Political Losers Michael B. Davie, 2001 History is invariably written from the perspective of the winners But losers also have stories to tell And there are valuable lessons to be learned from the defeated Join author Michael B Davie as he examines the meaning and significance of such diverse events as the 1700s Acadian expulsion in Canada Vietnam War and the defeat of Walter Mondale to Ronald Reagan in the United States and the forced famines of the Ukrainian Holocaust It s a fascinating look at those who faced life s trials and came in second Canadian Books in Print. Author and Title Index ,1975

Special Bibliography Series ,1957 **Political Losers** Michael B Davie, 2015-05-20 History is invariably written from the perspective of the winners But losers also have stories to tell And there are valuable lessons to be learned from the defeated Join author Michael B Davie as he examines the meaning and significance of such diverse events as the 1700s Acadian expulsion in Canada Vietnam War and the defeat of Walter Mondale to Ronald Reagan in the United States and the forced famines of the Ukrainian Holocaust It s a fascinating look at those who faced life s trials and came in second **Canadian Books in Print** ,2003 Acadiensis ,2002 **American Book Publishing Record** ,2002 *Darkest Europe and Africa's Nightmare* Akinyi von K'Orinda-Yimbo, 2008 *Голодомор в Україні 1932-1933 рр* Л. М Бур'ян, 2008 Understanding Global Politics Dr Chanchal Kumar, Prof Lungthuiyang Riamei, Dr Sanju Gupta, 2017-02-15 Understanding Global Politics is a pioneering work which analyses contemporary issues such as climate change migration nuclear proliferation terrorism as well as feminist perspective on International Relations It covers the various dimensions of globalisation which affects on the accelerating world The intergovernmental agencies such as International Atomic Energy Agency IAEA International Court of Justice as well as the United Nations are instrumental in directing the energies towards the control of proliferation of nuclear weapons The last section of the book deliberates on the global shifts power and governance in a fast changing world order The salience of global regional and economic groupings like WTO IMF World Bank BRICS EU etc are covered in great detail The book presents an opportunity to engage in Applied Global Politics and explore the core concept by students of Political Science International Relations as well as refresher for scholars of defence and security studies **Cycles in US Foreign Policy since the Cold War** Thomas H. Henriksen, 2017-01-25 This book describes how American international policy alternates between engagement and disengagement cycles in world affairs These cycles provide a unique way to understand assess and describe fluctuations in America s involvement or non involvement overseas In addition to its basic thesis the book presents a fair minded account of four presidents foreign policies in the post Cold War period George H W Bush Bill Clinton George W Bush and Barack Obama It suggests recurring sources of cyclical change along with implications for the future An engaged or involved foreign policy entails the use of military power and diplomatic pressure against other powers to secure American ends A disengaged or noninvolved policy relies on normal economic and political interaction with other states which seeks to disassociation from entanglements *A Bibliography of Works on Canadian Foreign Relations, 1991-1995*

Jennifer McNenly, Canadian Institute of International Affairs, 1998      *Women's Social Activism in the New Ukraine* Sarah D. Phillips, 2008-06-25 Considers democratization privatization and women's lives in postcolonial Ukraine      **Comparative Politics** Eric Langenbacher, 2024-12-24 This book takes a new and interesting approach to introduce students to the foundations of comparative politics Marni Berg Colorado State University Comparative Politics Mapping Institutions Power and Legitimacy introduces students to the foundations of comparative politics while using mapping and data analysis to encourage them to think critically about ever changing global relationships Author Eric Langenbacher examines the key concepts of power and legitimacy through a variety of viewpoints emphasizing the choices institutions make and why they make them As students explore themes through world geography and data based cases they learn to reevaluate traditional ideas about national and other political borders and better assess the performance of political institutions      *The Ukrainian Weekly 2000: 1970-1999*, 2000      **Why America Didn't Become Great Again** Robert Chernomas, Ian Hudson, 2025-04-22 Examining the conditions that not only blocked attempts to make America great again but also actively made the country worse Why America Didn't Become Great Again identifies those organizations institutions politicians and prominent characters in the forefront of the economic and social policies ultimately asking who is responsible The period from the late 1970s to 2020s became the best of times for America's corporate class As profits grew along with the wealth and income that they delivered for their stockholders and management their goal was to set new rules for the rest of us to live by with a clear class agenda Institutions have been organized government policies reoriented and economists journalists and politicians recruited funded and promoted And so it has not been the best of times for working families as inequality stagnant wages debt and ever longer working hours became their fate This book critically analyzes those who very deliberately set out to implement policies enacted at the state and federal level in order to redistribute wealth and income upwards and change the balance of power in the United States in response to the class gender and racial challenges that resulted in compressed income and wealth differentials before the 1980s An essential book on contemporary inequality in America Why America Didn't Become Great Again surveys the past near half century that resulted in American economic instability and inequality environmental crisis a crumbling physical and harmful social infrastructure among the very worst health outcomes child poverty food insecurity and social mobility of the industrialized countries culminating in a Trump regime and the road to further ruin      Critical Citizens Pippa Norris, 1999-03-25 Critical Citizens Global Support for Democratic Government analyses a series of interrelated questions The first two are diagnostic how far are there legitimate grounds for concern about public support for democracy world wide Are trends towards growing cynicism evident in the United States evident in many established and newer democracies The second concern is analytical what are the main political economic and cultural factors driving the dynamics of support for democratic government The final questions are prescriptive what are the consequences of this analysis and what are the implications for strengthening democratic governance This book has brought

