Political Economy Of Race Class In Sou:

The Political Economy of Race and Class in South Africa Bernard Magubane, 1979 Class, Race and Sport in South Africa's Political Economy (RLE Sports Studies) Grant Jarvie, 2014-04-24 In recent years the interest in the patterns and policies of South African sport has grown This book examines the increasingly complex issue of race class and sport in the context of South African social relations The author disputes evaluations made purely on the question of race maintaining that it is important to examine the complex interaction between racial and class dynamics as a background for understanding the South African way of life The book demonstrates that sport must be understood in the context of the ensemble of social relations characterizing the South African social formation The Politics of Race, Class and Nationalism in Twentieth Century South Africa S. Mark, Stanley Trapido, S. Marks, 2014-09-25 The standard of contribution is high the reader gets a good sense of the cutting edge of historical research African Affairs *The South African Tradition of Racial Capitalism* Zachary Levenson, Marcel Paret, 2024-06-28 This book documents the emergence and development of the theory of racial capitalism in apartheid South Africa It interrogates the specificity of this theory in the South African context and draws lessons for its global applicability Racism and capitalism have a long history of entanglement Nowhere is this more evident than in South Africa where colonial and apartheid regimes used explicit systems of racial hierarchy to shore up profit It is therefore no surprise that South Africa has represented a key site for thinking about the role that racism plays in shaping state policy labor markets patterns of capital accumulation and working class struggle Illuminating these dynamics this volume develops a distinctive South African tradition of thought about the relationship between racism and capitalism The South African Tradition of Racial Capitalism contributes to a burgeoning literature on the concept of racial capitalism the origins of which many commentators trace back to apartheid South Africa It pays particular attention to the crucial role of anti apartheid activists as theorists whose important insights remain relevant for scholars and activists around the globe This book was originally published as a special issue of Ethnic and Racial Studies **The Political Economy Of South Africa** Ben Fine, 2018-02-12 Democratization in South Africa has been accompanied by continuing and even deepening economic inequalities Rather than proposing a blueprint for a more equitable economic system this book presents the results and implications of wide ranging research on the history and current dynamics of the South African economy over the past fifty years The authors analyze a range of strategic economic trajectories linking these to the shifting balance of economic and political power and they set the parameters within which the economic and political debates are conducted The acclaim with which democratization in South Africa has been greeted has been tempered by the recognition that there are at the same time continuing and even deepening economic inequalities This is more disturbing given the extreme economic disparity experienced by much of the black population the retreat from commitments to public ownership enshrined in the Freedom Charter the unambiguous safeguarding of private capital and the obstacles placed in the way of progressive economic

policies by business interests and the entrenched apartheid era bureaucracy Rather than proposing a blueprint for a more equitable economic system this book presents the results and implications of detailed and wide ranging research on both the history and current dynamics of the South African economy from the Second World War to the present The authors analyze a range of strategic economic trajectories linking these to the shifting balance of economic and political power in South Africa But their approach is not prescriptive instead they set the parameters within which the economic and political debates are conducted They also discuss the theoretical arguments involved in the propositions that they and others have put forward The books value is enhanced by the comprehensiveness of the data presented and each chapter is self contained so that particular topics can be studied separately On the Political Economy of Race ,1984 The Imperial Curriculum J. Mangan,2012-05-04 This volume presents the first comparative analysis of racial attitudes in the formal schooling of both Britain and its former dominions and colonies The various contributions examine the issue right across the British imperial experience with case studies ranging from Canada Ireland East and South Africa through the Indian subcontinent to Australia and New Zealand Racial indoctrination is considered from the perspective of both colonizer and colonized The central theme throughout is that a racial hierarchy was taught through both curriculum and text in schools throughout the former British Empire Situating Jo-Anne Lee,John Sutton Lutz,2005 This collection explores the strengths and weaknesses of postmodern social theory in the struggle against racism Recognizing diversity as a conduit for resilience endurance and strength the editors have tried to encourage coalition building by bringing together historians sociologists cultural theorists and literary scholars in dialogue with artists and activists Topics considered include nation formation racialized states cultural racism multiculturalism hyphenated and mixed race identities media and representation and shifting identities **Democratization in South Africa** Timothy Sisk,2017-03-14 Timothy Sisk presents a new way of conceiving the transition to democracy in South Africa Unlike authors such as Horowitz and Lijphart who have sought to prescribe an ideal set of post apartheid political institutions Sisk asks what kinds of institutions show signs of actually emerging given recent history and present realities He treats the problem of constructing a democratic post apartheid society in South Africa as part of a larger condition common to societies deeply divided by ethnic religious racial or national discord Though its profound cleavages of race and class make it a least likely candidate for conflict resolution through democratization Sisk argues that the centripetal pull on moderate politicians of all parties was greater than the seemingly natural polarizing trend in a divided society This centripetal pull led to the adoption of an interim constitution in 1993 after protracted negotiations An American Fulbright scholar sent to South Africa after the end of the 21 year rupture of official scholarly exchanges between the two countries Sisk analyzes the changes in the strategic calculations of the white minority government the black liberation movement and other parties over the course of negotiations since 1990 He concludes that intermittent upsurges of violence often reinforced rather than reduced the incentives of leaders on both sides to negotiate a

