Political Economy Of Ethiopia:

The Political Economy of Ethiopia Marina Ottaway, 1990 **Ethiopia** Ghelawdewos Araia, 1995 From the mid nineteenth century to the present Ethiopian society has been in a state of major transition The author thoroughly examines the history politics economics and sociology of ancient and contemporary Ethiopian society Ethiopia The Political Economy of Transition also systematically documents the recent Ethiopian experience as it unfolded from the 1974 revolution to the present Without prejudice to any political group that was involved in the revolution the book analyzes the role of political actors in the mass uprising Contents The Political Economy of Ethiopia 1855 1916 Haile Selassie s Government and the Ethiopian Student Movement The Anatomy of the Spontaneous Revolutionary Upsurge The Ethiopian Peoples Revolutionary Party EPERP and the Ethiopian Left The Question of Nationalities in a Historical Ethiopian Context Ethiopian Transition Under the Messenger of Change The Political Economy of Transition After Derg Index **The Political Economy of Land and Agrarian**

Development in Ethiopia Ketebo Abdiyo Ensene, 2018-09-05 Located in central Ethiopia the Arssi region is one of the most productive in Ethiopia yet it has so far been neglected by scholars This book scrutinizes the rural development of Arssi by focusing on the Swedish supported experimental venture known as the Chilalo Agricultural Development Unit CADU and later as the Arssi Rural Development Unit ARDU Ketebo Abdiyo Ensene investigates how effectively this strategy empowered the peasantry to change their farming techniques and produce beyond subsistence level He also examines the accumulation of alienated land by the northern Ethiopian nobility through land grants fake purchases and other futile means of land grabs and the impact that this had on the native population Finally the book reassess the importance of the rural land reform of 1975 that followed the collapses of the imperial regime and argues that this was the most significant event in the history of agricultural development in Ethiopia The assessment of the book in fact goes into the post 1991 period in relation with agrarian development The Political Economy of Land and Agrarian Development in Ethiopia will be of interest to scholars of Ethiopia African Studies economic history political economy development and agriculture The Political Economy of Ethiopia C1910 Gabrahiwot Baykadagn, 1992 *The Oxford Handbook of the Ethiopian Economy* Fantu Cheru, Christopher Cramer, Arkebe Oqubay, 2019-01-10 From a war torn and famine plagued country at the beginning of the 1990s Ethiopia is today emerging as one of the fastest growing economies in Africa Growth in Ethiopia has surpassed that of every other sub Saharan country over the past decade and is forecast by the International Monetary Fund to exceed 8 percent over the next two years The government has set its eyes on transforming the country into a middle income country by 2025 and into a leading manufacturing hub in Africa The Oxford Handbook of the Ethiopian Economy studies this country s unique model of development where the state plays a central role and where a successful industrialization drive has challenged the long held erroneous assumption that industrial policy will never work in poor African countries While much of the volume is focused on post 1991 economic development policy and strategy the analysis is set against the background of the long history of

Ethiopia and more specifically on the Imperial period that ended in 1974 the socialist development experiment of the Derg regime between 1974 and 1991 and the policies and strategies of the current EPRDF government that assumed power in 1991 Including a range of contributions from both academic and professional standpoints this volume is a key reference work on the economy of Ethiopia

[Made in Africa](#) Arkebe Oqubay, 2015-05-28 Made in Africa presents the findings of original field research into the design practice and varied outcomes of industrial policy in the cement leather and leather products and floriculture sectors in Ethiopia It explores how and why the outcomes of industrial policy are shaped by particular factors in these industries It also examines industrial structures and associated global value chains to demonstrate the challenges faced by African firms in international markets The findings are discussed against the backdrop of industrial policy which has recently found renewed favour among economists and international organizations and of the history of thought about and practice in industrialization The book seeks to learn from the failures and successes in the three sectors all of them functioning under the umbrella of a single industrial strategy It argues that an effective industrial policy requires a more interventionist state than most development economists would accept including those recently claiming to champion a new industrial policy Moreover it argues that success lies in the interactions among policy specific industrial structures and institutions Specifically a successful policy he posits should maximize linkage effects but will founder in the absence of a clear understanding of the political economy of each sector

Chronicles on the Political Economy of Plunder in Ethiopia (1991-2018) Ayele Gelan, 2018-12-13 ETHIOPIA S MIRACULOUS ECONOMIC GROWTH THAT NEVER WAS This book brings together twenty five articles that have been written on Ethiopia s current affairs during the country s latest popular unrest 2013 2018 Regardless of the timing of the commentaries the contents of most pieces reflect circumstances that have prevailed during the reign of the EPRDF 1991 2018 The primarily motive for the writings was to seek answer to the burning issue of Ethiopia s troubled years what cumulative policy blunders the EPRDF government was making all along to end up with such catastrophic outcomes Human rights organizations political activists and opposition parties have done a reasonably good job in scrutinizing and exposing EPRDF s undemocratic governance and gross human right abuses However EPRDF s economic policies have always been analyzed in the most unsatisfactory and even bizarre ways In order to fill this gap economic policy matters were the focus of almost all of the articles contained in this book The international community was baffled by the popular uprising that erupted in 2015 in Oromia and then spread to all corners of Ethiopia like a forest fire Until then the prevailing storyline was that Ethiopia was experiencing a miraculous economic growth But if Ethiopia s economy was really growing at double digit rate per annum for over a decade then why have Ethiopians in all walks of life protested so vigorously The existence of draconian press laws meant domestic print and broadcast media were decimated long before the protest years Personal safety or geopolitical concerns meant foreign correspondents were simply unwilling or unable to even begin to scratch the surface never mind capturing the nuances of EPRDF s deceptive economic growth

