Vienna and Warsaw Hans-Georg Heinrich, Taylor & Francis Group, Slawomir Wiatr, 2020-06-30 This book presents assumptions about the evolution of a political culture in Vienna and Warsaw and the factors that cause specific patterns of evolution It explores the secular changes in social structure that are related to changes in cultural normalcy **Politics in Austria** Richard Luther, Wolfgang C. Mueller, 2014-04-08 First Published in 1992 This is a collection of eight articles looking at consociationalism in the Austrian political system Areas covered are the decline of the Lager Mentality parties and the party system governmental institutions changing priorities in Austrian economic policy Austria in the European arena and the success of consociationalism **Political Culture in the Baltic Sea Area and in Eastern Europe** Walter Rothholz, 2003

The Cumulative Book Index, 1992 A world list of books in the English language *Bibliographie Internationale de Science Politique*, 1990 **The American Bibliography of Slavic and East European Studies** Patt Leonard, Rebecca Routh, 2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology **Polish Political Science**, 1989 **The Global Political Economy and Post-1989 Change** E. Ashworth, 2000-08-03 This book examines the effect of post Soviet transitions on current problem solving trends with regards to world capitalism The fall of Soviet communism left liberal capitalism as the dominant blueprint from which to construct economic development policies Using Central Europe as an example it is shown that the application of the Western liberal capitalist model has not been without its difficulties This book endeavours to place the changes to the global political economy since 1989 in a theoretical and historical context *Prospects for Constitutionalism in Post-Communist Countries* Levent Gönenç, 2002-06-01 The last decade of the 20th century saw radical changes in Eastern Europe and the former USSR Most of these countries made a transition from totalitarianism or authoritarianism to democracy and from central planning to a market economy Adding to the latter a number of national entities gained their independence after the disintegration of the federative states of the USSR Yugoslavia and Czechoslovakia Many recent studies have focused on these double in some cases triple transitions and scholars from different fields analyzed the so called 1989 Revolution from different perspectives Rather less scholarly attention has been paid to the future of post communist constitutions and prospects for constitutionalism in these countries The main questions dealt with throughout this study can be formulated as follows Will liberal democratic constitutionalism take root in these countries Will new constitutions in Eastern Europe and the former USSR perish or survive This study also aims at

contributing to the construction of a general constitutional theory by studying the causes and dynamics of constitutional change in general. Such constitutional change is not only on the East European but also on the West European agenda. The purpose of this study is not to introduce a general theory about constitutional stability but studying post communist constitutions will help us to understand the causes and dynamics of constitutional change from a broader perspective. The Polish Revolution and the Catholic Church, 1788-1792 Richard Butterwick, Richard Butterwick-Pawlikowski, 2012. The Polish Revolution cast off the Russian hegemony that had kept the Polish Lithuanian Commonwealth impotent for most of the eighteenth century. Before being overthrown by the armies of Catherine the Great the Four Years Parliament of 1788-92 passed wide ranging reforms culminating in Europe's first written constitution on 3 May 1791. In some respects its policies towards the Catholic Church of both rites Latin and Ruthenian were more radical than those of Joseph II and comparable to some of those adopted in the early stages of the French Revolution. Policies included taxation of the Catholic clergy at more than double the rate of the lay nobility, the confiscation of episcopal estates, the equalization of dioceses and controversial concessions to Orthodoxy. But the monastic clergy escaped almost unscathed. A method of explaining political decisions in a republican polity is developed in order to show how and why the Commonwealth went to the verge of schism with Rome in 1789-90 before drawing back. Pope Pius VI could then bless the mild revolution of 3 May 1791 which Poland's clergy and monarch presented to the nobility as a miracle of Divine Providence. The stresses would be eclipsed by dechristianization in France, the dismemberment of the Commonwealth and subsequent incarnations of unity between the Catholic Church and the Polish nation. Probing both high politics and political culture, Richard Butterwick draws on diplomatic and political correspondence, speeches, pamphlets, sermons, pastoral letters, proclamations, records of local assemblies and other sources to explore a volatile relationship between altar, throne and nobility at the end of Europe's Ancien Régime.

A History of Modern Political Thought in East Central Europe Balázs Trencsényi, Maciej Janowski, Monika Baár, Maria Falina, Michal Kopeček, 2016. The volume offers the first ever synthetic overview of the history of modern political thought in East Central Europe. Political Democracy and Ethnic Diversity in Modern European History André Gerrits, Dirk Jan Wolffram, 2005. This is the first volume in which the fate of democracy is directly related to ethnic diversity. It highlights the crucial episodes in modern European political history and shows in what sense ethnic diversity was of vital importance. Conscious History Natalia Aleksyuk, 2021-07-08. Thoroughly researched, this study highlights the historical scholarship that is one of the lasting legacies of interwar Polish Jewry and analyses its political and social context. As Jewish citizens struggled to assert their place in a newly independent Poland, a dedicated group of Jewish scholars fascinated by history devoted themselves to creating a sense of Polish Jewish belonging while also fighting for their rights as an ethnic minority. The political climate made it hard for these men and women to pursue an academic career; instead they had to continue their efforts to create and disseminate Polish Jewish history by teaching outside the university and publishing in scholarly and popular journals. By introducing the

