## **Political Economy Of South Africa's Transition:**

**South Africa: Limits To Change** Hein Marais, 2001-09-08 Drawing on the rich structural and political understandings of radical South African intellectuals this book explains why the South African government has been unable to breach the boundaries of change erected by the privileged classes It reveals why it has adopted conservative economic policies and why the country's popular movement has failed to press home more radical opinions Hein Marais compellingly probes the hidden dynamics of South Africa's transition arguing that the democratic breakthrough was much less open ended than generally believed

The Political Economy of South Africa's Transition Jonathan Michie, Vishnu Padayachee, 1997 The Political Economy of South Africa's Transition provides the basis for a critical examination of the recent history and politics of the process of economic policy formulation in South Africa

**The Political Economy of South Africa's Post-apartheid Transition** Benjamin Fine, 2025-05-26 South Africa's post apartheid transition has proven disastrous It is marked by the emergence of a black elite of enriched capitalists out of the globalisation neoliberalisation and financialisation of the economy in general and of its Minerals Energy and Financial Complex in particular By contrast inequalities poverty and failing social provision have persisted Recent attention has shifted to how this disastrous trajectory was initiated some suggesting a lack of available alternative policy options at the time of transition This is shown to be false with a full range of progressive alternatives being rejected with corresponding consequences from state capture to electoral defeat

*The Political Economy Of South Africa* Ben Fine, 2018-02-12 Democratization in South Africa has been accompanied by continuing and even deepening economic inequalities Rather than proposing a blueprint for a more equitable economic system this book presents the results and implications of wide ranging research on the history and current dynamics of the South African economy over the past fifty years The authors analyze a range of strategic economic trajectories linking these to the shifting balance of economic and political power and they set the parameters within which the economic and political debates are conducted The acclaim with which democratization in South Africa has been greeted has been tempered by the recognition that there are at the same time continuing and even deepening economic inequalities This is more disturbing given the extreme economic disparity experienced by much of the black population the retreat from commitments to public ownership enshrined in the Freedom Charter the unambiguous safeguarding of private capital and the obstacles placed in the way of progressive economic policies by business interests and the entrenched apartheid era bureaucracy Rather than proposing a blueprint for a more equitable economic system this book presents the results and implications of detailed and wide ranging research on both the history and current dynamics of the South African economy from the Second World War to the present The authors analyze a range of strategic economic trajectories linking these to the shifting balance of economic and political power in South Africa But their approach is not prescriptive instead they set the parameters within which the economic and political debates are conducted They also discuss the theoretical arguments involved in the propositions that they and others

have put forward The books value is enhanced by the comprehensiveness of the data presented and each chapter is self contained so that particular topics can be studied separately **South Africa : Limits to Change** ,1998 *The Political Economy of Trade Reform in Emerging Markets* Peter Draper,Phil Alves,Razeen Sally,2009-01-01 few if any other recent volumes offer a historical perspective on evolving trade policy in several countries this well written well edited volume is suitable for graduate and research libraries M Larudee Choice This book is a refreshing reminder of the benefits of unilateral trade liberalisation in countries whose leaders dare An important story told with clarity and authority Ross Garnaut The Australian National University Australia That trade liberalization is good for emerging market economies and not just for the rich ones is now widely accepted by both economists and policy makers But the question remains how can these reforms be implemented in practice The answer to that important question lies in understanding the political economy of each reforming country This book makes a splendid contribution to our understanding of this issue by examining the experience of several countries It is therefore an important book to be read by not just students and researchers but also policy makers worldwide Jagdish Bhagwati Columbia University US This timely book brings fresh analysis to the important issue of trade policy reform in emerging markets The subject matter and its significance are comprehensively introduced with a review of developing country liberalization since the 1980s providing an analytical framework for the seven country case studies that follow The case studies Australia Brazil Chile India Malaysia New Zealand and South Africa cover a wide variety of political historical and economic issues but all make clear the important role that crisis or the threat of it plays in meaningful trade policy reform This is of particular relevance in the current global financial crisis These studies together with the conclusions which are drawn from them show how important the trade liberalization agenda remains in the 21st century Written by a combination of both experts and practitioners this highly topical book will make productive reading for policy makers concerned with trade policy in developed and developing countries as well as scholars working in trade policy Postgraduate students studying international business international relations economics politics and international law should not be without this book Contemporary South Africa and the Political Economy of Regional Development Methembe Mdlalose,Isaac Khambule,Nene Ernest Khalema,2025-02-21 South Africa s struggle in balancing its domestic needs while playing a dynamic developmental role in the African region and global context exposes a complex web of relations shaped by its geostrategic location on the continent and the world and the staggering legacies of colonialism and apartheid As such understanding the complexities of the global economy and of South Africa s place in it is of great importance This book builds upon an existing body of literature which has demonstrated that while the post apartheid South African state has recast its nation building goals with advances having been made notably in the area of a stellar post apartheid constitution policy directives and democratic political integration economic integration and policy implementation presents a projection of captured interests where big business concerns are entrenched in the post apartheid state s apparent neo liberal turn The

