Translated... by Ssu-yu Teng,... and Jeremy Ingalls,... Li Chien-Nung,1956 *The Political Institutions of Modern China* W.L. Tung,2012-12-06 This book is prepared primarily for students who are interested in studying the constitutional development and government structure of twentieth century China Since the emergence of the Chinese constitutional movement at the end of the nineteenth century political institutions in China have undergone constant changes The first four chapters treat of constitutional development and government systems from the latter part of the Ching dynasty to the reunification of China by the Nationalist Party in 1928 The other eight chapters deal with the policies programs and institutions of the Nationalist and Communist governments up to 1962 While treatises on various subjects have been consulted the sources of this book are chiefly based on the official documents from the collections as indicated in the bibliography Materials in the first few chapters are partly drawn from my previous works on government and politics in China Because of the immense scope of the subject and the intricacy of the problems involved this work is not intended to be exhaustive but is rather a brief description and discussion of each topic under consideration As there are many valuable works on China in general as well as on her history and international relations I have tried not to cover what has already been dealt with by others In my presentation of facts and views I have endeavored to be as objective as possible personal political convictions notwithstanding

Historical Dictionary of the Chinese Civil War Christopher R. Lew,Edwin Pak-wah Leung,2013-07-29 The Chinese Civil War which lasted several years or several decades depending on how you define it was one of the most momentous wars of the 20th century for it determined the fate of the world's most populous country and was bitterly fought with millions of combatants involved and hundreds of millions of civilians affected More to the point it was won by the Chinese Communist Party under Mao Zedong who imposed Communist rule while the Nationalists retreated to Taiwan It also heated up the Cold War for quite some time as the Communists were supported by the Soviet Union and the Nationalists by the United States This second edition of the Historical Dictionary of the Chinese Civil War studies the longer broader war and its chronology carefully tracks the major events The introduction then provides a broad overview describing the contending forces and showing how the Communists come out on top The details and these are crucial are laid out in over 200 cross referenced dictionary entries dealing with the opposing forces and parties the major campaigns and battles the Long March and of course the leadership on both sides This book one of few such in English provides a very solid basis for study but that can be

Explaining Chinese Democratization Shaohua Hu,2000-01-30 Hu seeks to explain China s failure to establish a democratic system He demonstrates both continuity and change in China s democratization process Modern China regards power and wealth as primary goals and treats a strong state as a major means to these ends Such a preference puts democracy on a back burner Employing a theoretical framework which consists of five factors historical legacies local forces the world system socialist values and economic development Hu shows that while all of these factors were at work in all eras each assumes a special significance in a particular period Traditional China before the 1911 Revolution attempted to adjust itself to a new Western dominated world In the Republican era the control of local forces topped the political agenda Nationalist China sought to survive and develop in the world system while Maoist China set for itself the task of building a socialist state And of course economic development has been the priority of the Deng era As Hu shows these five factors have had determining impacts on the long struggle for democracy in China