Jewish public to a pantheon of historical heroes to celebrate and anniversaries to commemorate they sought to forge a community aware of its past its cultural heritage and its achievements though no less important were their efforts to counter the increased hostility towards Jews in the public discourse of the day In highlighting the role of public intellectuals and the social role of scholars and historical scholarship this study adds a new dimension to the understanding of the Polish Jewish world in the interwar period

Population, Ethnicity, And Nation-building Calvin Goldscheider, 2019-07-11 This volume focuses on the linkages between ethnicity and population processes in the context of nation building Using historical and contemporary illustrations in a variety of countries parts of this complex puzzle are scrutinized through the prisms of sociology history political science anthropology and demography Themes of ethnic group formation and transformation persistence and assimilation demographic transitions and convergences and the processes of political mobilization and economic development are described and compared Case studies from Southeast Asia China Africa Brazil Israel the former Soviet Union Canada Europe and the United States are presented by leading scholars The examples illustrate the diversity of contexts that connect population ethnicity and nation building raising new questions and comparative problems The importance of ethnic conflict for issues of inequality and group disadvantage in the emerging societies of Asia Africa and the Middle East in the politics of race and immigration in western societies and in European and American history emerges from the research The multidisciplinary emphasis addresses core themes of ethnicity and nation building in comparative perspectives

Affect and Belonging in Political Uses of the Past David Farrell-Banks, 2022-09-29 Affect and Belonging in Political Uses of the Past examines key political events of the past decade to analyse the relationship between the representation of certain pasts in official heritage settings and the use of the same pasts in political discourse Drawing on data gathered from museums heritage sites news articles political speeches manifestos and through digital media such as Twitter Farrell Banks demonstrates how a connection with a shared past can move people emotionally and give them the confidence to engage in political action The book considers how heritage and the past moves in time and space examining how it shapes political beliefs and action in the present The work is a timely intervention calling attention to the political responsibilities that come with heritage work when these same languages of heritage are adopted to promote a politics of division Introducing the concept of the moving moment a framework by which to research and understand uses of the past the book demonstrates how the past becomes a potent political tool Combining critical heritage studies critical discourse memory studies and political theory the book demonstrates new approaches to interdisciplinary studies within heritage Affect and Belonging in Political Uses of the Past will thus be essential reading for academics and students engaged in the study of heritage memory politics history and media

Dilemmas of Democracy and Dictatorship Michael Radu, The phenomenon of globalization applies to political violence as well as to more benign aspects of life Most people in the West as well as the Third World politicians and media included are still missing this point As a result they are failing to adapt to the

new realities unlike their enemies Dilemmas of Democracy and Dictatorship is a collection of essays Radu has published over the past decade Some are opinion pieces others are academic articles The topics include political violence and terrorism in general and in specific areas Latin America the Balkans Turkey Sub Saharan Africa Western and Eastern Europe Radu discusses the causes and methods of contemporary terrorism the process of state decay in some African countries and mentalities and absurdities in Latin and Balkan politics He also points out Western European illusions delusions and attitudes and reviews American policy and confusion in dealing with the Third World At times the analysis is political other times military and often it is sociological or psychological In the author s words he is always politically incorrect The approach is multidisciplinary What ties these disparate essays together is Radu s personal experience both as a field researcher and in a few cases as a participant in ongoing events and his personal idiosyncrasies opinions and perception of areas visited These essays clearly demonstrate that in the face of globalization the world is not a village but a conglomerate of differences This volume will be of particular interest to students of political violence insurgency guerrilla warfare and Third World politics journalists and policymakers Michael S Radu is senior fellow and co chairman of the Center on Terrorism at the Foreign Policy Research Institute in Philadelphia Educated in communist Romania and at Columbia University he has taught in the United States and South Africa He has traveled to over forty countries doing research on local politics and political violence and has served as electoral observer in four countries including as a UN observer in Cambodia He is the author or editor of ten books

Everyday Zionism in East-Central Europe Jan Rybak,2021-08-05 Everyday Zionism examines Zionist activism in East Central Europe during the years of war occupation revolution the collapse of empires and the formation of nation states in the years 1914 to 1920 Against the backdrop of the Great War its brutal aftermath and consequent violence the day to day encounters between Zionist activists and the Jewish communities in the region gave the movement credibility allowed it to win support and to establish itself as a leading force in Jewish political and social life for decades to come Through activists efforts Zionism came to mean something new Rather than being concerned with debates over Jewish nationhood and pioneering efforts in Palestine it came to be about aiding starving populations organizing soup kitchens establishing orphanages schools kindergartens and hospitals negotiating with the authorities and leading self defence against pogroms Through this engagement Zionism evolved into a mass movement that attracted and inspired tens of thousands of Jews throughout the region Everyday Zionism approaches the major European events of the period from the dual perspectives of Jewish communities and the Zionist activists on the ground demonstrating how war revolution empire and nation held very different meanings for people depending on their local circumstances Based on extensive archival research the study shows how during the war and its aftermath East Central Europe saw a large scale nation building project by Zionist activists who fought for and led their communities to shape for them a national future **American Book Publishing Record** ,2001
