## **Political Expectation:**

**The Political Agenda Of Organizations** Yitzhak Samuel, Samuel also outlines the variety of political games that are played in the realm of organizations listing nine types of games in which individual level politics group level politics and organizational level politics take place While scrutinizing the political layout of organizations he also demonstrates how major issues dealt with through processes of decision making turn into political agendas within organizations And finally he addresses the issue of managerial politics drawing upon research that shows how managers influence their subordinates and how executives conduct power struggles and political maneuvers to defend their lucrative positions The Political Agenda of Organizations is an enlightening analysis of the power and influence in business organizations and will be of interest to sociologists and other social scientists as well as students of management and business administration **The SAGE Handbook of Political Science** Dirk Berg-Schlosser, Bertrand Badie, Leonardo Morlino, 2020-02-11 The SAGE Handbook of Political Science presents a major retrospective and prospective overview of the discipline Comprising three volumes of contributions from expert authors from around the world the handbook aims to frame assess and synthesize research in the field helping to define and identify its current and future developments It does so from a truly global and cross area perspective Chapters cover a broad range of aspects from providing a general introduction to exploring important subfields within the discipline Each chapter is designed to provide a state of the art and comprehensive overview of the topic by incorporating cross cutting global interdisciplinary and where this applies gender perspectives The Handbook is arranged over seven core thematic sections Part 1 Political Theory Part 2 Methods Part 3 Political Sociology Part 4 Comparative Politics Part 5 Public Policies and Administration Part 6 International Relations Part 7 Major Challenges for Politics and Political Science in the 21st Century **Expectations of the End** Albert Hogeterp, 2010-01-01 Since a fuller range of Qumran sectarian and not clearly sectarian texts and recensions has recently become available to us its implications for the comparative study of eschatological apocalyptic and messianic ideas in the Dead Sea Scrolls and in the New Testament need to be explored anew This book situates eschatological ideas in Qumran literature between biblical tradition and developments in late Second Temple Judaism and examines how the Qumran evidence on eschatology resurrection apocalypticism and messianism illuminates Palestinian Jewish settings of emerging Christianity The present study challenges previous dichotomies between realized and futuristic eschatology wisdom and apocalypticism and provides many new insights into intra Jewish dimensions to eschatological ideas in Palestinian Judaism and in the early Jesus movement **The Political Ideas of Thorstein Veblen** Sidney Plotkin, Rick Tilman, 2011-12-06 Thorstein Veblen is best known for his authorship of The Theory of the Leisure Class and The Theory of Business Enterprise which made him a celebrated figure in the fields of economics and sociology at the turn of the twentieth century In this book Sidney Plotkin and Rick Tilman argue that in addition to his well known work in these fields Veblen also made important and until now overlooked statements

about politics While Veblen s writings seldom mention politics they are saturated with political ideas about the relationship among war executive power and democracy about the similarities between modern executive positions and monarchy about the political influence of corporate power about the symbolism of politics and about many other issues By demonstrating the deep relevance of Veblen s writings to today s political troubles The Political Ideas of Thorstein Veblen offers an important reconsideration of a major American thinker      *Encyclopedia of U.S. Political History* Andrew Whitmore Robertson,2010

**Political Corruption and Extortion in Developing Countries an Analysis of Public Expectations after Coups** Md Ishtiaq Hossain, In this inquiry the authors question the interface between the political corruption extortion and high hopes of the populace after coups in the developing countries The general aim is to explain how corruption after a coup has influenced citizens to anticipate policy reformation growth of the economy and the transparency of the government In that regard the case studies of various Asian states are used as well as similar developments in other third world societies The resultant evidence also highlights the instrumental nature of corruption on facilitating and maintaining coups and the resultant loss of popular trust in government outfits As a methodological approach the research is going to be mixed methodical A qualitative inquiry which consists of interviews with common people political participants and civically inclined domain experts is used together with quantitative measurements of focused economic output corruption product and surveys of popular opinion prior to regime changes and subsequent to the changes A combination of these strands brings to the fore greater understanding on how corruption alters government structures and national economic wellbeing in transitional environments Parallel to this analysis there is the question on how the effects of extortion and rent seeking processes following staging of coups enhance the challenges to the reconstitution of democratic structures The empirical evidence indicates that even though a lot of expectations are expected of improved governance policies that come along with regime change it is evident that the availability and persistence of corruption particularly the extortion of political elite and bureaucratic officials never seem to cease to disappoint such expectations In many instances coups have not succeeded in

bringing about the expected changes but they have created political instability and stagnant growth of economies The paper thus ends with a list of anti corruption measures and governance restructuring that can be taken to dampen the long term harmful repercussions of corruption and strengthen public confidence in interim governments that come to power through coups Together the research provides insight into the continuity of corruption and extortion to continue to shape the political buildings of the developing regions following regime changes and that is a vital piece of advice in providing policymakers and global powerhouse bodies

Gagnon,Catherine Hartung,Lesley J. Pruitt,2017-03-17 Prominent studies and opinion polls often claim that young people are disengaged from political institutions distrustful of politicians and disillusioned about democracy *Young People Citizenship and Political Participation* challenges these political stereotypes by asking whether young people have been contributing to or rectifying our civic deficit In particular it examines the role of civics education in addressing the so called crisis of democracy Turning away from conventional suggestions often advocated by politicians and educators that offer civics education as the solution the book advances an alternate approach to civics one that acknowledges the increasingly diverse ways in which young people are both engaging and disengaging politically     **A Political History of Child Protection** Ian

Kelvin Hyslop,2022-01-26 Exploring the current and historical tensions between liberal capitalism and indigenous models of family life Ian Kelvin Hyslop argues for a new model of child protection in Aotearoa New Zealand and other parts of the Anglophone world He puts forward the case that child safety can only be sustainably advanced by policy initiatives which promote social and economic equality and from practice which takes meaningful account of the complex relationship between economic circumstances and the lived realities of service users     **Exploring the Range of Theology** Theodore

Runyon,2012-01-25 Every human being is a theologian We have a curiosity about the ultimate context in which we exist Theologians help us spell that out and examine what faith is all about The wide ranging issues and questions this book addresses begin with the differences between Christianity and other religions examine the relation between the Bible science and evolution explore the role of religious experience in the birth of faith and consider the contribution theologians like Paul Tillich Friedrich Gogarten Teilhard de Chardin Jurgen Moltmann and John Wesley can make to our thought today

Reframing Biblical Theology Daniel C. Fredericks,2025-08-26 Biblical theology is adequate only if wholly contextualized within the eternal natures of God creation and history A more thorough awareness of God s eternal design within creation and its history and a fuller perspective on the Messiah s commission avoids significant discontinuities such as universal and redemptive histories the gospels of Jesus and his apostles cross and kingdom of God centers heaven and a new earth and the role of sanctification in the Old and New Testaments This study suggests that God s eternal design for creation and its history subsumes a limited biblical theology that focuses on the solution to the sin problem at the expense of what has always been

the eternal practical and productive objective of that solution and its current implications The church can focus on an urgent need for the rescue at the expense of the equally urgent and eternal purpose for that rescue A more comprehensive practical and productive theology of endless creation and its history contextualizes salvation and its eschatological focus by enveloping them as temporary components within God's eternal design