settlement that would avoid mutually damaging outcomes Drawing on extensive interviews with political figures as well as other primary and secondary sources Sisk finds reason for hope that a democratic social contract can evolve balancing majority rule with minority representation and guaranteeing equal economic opportunity and social justice Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Contested Idea of South Africa** Sabelo J.

Ndlovu-Gatsheni, Busani Ngcaweni, 2021-11-29 This book reflects on the complex and contested idea of South Africa drawing on a wide range of disciplinary perspectives Ever since the delineation of South Africa as a country the many diverse groups of people contained within its borders have struggled to translate a mere geographical description into the identity of a people Today the new struggles for South Africa and to become South African are inextricably intertwined with complex challenges of transformation xenophobia claims of reverse racism social justice economic justice service delivery and the resurgent decolonization struggles reverberating inside the universities This book covers the genealogy of the idea of South Africa exploring how the country has been conceived of by a broad group of actors including the British Afrikaners diverse African nationalist traditions and new formations such as the Economic Freedom Fighters EFF Black First Land First BLF and student formations Rhodes Must Fall Fees Must Fall Over the course of the book a broad range of themes are covered including identity formation modernity race ethnicity indigeneity autochthony land gender intellectual traditions poetics of South Africanness language popular culture truth and reconciliation and national development planning Concluding with important reflections on how a colonial imaginary can be changed into a free and inclusive postcolonial nation state this book will be an important read for Africanist researchers from across the humanities and social sciences The Politics of

provides a stimulating introduction to the history of South Africa in the twentieth century. It draws on the rich and lively tradition of radical history writing on that country and to a greater extent than previous accounts weaves economic and cultural history into the political narrative. Apartheid and industrialization especially mining are central themes as is the rise of nationalism in the Afrikaner and African communities. But the author also emphasizes the neglected significance of rural experiences and local identities in shaping political consciousness. The roles played by such key figures as Smuts, Verwoerd, de Klerk, Plaatje and Mandela are explored while recent historiographical trends are reflected in analyses of rural protest, white cultural politics, the vitality of black urban life and environmental decay. The book assesses the analysis of black reactions to apartheid, the rise of the ANC. The concluding chapter brings this seminal history up to date tackling the issues and events from 1994-1999 in particular the success of Mandela and the ANC in seeing through the end of apartheid rule. It also looks at the chances of a stable future for the new found democracy in South Africa.

The Political Economy of South Africa Nicoli Nattrass, Elisabeth Ardington, 1990. A collection of essays on the South African political economy, this book addresses a range of issues relevant to the current political and economic climate in South Africa. Chapters include such topics as social democracy, regional development, policy redistribution, black wages, trade unions, unemployment, urbanization, migrant labor, small business, economic sanctions and poverty.

