Political Economy Of Poverty Equity And Growth A Comparative Study:

The Political Economy of Poverty, Equity and Growth: A Comparative Study Deepak Lal, H. Myint, Hla Myint, 1998-10-08

This wide ranging and innovative book synthesizes the findings of a major international study of the political economy of poverty equity and growth. It represents an ambitious interdisciplinary attempt to identify patterns in the interplay of initial conditions, institutions, interests, and ideas which can help to explain the different growth and poverty alleviation outcomes in the Third World. *The Political Economy of Poverty, Equity and Growth*, 1998 *The Political Economy of Poverty, Equity and Growth*, 1998

The Political Economy of Poverty, Equity and Growth: A Comparative Study Deepak Lal, H.

Myint, 1998-10-08 This wide ranging and innovative book synthesises the findings of a major international study of the political economy of poverty equity and growth. It is based primarily on analytical economic histories of 21 developing countries from 1950 to 1985 but also takes account of the wider literature on the subject. The authors take an ambitious interdisciplinary approach to identify patterns in the interplay of initial conditions, institutions, interests, and ideas which can help to explain the different growth and poverty alleviation outcomes in the Third World. Three different types of poverty are distinguished based on their causes and a more nebulous idea of equity in contrast to egalitarianism is shown to have influenced policy. Since growth is found to be the major means of alleviating mass structural poverty, much of the book is concerned with discovering explanations for policies which are found to be the most important influences on the proximate causes of growth. Lal and Myint also consider the available evidence on the role of direct transfers, public and private, in alleviating destitution and conjunctural poverty. *The Political Economy of Poverty Equity and Growth* develops a novel framework for the comparative analysis of different growth outcomes. This framework distinguishes between the different relative factor endowments of land, labour, and capital and between the different organizational structures of peasant versus plantation and mining economies. It also differentiates between the politics of autonomous and factional states in the countries studied, breaking the analysis down into further typological subdivisions and providing important new insights into the differing behaviour of economies that are rich in natural resources and those with abundant labour. These insights constitute a richer explanation for the divergent developmental outcomes in East Asia compared with Latin America and Africa. The evidence collated is used to argue for the continuing relevance of the classical liberal viewpoint on public policies for development and to show why even so nationalist ideologies are likely to be adopted and lead to cycles of interventionism and liberalism. The evidence is also used to provide an explanation for the surprising current worldwide Age of Reform.

The Political Economy of Poverty, Equity, and Growth Deepak Lal, **The Political Economy of Poverty, Equity, and Growth**, 1990 **The Political Economy of Poverty, Equity, and Growth** Angus Maddison, 1992 **Challenges Of Economic Development In The Middle East And North Africa Region** Julia C Devlin, 2010-01-20 This book surveys major economic issues in the development of countries in the Middle East and North Africa MENA region since World War II.

It presents a framework of analysis highlighting underlying continuities in the region's approach to issues of growth management of oil and natural resources post conflict environments progress in trade liberalization and regional integration the use of industrial policy labor market adjustment and unemployment educational attainment and poverty incidence At the same time this book focuses on emerging differences across countries in the region in the prevailing approach to addressing such challenges most notably between the economies of the Gulf Cooperation Council and other MENA countries This book also incorporates a discussion of tools and methods used by development practitioners and briefly examines issues of aid effectiveness The approach used is intended to appeal to a wide audience including students of economic development political scientists and development practitioners

Growth, Inequality, and Poverty Anthony Shorrocks, Rolf van der Hoeven, 2004-03-04 The relationship between growth inequality and poverty lies at the heart of development economics This volume draws together many of the most important recent contributions to the controversies surrounding this topic Some of the chapters help explain why there is profound disagreement on crucial issues of growth poverty and inequality within academic circles and among organizations and various groups active in the development field Another central theme is the cross country evidence on the relationship between growth and poverty and the extent to which it is valid to draw policy conclusions from this empirical evidence The volume also shows how new microeconomic techniques such as poverty maps and microsimulation models can be used to improve poverty analysis and the design of pro poor policies The overall conclusion points to the need for diverse strategies towards growth and poverty rather than simple blanket policy rules Initial conditions specific country structures and time horizons all play a significant role Initial conditions affect the speed with which growth reduces poverty and can also determine whether policies such as trade liberalization have a pro poor or an anti poor outcome Improved education is valuable in itself and also contributes to poverty reduction but its effect on inequality depends on supply and demand factors which differ significantly across countries Likewise the

quantitative impact on poverty of redistribution from the rich to the poor vis vis an increase in total national income can vary greatly across countries Hence the need for creative approaches to poverty which take full account of the specific circumstances of individual nations and which assign a central role to inequality analysis in the discussion of poverty alleviation policies

