

Single-Party States

As a result of the midterm elections, Republicans and Democrats share power in only 10 states — the fewest since 1952. Republicans control the governor's office and both legislative houses in 23 states, and Democrats have so-called trifectas in 17 states.

Trifecta Status

■ Republican ■ Democratic ■ Split

* Power-sharing agreement in House, but Republicans hold the majority

** Governor is Republican, unicameral legislature is nonpartisan

Political Opposition In One Party States:

The Dynamics of the One-party State in Zambia Cherry J. Gertzel, Carolyn Louise Baylies, Morris Szeftel, 1984 An Introduction to African Politics Alex Thomson, 2005-02-28 An Introduction to African Politics is the ideal textbook for those new to the study of this vast and fascinating continent It makes sense of the diverse political systems that are a feature of Africa by using familiar concepts chapter by chapter to examine the continent as a whole The result is a textbook that identifies the essential features of African politics allowing students to grasp the recurring political patterns that have dominated this part of the world since independence Features and benefits of the book include thematically organised with individual chapters exploring issues such as colonialism ethnicity nationalism social class ideology legitimacy sovereignty and democracy identifies the key recurrent theme of competitive relationships between the African state its civil society and external interests contains useful boxed case studies of key countries at the end of each chapter including Kenya Tanzania Nigeria Botswana Ivory Coast Uganda Somalia Ghana Zaire and Algeria each chapter concludes with key terms and definitions as well as questions advice on further reading and useful notes and references clearly and accessibly written by an experienced teacher of the subject *From a One-Party State to Democracy*, 2025-02-10 **Asia's New World Order** George T. Yu, 2015-12-30 Nowhere is the historic global transformation creating a new international context more striking than in East and South Asia Leading specialists here discuss key economic and political changes within the region and the impact of the Asian economic miracle on global politics and international relations Prospects for growth democracy and security are investigated in depth as well as their implications for other powers in the post cold war world **The Rise of a Party-State in Kenya** Jennifer A. Widner, 2023-04-28 Although Kenya is often considered an African success story its political climate became increasingly repressive under its second president Daniel arap Moi Widner charts the transformation of the Kenya African National Union KANU from a weak loosely organized political party under Jomo Kenyatta into an arm of the president's office with watchdog youth wings and strong surveillance and control functions under Moi She suggests that single party systems have an inherent tendency to become party states or single party regimes in which the head of state uses the party as a means of control The speed and extent of these changes depend on the countervailing power of independent interest groups such as business associations farmers or professionals Widner's study offers important insights into the dynamics of party systems in Africa Although Kenya is often considered an African success story its political climate became increasingly repressive under its second president Daniel arap Moi Widner charts the transformation of the Kenya African National Union KANU from a weak loosely Japanese Democracy and Lessons for the United States Ray Christensen, 2020-02-25 This book presents a collection of lessons on how best to run elections and politics using examples from the Japanese experience and showing how elections operate in a non Western democracy Featuring extensive data and evidence from both Japan and the United States the themes covered include one party rule ballot security and voting

procedures election regulations malapportionment and gerrymandering court interventions voter attachments and distortions of the public will by election rules In so doing the analysis challenges conventional wisdom in both Japan and the United States highlighting surprising and counterintuitive findings from decades of observation This book also explicitly compares Japan to other similarly situated democracies Japan is therefore not treated as a standalone case but rather the lessons from Japan are contextualized for greater understanding and can be used to inform discussions about comparative elections and democracy Offering practical advice in relation to elections and the functions of democracy Japanese Democracy and Lessons for the United States will be useful to students and scholars of Japanese US and comparative politics

Digital Activism in Zimbabwe Tenford Chitanana, 2024-10-21 This book investigates the role of the internet and social media in political processes in non western and non democratic contexts Using Zimbabwe as a case study the book demonstrates how activists and ordinary people deploy social media particularly Facebook to subvert an enduring hegemonic state However the book also highlights how authoritarian regimes are in turn learning and adapting to the information age challenging the impact of digital activism Studies of digital activism in the Global South are often centred around democracy but this book paints a more complex picture examining the role and effect of digital activism in challenging state hegemony in authoritarian contexts The book notes that while communication technologies help mediate activism they are also simultaneously constrained by pre existing and emergent challenges tied to the social and political context and the inherent limitations of those technologies The book investigates the tactics used by digital activists the contextual factors and restrictive political environment they operate in including the role of pro government activists and ultimately the impact of digital activism given these constraints From the case of Zimbabwe the book builds out a broader theoretical analysis of the evolution of third world protest in the digital age examining the limitations of activists actions and the ideological deficit in online activism to ferment a virulent counter hegemony

Political Opposition in One-party States Ellen De Kadt, 1972 An anthology of articles and review articles which have appeared in Government and opposition since 1965

A History of Africa: African nationalism and the de-colonisation process Assa Okoth, 2006 *Twenty Years of Studying*