The Long Road to Freedom Ime John Ukpanah, 2005. Inkundla Ya Bantu was the only independent African journal to play a significant role in the resistance press against the white minority government. It was launched in 1938 as a moderate African nationalist community paper and would cease publication in 1951 just seven months before the launch of the Defiance Campaign. Ime Ukpanah tells the story of the paper and the people who founded it, later to be key figures in the ANC. Having no official press of its own, the ANC adopted Inkundla Ya Bantu as its PR organ.

African Intellectuals Thandika Mkandawire, 2005-05. This title provides a study of the African intelligentsia in Africa and the diaspora.

The Road to Democracy in South Africa: 1970-1980 South African Democracy Education Trust, 2004 v 3. The third volume in the series examines the role of anti-apartheid movements around the world. The global anti-apartheid movement was very successful in creating awareness of the liberation struggle in South Africa and in contributing to the downfall of the apartheid government. This volume in 2 parts brings together analyses which in the main are written by activist scholars with deep roots in the movements and organizations they are writing about.

Politics and Society in South Africa Daryl Glaser, 2000-12-22. Darryl Glaser supplies an illuminating overview of the scholarship since 1970 on South Africa's political history. His emphasis is on the debates between liberals, Marxists and to a lesser extent post-structuralists about the origins and the course of South Africa's racial order. Tom Lodge, University of Witwatersrand. A well researched, well argued, readable, interesting, informative and competent study. Capital and Class. Providing a wide ranging and critical introduction to contemporary South Africa, this book uses an interdisciplinary lens to introduce the student to the main debates, historical context and issues that have characterized the study of South Africa over the last three decades. Key

topics include the role of colonialism capitalism and modernity in the formation of the racial order changes in the South African state questions of class race and ethnicity black resistance and the transition to democracy A number of underlying debates are critically evaluated For example the contribution of materialist and class analytic approaches the application of post structuralism and theories of modernity and the prospects for democratic liberalism and socialism in post apartheid South Africa

Neoliberal Apartheid Andy Clarno, 2017-03-07 In recent years as peace between Israelis and Palestinians has remained cruelly elusive scholars and activists have increasingly turned to South African history and politics to make sense of the situation In the early 1990s both South Africa and Israel began negotiating with their colonized populations South Africans saw results the state was democratized and black South Africans gained formal legal equality Palestinians on the other hand won neither freedom nor equality and today Israel remains a settler colonial state Despite these different outcomes the transitions of the last twenty years have produced surprisingly similar socioeconomic changes in both regions growing inequality racialized poverty and advanced strategies for securing the powerful and policing the racialized poor *Neoliberal Apartheid* explores this paradox through an analysis of de colonization and neoliberal racial capitalism After a decade of research in the Johannesburg and Jerusalem regions Andy Clarno presents here a detailed ethnographic study of the precariousness of the poor in Alexandra township the dynamics of colonization and enclosure in Bethlehem the growth of fortress suburbs and private security in Johannesburg and the regime of security coordination between the Israeli military and the Palestinian Authority in the West Bank The first comparative study of the changes in these two areas since the early 1990s the book addresses the limitations of liberation in South Africa highlights the impact of neoliberal restructuring in Palestine and argues that a new form of neoliberal apartheid has emerged in both contexts

Imperialism, Race and Resistance Barbara Bush, 2002-01-04 *Imperialism Race and Resistance* marks an important new development in the study of British and imperial interwar history Focusing on Britain West Africa and South Africa *Imperialism Race and Resistance* charts the growth of anti colonial resistance and opposition to racism in the prelude to the post colonial era The complex nature of imperial power is explored as well as its impact on the lives and struggles of black men and women in Africa and the African diaspora Barbara Bush argues that tensions between white dreams of power and black dreams of freedom were seminal in transforming Britain's relationship with Africa in an era bounded by global war and shaped by ideological conflict

The Pitfalls of Liberal Democracy and Late Nationalism in South Africa M. Muiu, 2008-12-08 This book compares African and Afrikaner nationalisms to demonstrate that the transition from apartheid to liberal democracy in South Africa was a neo colonial settlement that left the economy and the military and security sectors under the control of the white minority while increasing wide socioeconomic disparities between rich and poor
