Political Economy Of Global Communication An Introduction:

The Political Economy of Global Communication Peter Wilkin, 2001-09-20 An examination of the structures of global power in the post Cold War period and the implications of this for human security

The Political Economy of Global Communication Peter Wilkin, 2001-09-20 Recent debates surrounding human security have focused on the satisfaction of human needs as the vital goal for global development Peter Wilkin highlights the limitations of this view and argues that unless we incorporate an account of human autonomy into human security then the concept is flawed He reveals how human security is a concern with social relations that connect people in local national and global networks of power structured through capitalism and hierarchical inter state systems Autonomy as an aspect of human security depends upon the ability of citizens to gain information about the processes that shape their lives In this respect autonomy and communication are inherently linked and are prerequisites for the establishment of meaningful democratic systems

Handbook of Research on the Political Economy of Communications and Media Karlidag, Serpil, Bulut, Selda, 2020-03-20 The political economy deals with the structure of production and the social relations of people in production With its focus on structures and practices the political economy also analyzes the contradictions of capitalism and suggests resistance and intervention strategies using methods from history economics sociology and political science The dominant commercial media in capitalism operates both as a product of economic and political structure and as an industrial institution with economic and political functions Current Theories and Practice in the Political Economy of Communications and Media is a collection of innovative research on new approaches in the political economy of communication in the process of globalization While highlighting topics including consumer behavior news production and public relations this book is ideally designed for newscasters broadcasters journalists marketers advertisers production managers researchers industry professionals academics and students seeking to extend the border of standard political economy of communication studies into relatively undiscovered areas

Political Economy of Media and Communication Joan Pedro-Carañana, Rodrigo Gómez, Thomas F. Corrigan, Francisco Sierra Caballero, 2024-02-01 The first book dedicated specifically to research methods in the political economy of media and communication it provides a methodological toolkit to investigate the functioning of media technology and cultural industries in their historical institutional structural and systemic contexts Featuring contributions from across the globe and a variety of methodological perspectives this volume presents the state of the art in political economy of media and communication methods articulating those methods with adjacent approaches to study concentration of ownership and power pluralism and diversity regulation and public policies governance genderization and sustainability This collection charts the methodological innovations critical political economists are adopting to analyse a rapidly transforming digital media landscape exploring ideology narratives socio analysis and praxis in communication with ethnographic and participatory approaches as well as designs for quantitative and qualitative methods of textual discourse and content analysis network analyses which consider

communication and media studies **Global Perspectives on E-Learning** Alison A. Carr-Chellman, 2004-12-15 Global Perspectives on E Learning Rhetoric and Reality presents several cases of international online education and the rhetoric that surrounds this form of teaching and learning Editor Alison A Carr Chellman examines the impact of online distance education throughout the world in an effort to understand more deeply the merits of such initiatives Written from a critical perspective the book sheds light on some of the problems faced by international distance educators It particularly focuses on who benefits and who does not by the advance of international e learning and how we can respond to the needs of the disenfranchised This book is intended to supplement what has to this point been largely a positive how to literature in distance education It offers a balanced perspective on the problems and possibilities of distance education worldwide *The Struggle for Control of Global Communication* Jill Hills, 2010-10-01 Tracing the development of communication markets and the regulation of international communications from the 1840s through World War I Jill Hills examines the political technological and economic forces at work during the formative century of global communication Hills analyzes power relations within the arena of global communications from the inception of the telegraph through the successive technologies of submarine telegraph cables ship to shore wireless broadcast radio shortwave wireless the telephone and movies with sound As she shows global communication began to overtake transportation as an economic political and social force after the inception of the telegraph which shifted communications from national to international From that point on information was a commodity and ownership of the communications infrastructure became valuable as the means of distributing information The struggle for control of that infrastructure occurred in part because British control of communications hindered the growing economic power of the United States Hills outlines the technological advancements and regulations that allowed the United States to challenge British hegemony and enter the global communications market She demonstrates that control of global communication was part of a complex web of relations between and within the government and corporations of Britain and the United States Detailing the interplay between American federal regulation and economic power Hills shows how these forces shaped communications technologies and illuminates the contemporary systems of power in global communications *Reflections on the International Association for Media and Communication Research* Jörg Becker, Robin Mansell, 2023-04-29 Throughout its 65 year history the International Association for Media and Communication Research IAMCR has sought to facilitate international exchanges and research collaborations among academics and journalists in the field of media and communication Created during a time of strong ideological tension following World War II in 1957 and with the support of UNESCO the contributors to this edited collection highlight how the IAMCR and its members shaped the field of media and communications research From its beginnings focusing on the mass media including the press and journalism education today the Association attracts researchers and practitioners who undertake critical analysis of contemporary media and communications including online platforms and their governance Consistent themes

throughout the Association's history have been its concern with human rights law culture and the political economy of the media and communication industries. Not content simply to understand developments in the media and communications field around the world, the Association's membership has sought to change the world through its published research and its participation in global, regional, national and local policy debate and practice. This volume is organised in four parts following an introduction authored by editors who are active members of IAMCR. Part I highlights eight prominent scholarly traditions of research which have attracted the interest of scholars from around the world as well as the way the Association has sought to be inclusive of early career scholars. Part II offers seven chapters which bring to light the political struggles of a membership seeking to engage in scholarship across the East-West divide and to contribute to global debates aimed at fostering an inclusive, fair and equitable international information and communication order through engagement with United Nations sponsored initiatives. Part III turns to accounts of the way members from selected countries and regions have contributed to the Association's scholarly work. The last part highlights the significant scholarly and institution building contributions of James Halloran, IAMCR's President from 1972 to 1988 and other prominent contributors to the study of culture and the political economy of media and communications.

Media, Society, World Nick Couldry, 2013-08-29. Media are fundamental to our sense of living in a social world. Since the beginning of modernity, media have transformed the scale on which we act as social beings. And now in the era of digital media, media themselves are being transformed as platforms; content and producers multiply. Yet the implications of social theory for understanding media and of media for rethinking social theory have been neglected. Never before has it been more important to understand those implications. This book takes on this challenge. Drawing on Couldry's fifteen years of work on media and social theory, this book explores how questions of power and ritual, capital and social order and the conduct of political struggle, professional competition and everyday life are all transformed by today's complex combinations of traditional and new media. In the concluding chapters, Couldry develops a framework for global comparative research into media and for thinking collectively about the ethics and justice of our lives with media. The result is a book that is both a major intervention in the field and required reading for all students of media and sociology.