main focus of the book is to contextualise issues relating to three main trends in global discourses on development which are significant for South Africa and indeed for the study of the political economy of regional development in the country from the prism of South Africa as a global capitalist state These trends include the impact of globalisation regionalisation and the marginalisation of South Africa and indeed the African continent in the global economy thus unpacking the possible role that South Africa might play in regional development This volume will be a valuable resource to academics researchers and students in the fields of regional studies economics and political theory as well as policymakers planners and local economic development practitioners

**The Political Economy of Clean Energy Transitions** Douglas Arent, Channing Arndt, Mackay Miller, Finn Tarp, Owen Zinaman, 2017 A volume on the political economy of clean energy transition in developed and developing regions with a focus on the issues that different countries face as they transition from fossil fuels to lower carbon technologies

South Africa Pushed to the Limit Hein Marais, 2013-07-04 Since 1994 the democratic government in South Africa has worked hard at improving the lives of the black majority yet close to half the population lives in poverty jobs are scarce and the country is more unequal than ever For millions the colour of people's skin still decides their destiny In his wide ranging incisive and provocative analysis Hein Marais shows that although the legacies of apartheid and colonialism weigh heavy many of the strategic choices made since the early 1990s have compounded those handicaps Marais explains why those choices were made where they went awry and why South Africa's vaunted formations of the left old and new have failed to prevent or alter them From the real reasons behind President Jacob Zuma's rise and the purging of his predecessor Thabo Mbeki to a devastating critique of the country's continuing AIDS crisis its economic path and its approach to the rights and entitlements of citizens *South Africa Pushed to the Limit* presents a riveting benchmark analysis of the incomplete journey beyond apartheid

*Neoliberalism and Resistance in South Africa* Shaukat Ansari, 2021-05-03 This book critically examines the persistence of market orthodoxy in post apartheid South Africa and the civil society resistance such policies have generated over a twenty five year period Each chapter unpacks the key political coalitions and economic dynamics domestic as well as global that have sustained neoliberalism in the country since the transition to liberal democracy in 1994 Chapter 1 analyzes the political economy of segregation and apartheid as well as the factors that drove the democratic reform and the African National Congress ANC subsequent abandonment of redistribution in favor of neoliberal policies Further chapters explore the causes and consequences of South Africa's integration into the global financial markets the limitations of the post apartheid social welfare program the massive labour strikes and protests that have erupted throughout the country and the role of the IMF and World Bank in policymaking The final chapters also examine the political and economic barriers thwarting the emergence of a viable post apartheid developmental state the implications of monopoly capital and foreign investment for democracy and development and the phenomenon of state capture during the Jacob Zuma Presidency

Political Economy Of The Brics Countries, The (In 3 Volumes) , 2020-03-03

Over the past 20 years social scientists government officials and investors have expressed mounting interest in the BRICS countries which include Brazil Russia India China and South Africa These countries are widely viewed as both key actors in the global economy and important regional powers The Political Economy of the BRICS Countries is a three volume set that aims to address various crucial issues regarding these countries Volume 1 analyzes whether economic growth in the BRICS countries has been broad based and promoted equitable economic and social outcomes The authors examine specific dimensions of growth in these five economies that constrain their ability to act effectively and cohesively in international affairs Volume 2 considers how the BRICS have affected global economic governance and the international political economy Volume 3 provides various approaches to economic informality in the BRICS Moreover the chapters deal with several connections between informality and important political economic and institutional phenomena such as economic globalization and international aid economic development political regimes social capital political networks and political participation labor market rules and social policy preferences The BRICS countries have attracted rising attention over the past two decades The volumes provide an in depth analysis of various key issues regarding these countries and chart a course for future research

