 2011 Libya witnessed a dramatic breakdown of centralized power Countless local factions carved up the country into a patchwork of spheres of influence Almost no nationwide or even regional organizations emerged and no national institutions survived the turbulent descent into renewed civil war Only the leader of one armed coalition Khalifa Haftar managed to overcome competitors and centralize authority over eastern Libya But tenacious resistance from armed groups in western Libya blocked Haftar's attempt to seize power in the capital Tripoli Rarely does political fragmentation occur as radically as in Libya where it has been the primary obstacle to the re establishment of central authority This book analyzes the forces that have shaped the country's trajectory since 2011 Confounding widely held assumptions about the role of Libya's tribes in the revolution Wolfram Lacher shows how war transformed local communities and explains why Khalifa Haftar has been able to consolidate his sway over the northeast Based on hundreds of interviews with key actors in the conflict Lacher advances an approach to the study of civil wars that places the transformation of social ties at the centre of analysis *Local Politics and Contemporary Transformations in the Arab World* M. Bouziane, C. Harders, A.

Hoffmann,2013-10-03 The contributors link innovative analytical concepts and ethnographic in depth case studies from the Arab world Based on the debates on politics from below and dynamic concepts of state all the chapters focus on informal institutions non elite actors and the dynamic and contradictory relationship between state and society *Multiculturalism and Democracy in North Africa* Moha Ennaji,2014-04-16 Investigating the connections between multiculturalism minorities citizenship and democracy in North Africa this book argues that multiculturalism in this region and in the Arab world at large has reached a significant level in terms of scale and importance In the rest of the world there has been a trend albeit a contested one toward a greater recognition of minority rights The Arab world however particularly North Africa seems to be an exception to this trend as Arab states continue to promote highly unitary and homogenizing ideas of nationhood and state unity whilst discouraging or even forbidding minority political mobilization The central theoretical premise of this book is that North Africa is a multicultural region where culture is inherently linked to politics religion gender and society and a place where democracy is gradually taking root despite many political and economic hurdles Addressing the lacuna in literature on this issue this book opens new avenues of thought and research on diversity linking policy based on cultural difference to democratic culture and to social justice *Multiculturalism and Democracy in North Africa* will be of use to students and researchers with an interest in Sociology Cultural Studies and Political Science more broadly Islamist Radicalisation in North Africa George Joffe,2012-06-12 In the current climate of political extremism and violence much attention has been directed towards radicalisation as the reasons behind such courses of action along with a conviction that those who are radicalised represent an irrational deviation from the conventionally accepted norms of social and political behaviour This book focuses on the current issues and analytical approaches to the phenomenon of radicalisation in North Africa Taking a comprehensive approach to the subject it looks at the processes that lead to radicalisation rather than the often violent outcomes At the same time chapters expand the discussion historically and conceptually beyond the preoccupations of recent years in order to develop a more holistic understanding of a complex individual and collective process that has represented a permanent challenge to dominant political social and on occasion economic norms With contributions from academics and policy makers within and outside the region the book is a comprehensive investigation of Islamist Radicalisation As such it will be of great interest to academics and students investigating North Africa and terrorism as well as specialists in radicalism and extremism **Public Administration in the Middle East and North Africa** Shahjahan Bhuiyan,2023-06-30 This book examines the status of public administration in eight countries the United Arab Emirates UAE Turkey Lebanon Jordan Morocco Tunisia Sudan and Libya in the Middle East and North Africa MENA This volume explores the issues perspectives traditions and cultures that shape the operation of public administration in the region This book also offers critical narratives on how the region s governments manage the state and statecrafts regarding their governance design It reflects on the multiplicity of public administration structures functions processes and procedures

as well as reform schemes which are critical in achieving good governance to continuously improve the human condition in the MENA region Public Administration in the Middle East and North Africa will be of interest to scholars practitioners and students concerned with the ways in which technological change knowledge accumulation and dissemination can increase a state s effective governance capacity Foreword by B Guy Peters University of Pittsburgh is freely available to download on the Routledge website

Al-Hadad,2016-03-09 This book addresses women s rights to work and motherhood in Libya from a legal and international human rights perspective In an attempt to solve the problem posed by the perception that there is an unsolvable conflict between the right of women to work and their right to motherhood the author considers how these two sets of rights as protected under international human rights law can and should be recognised and promoted within the Libyan legal system Including first hand accounts of experiences of Libyan women the study voices their struggle for their rights as guaranteed by domestic law international conventions and Islam Providing a rare insight into a region striving to find its new identity the author assesses the adequacy of existing Libyan laws and where warranted offers proposals for legislative amendments to Libyan policy makers and its new Parliament at such a crucial time in the nation s history

Civil Resistance in the Arab Spring Adam Roberts,Michael J. Willis,Rory McCarthy,Timothy Garton Ash,2016-01-07 Civil resistance especially in the form of massive peaceful demonstrations was at the heart of the Arab Spring the chain of events in the Middle East and North Africa that erupted in December 2010 It won some notable victories popular movements helped to bring about the fall of authoritarian governments in Tunisia Egypt Libya and Yemen Yet these apparent triumphs of non violent action were followed by disasters wars in Syria anarchy in Libya and Yemen reversion to authoritarian rule in Egypt and counter revolution backed by external intervention in Bahrain Looming over these events was the enduring divide between the Sunni and Shi a branches of Islam Why did so much go wrong Was the problem the methods leadership and aims of the popular movements or the conditions of their societies In this book experts

on these countries and on the techniques of civil resistance set the events in their historical social and political contexts They describe how governments and outside powers including the US and EU responded how Arab monarchies in Jordan and Morocco undertook to introduce reforms to avert revolution and why the Arab Spring failed to spark a Palestinian one They indicate how and why Tunisia remained precariously the country that experienced the most political change for the lowest cost in bloodshed This book provides a vivid illustrated account and rigorous scholarly analysis of the course and fate the strengths and the weaknesses of the Arab Spring The authors draw clear and challenging conclusions from these tumultuous events Above all they show how civil resistance aiming at regime change is not enough building the institutions and the trust necessary for reforms to be implemented and democracy to develop is a more difficult but equally crucial task **The Princeton Encyclopedia of Islamic Political Thought** Gerhard Bowering, Patricia Crone, Mahan Mirza, 2013 In 2012 the year 1433 of the Muslim calendar the Islamic population throughout the world was estimated at approximately a billion and a half representing about one fifth of humanity In geographical terms Islam occupies the center of the world stretching like a big belt across the globe from east to west P vii