Democratization Aurel Croissant, Jeffrey Haynes, 2018-10-24 Democratization emerged at a time of epochal change in global politics the twin impacts of the end of the Soviet Union and the speeding up and deepening of globalisation in the early 1990s meant a whole new ball game in terms of global political developments The journal s first issue appeared in early 1994 Over time the editorial position has been consistently to focus on the third wave of democracy and its aftermath The third wave is the most recent exemplar of a long term historical trend towards more democratically viable regimes and away from authoritarian systems and leaders In short the journal wants to promote a better understanding of democratization defined as the way democratic norms institutions and practices evolve and are disseminated both within and across national and cultural boundaries Over the years the many excellent articles that we have featured in the journal have shared our focus on

democratization viewed as a process The journal has sought and continues to seek to build on the enduring scholarly and of course popular interest in democracy how and why it emerges develops and becomes consolidated Our emphasis over the last 20 years has been contemporary and the approach comparative with a strong desire to be both topical and authoritative We include special reference to democratization in the developing world and in post communist societies In sum just as 20 years ago the journal today aims to encourage debate on the many aspects of democratization that are of interest to policy makers administrators and journalists aid and development personnel those involved in education and perhaps above all the tens of millions of ordinary people around the world who do not yet enjoy the benefits of living under democratic rule The two dozen articles collected in this virtual special issue are emphatic proof of the power of the written word to induce debate uncertainty and ultimately progress towards better forms of politics focused on the achievement of the democratic aspirations of men and women everywhere

Transforming Settler States Ronald Weitzer, 2023-11-15 In the past two decades several settler regimes have collapsed and others seem increasingly vulnerable This study examines the rise and demise of two settler states with particular emphasis on the role of repressive institutions of law and order Drawing on field research in Northern Ireland and Zimbabwe Ronald Weitzer traces developments in internal security structures before and after major political transitions He concludes that thoroughgoing transformation of a repressive security apparatus seems to be an essential but often overlooked precondition for genuine democracy In an instructive comparative analysis Weitzer points out the divergent development of initially similar governmental systems For instance since independence in 1980 the government of Zimbabwe has retained and fortified basic features of the legal and organizational machinery of control inherited from the white Rhodesian state and has used this apparatus to neutralize obstacles to the installation of a one party state In contrast though liberalization is far from complete The British government has succeeded in reforming important features of the old security system since the abrupt termination of Protestant Unionist rule in Northern Ireland in 1972 The study makes a novel contribution to the scholarly literature on transitions from authoritarianism to democracy in its fresh emphasis on the pivotal role of police military and intelligence agencies in shaping political developments This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990

The Cambridge History of Africa J. D. Fage, Roland Anthony Oliver, Michael Crowder, 1975 The eighth and final volume of The Cambridge History of Africa covers the period 1940-75 It begins with a discussion of the role of the Second World War in the political decolonisation of Africa Its terminal date of 1975 coincides with the retreat of Portugal the last European colonial power in Africa from its possessions and their accession to independence The fifteen chapters which make up this volume examine on both a continental and regional scale the extent to which formal transfer of political power by the

European colonial rulers also involved economic social and cultural decolonisation A major theme of the volume is the way the African successors to the colonial rulers dealt with their inheritance and how far they benefited particular economic groups and disadvantaged others The contributors to this volume represent different disciplinary traditions and do not share a single theoretical perspective on the recent history of the continent a subject that is still the occasion for passionate debate

Rethinking Securities in an Emergent Technoscientific New World Order Munyaradzi Mawere, Artwell Nhemachena, 2018-03-13 The emergent technoscientific New World Order is being legitimised through discourses on openness and inclusivity The paradox is that openness implies vulnerability and insecurities particularly where closure would offer shelter While some actors including NGOs preach openness of African societies Africans clamour for protection restitution and restoration Africans struggle for ownership and access to housing for national cultural religious economic and social belonging that would offer them the necessary security and protection including protection from the global vicissitudes and matrices of power In the presence of these struggles to presuppose openness would be to celebrate vulnerability and insecurities This book examines ways in which emergent technologies expose Africans and more generally peoples of the global south to political economic social cultural and religious shocks occasioned by the coloniality of the global matrices of power It notes that there is the use by global elites of technologies to incite postmodern revolutions designed to compound the vicissitudes and imponderables in the already unsettled lives of people north and south Particularly targeted by these technologies are African and other governments that do not cooperate in the fulfilment of the interests of the hegemonic global elites The book is handy to students and practitioners in security studies African studies development studies global studies policy studies and political science

Turning Points in African Democracy Abdul Raufu Mustapha, Lindsay Whitfield, 2009 A team of scholars examine the radical political changes that have taken place since 1990 in eleven key countries in Africa Radical changes have taken place in Africa since 1990 What are the realities of these changes What significant differences have emerged between African countries What is the future for democracy in the continent The editors have chosen eleven key countries to provide enlightening comparisons and contrasts to stimulate discussion among students They have brought together a team of scholars who are actively working in the changing Africa of today Each chapter is structured around a framing event which defines the experience of democratisation The editors have provided an overview of the turning points in African politics They engage with debates on how to study and evaluate democracy in Africa such as the limits of elections They identify four major themes with which to examine similarities and divergences as well as to explain change and continuity in what happened in the past Abdul Raufu Mustapha is University Lecturer in African Politics at Queen Elizabeth House and Kirk Greene Fellow at St Antony's College University of Oxford Lindsay Whitfield is a Research Fellow at the Danish Institute of International Studies Copenhagen

