

The background of the book cover is a Soviet propaganda poster. It depicts a winged figure, possibly a personification of the Soviet Union or a revolutionary spirit, holding a torch aloft in their right hand and a large book in their left. The book contains the Russian text 'Соединяй всех трудящихся стран, соедини их вместе' (Unite all workers of the world, unite them together). The figure is set against a backdrop of a cityscape at the bottom and a cloudy sky at the top. The overall color palette is dominated by reds, oranges, and yellows, with some greys and blues in the background.

Political Literature Of The Progressive:

Political Literature of the Progressive Era George L. Groman, 1967 *Political Literature of the Progressive Era. Edited, with an Introd., by George L. Groman* George L. Groman, *The Political Philosophy of the Progressive Party 1912-1916* Natalye Adelma Colfelt, 1926 **The Political Uses of Literature** Benjamin Kohlmann, Ivana Perica, 2024-01-11 Drawing on a global history of politicized writing this book explores literature's utility as a mode of activism and aesthetic engagement with the political challenges of the current moment The question of literature's uses has recently become a key topic of academic and public debate Paradoxically however these conversations often tend to bypass the rich history of engagements with literature's distinctly political uses that form such a powerful current of 20th and 21st century artistic production and critical theoretical reflection The Political Uses of Literature reopens discussion of literature's political and activist genealogies along several interrelated lines As a foundational moment it draws attention to the important body of interwar politicized literature and to debates about literature's ability to intervene in social reality It then traces the mobilization of related conversations and artistic practices across several historical conjunctures most notably the committed literature of the 1960s and our own present In mapping out these geographically and artistically diverse traditions including case studies from the Americas Europe Africa India and Russia contributors advance critical discussions in the field making questions pertaining to politicized art newly compelling to a broader and more diverse readership Most importantly this volume insists on the need to think about literature's political uses today at a time when it has become increasingly difficult to imagine any kind of political efficacy for art even as the need to do so is growing more and more acute Literature may not proffer easy answers to our political problems but as this collection suggests the writing of the 20th century holds out aesthetic resources for a renewed engagement with the dilemmas that face us now *The Visceral Logics of Decolonization* Neetu Khanna, 2020-02-28 In *The Visceral Logics of Decolonization* Neetu Khanna rethinks the project of decolonization by exploring a knotted set of relations between embodied experience and political feeling that she conceptualizes as the visceral Khanna focuses on the work of the Progressive Writers Association PWA a Marxist anticolonial literary group active in India between the 1930s and 1950s to show how anticolonial literature is a staging ground for exploring racialized emotion and revolutionary feeling Among others Khanna examines novels by Mulk Raj Anand Ahmed Ali and Khwaja Ahmad Abbas as well as the feminist writing of Rashid Jahan and Ismat Chughtai who each center the somatic life of the body as a fundamental site of colonial subjugation In this way decolonial action comes not solely from mental transformation but from a reconstitution of the sensorial nodes of the body The visceral Khanna contends therefore becomes a critical dimension of Marxist theories of revolutionary consciousness In tracing the contours of the visceral's role in decolonial literature and politics Khanna bridges affect and postcolonial theory in new and provocative ways **Political Prayer in Nineteenth-Century American Literature** Amy Dunham Strand, 2024-09-30 *Political Prayer in Nineteenth Century American Literature* explores how

American women writers such as Catharine Maria Sedgwick Harriet Beecher Stowe Rebecca Harding Davis and Emily Dickinson translated petitioning a political form for redress of grievances with religious resonance or what Strand calls political prayer in their literary works At a time when petitioning was historically transforming governments mobilizing masses and democratizing North America these White women writers wrote literary petitions to advocate for others in social justice causes such as antiremoval antislavery and labor reform to transform American literature and culture and to articulate an ambivalent political agency Political Prayer in Nineteenth Century American Literature introduces historic petitioning into literary study as an overlooked but important new lens for reading nineteenth century fiction and poetry Understanding petitions in these literary works and these literary works as petitions also helps us to understand women s political agency before their enfranchisement to explain why scholars have long debated and inconsistently interpreted the works of well anthologized women writers and to see more clearly the multidimensional coexisting and often competing religious and political aspects of their writings

Progressive Democracy Herbert Croly, 2017-07-05 Croly explains the requirements for a genuinely popular system of representative government providing progressive liberalism with both a philosophical critique of the founding fathers political outlook and a political strategy for replacing it with something more in keeping with a new epoch Although it was written in 1914 the intellectual structure remains largely intact within the liberal progressive tradition

Investigating Political Tolerance at Conservative Protestant Colleges and Universities George Yancey,Laurel Shaler,Jerald H. Walz,2019-02-21 This book aims to investigate the level of political tolerance at conservative Protestant colleges and universities Through innovative and methodologically sophisticated techniques the authors test the political openness of these institutions as a proxy for their willingness to accept opinions that fall outside of those held by their religious community The purpose of this study is to determine if there is an insular environment at conservative Protestant institutions beyond religious obligations or if these institutions are only restrictive as it concerns those theological commitments Drawing from five distinct sets of data the authors demonstrate that conservative Protestant institutions of higher education exhibit more political diversity and political tolerance than other institutions of higher education including elite Research 1 institutions