The Oxford Handbook of Africa and Economics Célestin Monga,Justin Yifu Lin,2015-07-02 A popular myth about the travails of Africa holds that the continent s long history of poor economic performance reflects the inability of its leaders and policymakers to fulfill the long list of preconditions to be met before sustained growth can be achieved These conditions are said to vary from the necessary quantity and quality of physical and human capital to the appropriate institutions and business environments While intellectually charming and often elegantly formulated that conventional wisdom is actually contradicted by historical evidence and common sense It also suggests a form of intellectual mimicry that posits a unique path to prosperity for all countries regardless of their level of development and economic structure In fact the argument underlining that reasoning is tautological and the policy prescriptions derived from it are fatally teleological low income countries are by definition those where such ingredients are missing None of today s high income countries started its growth process with the required and complete list of growth ingredients Unless one truly believes that the continent of Africa and most developing countries are ruled predominantly if not exclusively by plutocrats with a high propensity for sadomasochism the conventional view must be re examined debated and questioned This volume the second of the lOxford Handbook of Africa and Economics reassesses the economic policies and practices observed across the continent since independence It offers a collection of analyses by some of the leading economists and development thinkers of our time and reflects a wide range of perspectives and viewpoints Africa s emergence as a potential economic powerhouse in the years and decades ahead amply justifies the scope and ambition of the book

Privatization at the End of the Century Herbert Giersch,2012-12-06 At the end of the century privatization has become a worldwide phenomenon It is taking place in what was once called the first the second and the third world The volume mirrors this expansion of privatization In Part I on the economics of privatization historical theoretical and politico economic issues are covered In Part II country studies are presented for China the Czech Republic Eastern Germany Estonia Hungary Poland Russia and the United Kingdom In Part III a broader view on privatization is taken by including deregulation and the private provision of public goods and services The book contains contributions by D BAs T Eggertsson R P Heinrich P Jasinski H Klodt B Krug D Lal S C Littlechild M Mejsstrik P Mihalyi P Plane J J Rosa K M Schmidt and M Schnitzer and U Siegmund

Democratization in Malawi M. Phiri,2020-11-17 The vote in favour of multi party politics at the

National Referendum of 1993 and the subsequent General Election of 1994 heralded the advent of a democratic system of government in Malawi. It soon became apparent however that there remained many obstacles to overcome before Malawi would be a truly democratic country. In this volume a multi disciplinary approach has been employed to examine both the progress and the pitfalls of the democratization process. Political scientists, lawyers, historians, theologians, literary critics, linguists, economists and educationalists apply the tools of their respective disciplines to take stock of democratization in Malawi. This book is an indispensable guide to anyone seeking to understand the social and political situation in Malawi in the early years of the Second Republic.

Distortions to Agricultural Incentives in Asia Kym Anderson, Will Martin, 2009-02-04. The vast majority of the world's poorest households depend on farming for their livelihoods. During the 1960s and 1970s most developing countries imposed pro urban and anti agricultural policies while many high income countries restricted agricultural imports and subsidized their farmers. Both sets of policies inhibited economic growth and poverty alleviation in developing countries. Although progress has been made over the past two decades to reduce those policy biases, many trade and welfare reducing price distortions remain between agriculture and other sectors and within the agricultural sector of both rich and poor countries. Comprehensive empirical studies of the disarray in world agricultural markets appeared approximately 20 years ago. Since then the Organisation for Economic Co-operation and Development has provided estimates each year of market distortions in high income countries but there have been no comparable estimates for the world's developing countries. This volume is the third in a series; other volumes cover Africa, Europe's transition economies and Latin America and the Caribbean that not only fills that void for recent years but extends the estimates in a consistent and comparable way back in time and provides analytical narratives for scores of countries that shed light on the evolving nature and extent of policy interventions over the past half century. **Distortions to Agricultural Incentives in Asia** provides an overview of the evolution of distortions to agricultural incentives caused by price and trade policies in the 12 largest economies of East and South Asia. Together these countries constitute more than 95 percent of the region's population, agricultural output and overall GDP. Sectoral trade and exchange rate policies in the region have changed greatly since the 1950s and there have been substantial reforms since the 1980s, most notably in China and India. Nonetheless, numerous price distortions in this region remain and others have added in recent years. The new empirical indicators in these country studies provide a strong evidence based foundation for assessing the successes and failures of the past and for evaluating policy options for the years ahead.