rhetoric There were times when foreign correspondents even resorted to using simplistic indicators such as high rise buildings in Addis Ababa to pass judgment on Ethiopians overall economic performance Dismayed and somewhat frustrated by the gross misinformation regarding EPRDF s economy policies the author started to write articles and contribute to print and online media to bring some rigor to the debate The Political Economy of an African Society in Tranformation: the Case of Macca Oromo (Ethiopia) Tesema Ta'a,2006 The official historiography of the Ethiopian Empire as well as the majority of the publications on Ethiopian history by European authors used to view the country as a single cultural whole and to deal only with the history of the Christian empire The different historical experiences of the Ethiopian multiethnic society and culture used to be usually ignored In contrast to such one sided approach this book deals with the Macca Oromo activities social transformation and historical experiences in the western part of Central Ethiopia focusing on the political economy of the region The sources for the book include 1 written documents in Ethiopian languages Amharic and Ge ez e g archival materials 2 reports by European travellers and missionaries 3 recent secondary literature and 4 traditions and oral history collected mainly in Wallagga in 1972 73 and 1979 80 In that region the Macca states had played an important political and economical role until they were subjugated by the order of Menelik II and incorporated into the Ethiopian Empire at the end of the 19th century Tesema Ta a belongs to the first generation of the Ethiopian historiographers who graduated from Addis Ababa University in the seventies and later formed the teaching staff of the History department in Addis Ababa **The Political Economy of Western Central Ethiopia** Tesema Ta'a,1986 *State and Economic Development in Africa* Aaron Tesfaye,2017-07-20 This book critically assesses the impact of Ethiopia s policy of Agriculture Development Led Industrialization Employing qualitative and quantitative analysis it presents empirical evidence suggesting persistent economic growth The research highlights improvements in infrastructure health care education poverty alleviation as well reductions in infant mortality rate The impact of this economic growth has however had led to only slight improvements in the plight of the poor The author argues that while significant steps have been achieved with measurable economic gains there are still undeniable obstacles within the federal system prevailing patron client relationships constraints on state capacity to efficiently and effectively implement policy and bureaucratic rent seeking in the provision of public goods The author concludes that these problems will have to be resolved before Ethiopia s political economy can achieve the stage of sustainable development *The Oxford Handbook of the Ethiopian Economy* Fantu Cheru,Christopher Cramer,Arkebe Oqubay,2019-01-10 From a war torn and famine plagued country at the beginning of the 1990s Ethiopia is today emerging as one of the fastest growing economies in Africa Growth in Ethiopia has surpassed that of every other sub Saharan country over the past decade and is forecast by the International Monetary Fund to exceed 8 percent over the next two years The government has set its eyes on transforming the country into a middle income country by 2025 and into a leading manufacturing hub in Africa The Oxford Handbook of the Ethiopian Economy studies this country s unique model of

development where the state plays a central role and where a successful industrialization drive has challenged the long held erroneous assumption that industrial policy will never work in poor African countries While much of the volume is focused on post 1991 economic development policy and strategy the analysis is set against the background of the long history of Ethiopia and more specifically on the Imperial period that ended in 1974 the socialist development experiment of the Derg regime between 1974 and 1991 and the policies and strategies of the current EPRDF government that assumed power in 1991 Including a range of contributions from both academic and professional standpoints this volume is a key reference work on the economy of Ethiopia

Tesema, 1989 *Political Economy of Ethiopia 1875-1974* Legesse Lemma, 1979 *Dams, Power, and the Politics of Ethiopia's Renaissance* Tom Lavers, 2024-10-01 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations After more than a decade of construction Ethiopia is filling the Grand Ethiopian Renaissance Dam GERD a controversial dam with the potential to transform the hydrology and politics of the Nile Basin The GERD is the culmination of a dam building boom carried out over three decades and a key pillar of the Ethiopian Peoples Revolutionary Democratic Front's EPRDF efforts to bring about an Ethiopian Renaissance Dams Power and the Politics of Ethiopia's Renaissance provides a detailed examination of the domestic and international political dynamics that shaped Ethiopia's dam building drawing on extensive primary research including more than a hundred interviews with politicians technocrats consultants and donors The authors reflect on the implications of Ethiopia's dam building for broader debates about the role of the state in late development the dynamics of twenty first century dam building and the political economy of renewable energy transitions A central argument of the book is that Ethiopia's dam building is symbolic of the successes and failures of the EPRDF's developmental state On the one hand this dams boom enhanced electricity generation capacity while constituting a key element of the state infrastructure investment that turned Ethiopia into one of the world's fastest growing economies In contrast a politically driven decision making process undermined electricity planning contributed to an unsustainable debt burden and ultimately failed to provide reliable electricity access to key users Following the EPRDF's collapse the subsequent Prosperity Party government has taken steps away from the state led development model of its predecessor while labouring towards the final completion of the GERD Oxford Studies in African Politics and International Relations is a series for scholars and students working on African politics and International Relations and related disciplines Volumes concentrate on contemporary developments in African political science political economy and International Relations such as electoral politics democratization decentralization gender and political representation the political impact of natural resources the dynamics and consequences of conflict comparative political thought and the nature of the continent's engagement with the East and West Comparative and mixed methods work is particularly encouraged Case studies are welcomed but should demonstrate

the broader theoretical and empirical implications of the study and its wider relevance to contemporary debates The focus of the series is on sub Saharan Africa although proposals that explain how the region engages with North Africa and other parts of the world are of interest Series Editors Nic Cheeseman University of Birmingham Peace Medie University of Bristol and Ricardo Soares de Oliveira University of Oxford