Elections In Independent Africa Fred M. Hayward, 2019-08-27 The electoral process has been an integral part of the political landscape of independent Africa for more

than a quarter century and has roots going back to traditional African societies. An examination of the independence period demonstrates the rich diversity of forms, experiences, and meanings of elections in Africa. For some observers, elections are a clear example of multiple failures in Africa: the failure of democracy and institutional transfer and the breakdown of much of the African political process in general. The authors of this book argue that elections in Africa have played a much more significant role than has commonly been recognized; that in spite of problems, elections are an important part of African contemporary political life. It has been too easy to dismiss elections in Africa as irrelevant because there are fewer today than there were two decades ago or because they have frequently failed to conform to democratic norms. However, in a period in which the primary trends of government are toward exclusion, African elections provide one of the few instruments of political action open to civil society. This study of the electoral process suggests a number of themes and conclusions about the relationship of the electoral process to state power and institutions: elite competition, mass participation, legitimacy, and its limits, ethnic conflict, mobilization, party competition, authoritarian regimes, the growing incidence of electoral violence, and mass support for democratic values. Fred M. Hayward's substantive introduction discusses the electoral process in general. Eight case studies of key African countries then illustrate the varied meanings and implications of elections in independent Africa, and in the final chapter, Hayward draws conclusions about the role and impact of elections. It is clear that although electoral processes have demonstrated a certain fragility, both the form and the process have shown remarkable resilience.

Transforming Provincial Politics Bryan M. Evans, Charles W. Smith, 2015-03-27 Over the past thirty-five years, Canada's provinces and territories have undergone significant political changes. Abandoning mid-century Keynesian policies, governments of all political persuasions have turned to deregulation, tax reduction, and government downsizing as policy solutions for a wide range of social and economic issues. *Transforming Provincial Politics* is the first province-by-province analysis of politics and political economy in more than a decade and the first to directly examine the turn to neoliberal policies at the provincial and territorial level. Featuring chapters written by experts in the politics of each province and territory, *Transforming Provincial Politics* examines how neoliberal policies have affected politics in each jurisdiction. A comprehensive and accessible analysis of the issues involved, this collection will be welcomed by scholars, instructors, and anyone interested in the state of provincial politics today.

Politics and Culture in the Developing World Richard J. Payne, Jamal R. Nassar, 2015-10-15 From decolonization and democratization to religion and gender, *Politics and Culture in the Developing World* is a comprehensive survey of the global context of development. With in-depth and current examples from Asia, Africa, Latin America, and the Middle East, this text examines the central political themes in the developing world. Throughout, *Politics and Culture in the Developing World* demonstrates how globalization both accelerates change and increases interdependence between developing and developed countries.

Ong'wen: Stronger than Faith, 2023-06-27 Few events in Kenya's recent history have captured the imagination of the nation as those of the period from the late 1970s

Between the pages of this memoirs is a history of that period which is hardly taught in our schools and is fast receding into the holes of the insignificant as a younger generation takes over The history of that era like that of all the eras that have made this country needs to be preserved by those who witnessed and participated in it In Stronger Than Faith Oduor Ongwen adds clarity to the politics of an important but dark era of our history It adds clarity to why that era is not entirely gone

Country Reports on Human Rights Practices, 1983 **The Autocrat's Predicament** Timothy R. Heath, 2023-11-03

In their quest for national revival China's leaders under Xi Jinping have sought to improve the economy's performance The disappointing economic record of authoritarian regimes provides ample grounds for doubt yet not all have failed Why have some succeeded where most did not The theory of the enabling condition highlights the central role that politics plays in the pursuit of economic advancement The theory explains that a political situation characterized by a strong central leadership weak elite opposition and a united public offers favorable prospects for enacting concentrated growth policies This arrangement enables the central leadership to enlist the public in convincing elites to implement policies that they might otherwise resist Focusing on the experience of single party authoritarian regimes The Autocrat's Predicament The Political Peril of Economic Upgrade in Single Party Authoritarian Regimes examines episodes in the histories of the People's Republic of China Taiwan and the Soviet Union It concludes that China's unfavorable political situation could be potentially unfriendly for its ambitions to build an efficient highly productive economy

Political Opposition In One Party States Introduction

In the digital age, access to information has become easier than ever before. The ability to download Political Opposition In One Party States has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Political Opposition In One Party States has opened up a world of possibilities. Downloading Political Opposition In One Party States provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Political Opposition In One Party States has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Political Opposition In One Party States. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Political Opposition In One Party States. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Political Opposition In One Party States, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Political Opposition In One Party States has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Political Opposition In One Party States Books

1. Where can I buy Political Opposition In One Party States books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