together a distinguished group of international scholars who develop a global analysis of these issues that looks at trends in establishes and newer democracies as we approach the end of the twentieth century It also presents the first results of the 1995 7 World Values Study as well as drawing on an extensive range of comparative empirical evidence Challenging the conventional wisdom this original and stimulating book concludes that accounts of a democratic crisis are greatly exaggerated By the mid 1990s most citizens world wide shared widespread aspirations to the ideals and principles of democratic government At the same time there remains a marked gap between evaluations of the ideal and the practice of democracy The public in many newer democracies in Central and Eastern Europe and in Latin America proved deeply critical of the performance of their governing regimes And in many established democracies the 1980s saw a decline in public confidence in the core institutions of representative democracy including parliaments the legal system and political parties The book considers the causes and consequences of the development of critical citizens It will prove invaluable for those interested in comparative politics public opinion and the dynamics of the democratization process ADVANCE PRAISE The great democratic paradox of the 1990s is that it has simultaneously been the decade of democratization and the decade of growing distrust of democratic institutions This volume admirably dissects the complex and multi dimensional background of these conflicting trends and presents a judicious evaluation of the grounds of optimism and pessimism in which fortunately the former prevails AREND LIJPHART University of California San Diego Critical Citizens is the most comprehensive collection of comparative work on confidence in government and sources of public support for democracy I strongly recommend it SEYMOUR MARTIN LIPSET George mason University Pippa Norris and her colleagues examine claims and counter claims about the erosion of public confidence in democracy describe the depth and dynamics of trust in government and lay out a broad and differentiated approach to the phenomenon They sort out the rather high degree of support for democracy from widespread uneasiness with the workings of instituions and with the behaviour of politicians Their book is must reading for survey researchers and comparative students of democracy alike SIDNEY TARROW Cornell University This is the most impressive comparative study of how citizens in contemporay democracies relate to their governments In an age of expanding democratic institutions around the globe the authors of Critical Citizens capture the reader s interest and provide a masterful update on one of the critical issues of our time CHRISTOPHER J ANDERSON Binghamton University SUNY It is the Civic Culture study 40 years later Critical Citizens is a landmark comparative study of trends in attitudes toward nation government regime political institutions and leaders in some forty regionally well distributed countries bringing together the resaerch of a cross national team of social scientists led by Pippa Norris of the Harvard Kennedy School It is full of theoretically interesting insights as well as findings that have an important bearing on public policy GABRIEL ALMOND Stanford      *The Will of the People* Yanina Welp,2022-06-06 *The Will of the People* Populism and Citizen Participation in Latin America argues that while populist leaders typically claim to speak in the name of the people they

rarely allow the people to express their opinion independently through institutions of citizen participation The argument is rooted in theoretical discussions and empirical analyses of trends and specific cases The volume deals with the following questions Why is populism so prolific in the Latin American region How and where do populist leaders arrive to power Is there a connection between populism and fascism as claimed by negative views of Argentinian Peronism Are populist leaders more keen on introducing mechanisms of direct citizen participation Are the erosions of the political party system an explanation of the emergence of populism as seems to be the case with Fujimorism in Peru To what extent have the governments of Hugo Chavez Evo Morales and Rafael Correa given voice to the people through the so called participatory democracy

Congressional Record United States. Congress,1970 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873

Efficiency and Justice in the Industrial World: v. 1: The Failure of the Soviet Experiment Dusan Pokorny,2019-07-04

In the last years of the Soviet Union with remarkable suddenness it became commonplace to observe that what the country needed was a free market private property and integration into the global economy But why aside from the obvious fact that the alternative was failing should this consciousness dawn in our day This book argues that the time has come to reflect on what the epochal events of our era are teaching us about larger questions the relationship between economy and society culture and market Dusan Polorny asks precisely these questions revisiting the ideas of classic and contemporary philosophers in the light of the failure of the Soviet order and the exigencies of post Soviet transformation As Pokorny also points out integration in a post industrial global economy entails profound changes in the domain of property rights a redefinition of the relation between equity and efficiency and a regrouping of national consciousness The present volume examines the implications of these demands for the post Soviet societies another on the European and North American experiments in economic integration is in preparation