South African Transitions Christopher J. Lee, Andrew Offenburger, 2025-01-08 This book addresses the multiple repercussions of South Africa's democratic transition beginning in 1994 by examining a number of themes with local national regional and global relevance the politics of nation building public memory residential segregation higher education media racism trade unionism women's rights and global climate change to name only a few Drawing from the rich archive of previously published articles from the journal *Safundi* South African Transitions documents both the country's and the journal's mutual history over the past quarter century Divided into five sections the first part of the book explores the broad theme of South Africa's transition to non racial democracy by foregrounding issues of nationalism diplomacy rural change social trauma historical commemoration and political feeling at local national and international levels The second section focuses on the question of civil society including essays on media racism histories of segregation legacies of criminal violence and comparative patterns of incarceration underscoring the endurance of certain long term problems and the emergence of new ones Part three surveys the role of education in transforming South Africa while part four situates South Africa's opportunities and challenges within regional and global contexts to better understand the South African situation and its relationship to conditions around the world The penultimate section has contributions that confront the present by identifying the struggles and crises of South Africa's current political moment including labor movements the matter of land restitution feminist activism LGBTQI rights and the Marikana Massacre of 2012 The book ends with an essay on the fire at Jagger Library at the University of Cape Town by historian Bill Nasson a moment of contingent destruction that speaks of the Covid 19 pandemic and the burgeoning climate crisis at present Traversing across time and place South African Transitions will be an indispensable resource for scholars researchers activists and policymakers as well as those readers

who are generally interested in understanding South Africa's social political and intellectual transformations over the past several decades      **Handbook of Research on the Global Political Economy of Work** Maurizio Atzeni, Dario

Azzellini, Alessandra Mezzadri, Phoebe Moore, Ursula Apitzsch, 2023-10-06 This ground breaking Handbook broadens empirical and theoretical understandings of work work relations and workers It advances a global intersectional labour studies agenda laying the foundations for the politically emancipatory project of decolonising the political economy of work

*Geography and Economy in South Africa and its Neighbours* Christian M. Rogerson, 2017-05-15 The dismantling of the apartheid regime in South Africa caused massive transformation in both geographical and economic terms not only in this country but also in the region as a whole As the post apartheid government enters its second term this captivating volume assesses its progress in unravelling the geography of apartheid both in South Africa itself and in its relationships with other countries in Southern Africa and Africa It also considers the ways in which South Africa now that it is no longer a pariah state has begun to position itself within the current global economy Examining South Africa's land and agriculture mining and minerals manufacturing tourism corporate finance the labour market and transport the volume discusses the challenges of balancing growth and redistribution the extent and nature of progress change and relationships within the regional and global economy A compelling investigation into the economics of South Africa's neighbouring states in relation to their natural resources colonialism and inter relationships with themselves and with South Africa leads to a focus on the region as a whole and its relations with the global economy      *Democratic Transitions* Sergio Bitar, Abraham F. Lowenthal, 2015-09-15

Thirteen former presidents and prime ministers discuss how they helped their countries end authoritarian rule and achieve democracy National leaders who played key roles in transitions to democratic governance reveal how these were accomplished in Brazil Chile Ghana Indonesia Mexico the Philippines Poland South Africa and Spain Commissioned by the International Institute for Democracy and Electoral Assistance International IDEA these interviews shed fascinating light on how repressive regimes were ended and democracy took hold In probing conversations with Fernando Henrique Cardoso Patricio Aylwin Ricardo Lagos John Kufuor Jerry Rawlings B J Habibie Ernesto Zedillo Fidel V Ramos Aleksander Kwańkowski Tadeusz Mazowiecki F W de Klerk Thabo Mbeki and Felipe González editors Sergio Bitar and Abraham F Lowenthal focused on each leader's principal challenges and goals as well as their strategies to end authoritarian rule and construct democratic governance Context setting introductions by country experts highlight each nation's unique experience as well as recurrent challenges all transitions faced A chapter by Georgina Waylen analyzes the role of women leaders often underestimated A foreword by Tunisia's former president Mohamed Moncef Marzouki underlines the book's relevance in North Africa West Asia and beyond The editors' conclusion distills lessons about how democratic transitions have been and can be carried out in a changing world emphasizing the importance of political leadership This unique book should be valuable for political leaders civil society activists journalists scholars and all who want to support democratic transitions      South African Economic

Policy under Democracy Janine Aron, Brian Kahn, Geeta Kingdon, 2009-03-19 South Africa experienced a momentous change of government from the Apartheid regime to its first democratic government in 1994 This book provides an up to date and comprehensive assessment of South Africa's economic policies and performance under democracy The book includes a stand alone introduction and economic overview as well as chapters on growth monetary and exchange rate policy and fiscal policy on capital flows and trade policy on investment and industrial and competition policy on the effect of AIDs in the macroeconomy and on unemployment education and inequality and poverty Each chapter and the overview chapter in particular also addresses prospects for the future *The Political Economy of Xenophobia in Africa* Adeoye O.

Akinola, 2017-11-13 This book analyzes the phenomenon of xenophobia across African countries With its roots in colonialism which coercively created modern states through border delineation and the artificial merging and dividing of communities xenophobia continues to be a barrier to post colonial sustainable peace and security and socio economic and political development in Africa This volume critically assesses how xenophobia has impacted the three elements of political economy state economy and society Beginning with historical and theoretical analysis to put xenophobia in context the book moves on to country specific case studies discussing the nature of xenophobia in Nigeria South Africa Zambia Ghana and Zimbabwe The chapters furthermore explore both violent and non violent manifestations of xenophobia and analyze how state responses to xenophobia affects African states economies and societies especially in those cases where xenophobia has widespread institutional support Providing a theoretical understanding of xenophobia and proffering sustainable solutions to the proliferation of xenophobia in the continent this book is of use to researchers and students interested in political science African politics peace studies security and development economics as well as policy makers working to eradicate xenophobia in Africa

**Inequality Studies from the Global South** David Francis, Imraan Valodia, Edward Webster, 2020-05-04 This book offers an innovative interdisciplinary approach to thinking about inequality and to understanding how inequality is produced and reproduced in the global South Without the safety net of the various Northern welfare states inequality in the global South is not merely a socio economic problem but an existential threat to the social contract that underpins the democratic state and society itself Only a response that is firmly grounded in the context of the global South can hope to address this problem This collection brings together scholars from across the globe with a particular focus on the global South to address broad thematic areas such as the conceptual and methodological challenges of measuring inequality the political economy of inequality in the global South inequality in work households and the labour market and inequalities in land spaces and cities The book concludes by suggesting alternatives for addressing inequality in the global South and around the world The pioneering ideas and theories put forward by this volume make it essential reading for students and researchers of global inequality across the fields of sociology economics law politics global studies and development studies

**Shadow of Liberation** Vishnu Padayachee, Robert Van Niekerk, 2019-10-01 Shadow of Liberation explores the intricate

twists turns contestations and compromises of ANC economic and social policymaking with a focus on the transition era of the 1990 s and the early years of democracy With the damning revelations by the Zondo Commission of Inquiry into State Capture on the massive corruption of the South African body politic the timing of this book could not be more relevant South Africans need to confront the economic and social policy choices that the liberation movement made and to see how these decisions may have facilitated the conditions for corruption to emerge and flourish Answers are needed Padayachee and van Niekerk focus their attention on the primary question of how and why the ANC given its historical anti inequality redistributive stance come in the 1990s to such a dramatic turn around and move towards an essentially market dominated approach Were they pushed or did they go willingly What role if any did Western governments and international financial institutions play And what of the role of the late apartheid state and South African business Did leaders and comrades sell out the ANC s emancipatory policy vision Shadow of Liberation tries to provide answers to these questions drawing on the best available primary archival evidence as well as extensive interviews with key protagonists across the political non government and business spectrum The authors argue that the ANC s emancipatory policy agenda was broadly to establish a social democratic welfare state upholding rights of social citizenship However its economic policy framework to realise this emancipatory mission was either non existent or egregiously misguided
