Edward Tiryakian, Ronald Rogowski

Political Oppositions in Western Democracies:

Political Oppositions in Western Democracies Robert A. Dahl, 1966-03-11 The idea that the opposition has a right to organize and to appeal for votes against the government in elections and in parliament is one of the most important milestones in the development of democratic institutions Mr Dahl and nine collaborators analyze the role of the opposition in Austria Belgium France Germany Great Britain Italy the Netherlands Norway Sweden and the United States In introductory and concluding chapters Dahl compares the patterns of opposition in these countries and makes predictions for the future He carries forward on the basis of this evidence the theory of a pluralistic society he has explored in earlier books such as *Who Governs* Mr Dahl is Sterling Professor of Political Science at Yale University His collaborators are Samuel Barnes Hans Daalder Frederick Engelmann Alfred Grosser Otto Kirchheimer Val R Lorwin Allen Potter Stein Rokkan and Nils Stjernquist This stately volume is distinguished by several unusual features First it straightforwardly focuses on a crucial issue of Comparative Politics without being vitiated by the familiar behaviorist semantics and jargon Secondly contrary to the ubiquitous trend in this country flooded by discussion more journalistic than scientific on the emergent states it centers on constitutional democracy in Western Europe a region which for a decade and more had been badly neglected by the rampant computerizers Thirdly for the ten countries under discussion Professor Dahl was fortunate to enlist the services of genuine experts the majority of whom are specialists in their field On the whole the volume is one of the major contributions to Comparative Politics that have appeared in this country for some time The study of the issue as such as well as of the individual reviews is highly rewarding Karl Loewenstein *The Annals*

Political Oppositions in Western Democracies Robert Alan Dahl, 1978 **Political oppositions in western democracies ed. by d** Robert A. Dahl, 1966 *Political Oppositions in Western Democracies. Edited by Robert A. Dahl* Robert A. Dahl, 1966 *Political Oppositions in Industrialising Asia* Garry Rodan, 2013-04-15 Industrialization has meant sweeping social transformations across Asia Some political commentators have predicted that the expansion of civil society and the rapid development of liberal democracy will necessarily follow The contributors to this volume dissect the extent of political opposition in Asia and analyze the nature of new social movements outside institutional party politics which are contesting the exercise of state power Nine original case studies explore the variety of political oppositions across Asia from non governmental organizations and the formal opponents of the PAP in Singapore to Chinese dissidents based outside the People s Republic of China All take up the challenge of looking at political opposition in the light of the new social phenomenon of the rising middle class or new rich of Asia Garry Rodan s hard hitting analysis of the problems of current political theorizing in relation to Asia sets the case studies firmly in the context of wider debates about democratization *Political Oppositions in Industrialising Asia* shatters complacent assumptions about the progress of liberal democracy *Parliamentary Opposition in Old and New Democracies* Ludger Helms, 2013-10-18 Previously published as a special issue of the *Journal of Legislative Studies* this volume offers a

broad comparative assessment of the many faces of parliamentary opposition in different political legal and cultural settings Issues of political opposition and of parliamentary opposition in particular are at the very heart of the study of democratic processes in different parts of the world Written by leading scholars in the field this book looks both at the core features of the parliamentary opposition itself and its role in the legislative and wider political process This includes an inquiry into the manifold challenges that the parliamentary opposition in many countries has come to face in the more recent past in particular the rise of different non parliamentary opposition actors The countries covered in this volume include the old democracies of the Anglo Saxon world continental Europe and Japan and the new democracies and democratizing regimes in Central and Eastern Europe Latin America and South Africa Another chapter looks at the manifestations of parliamentary opposition within the multi level system of the European Union

The Democracy Sourcebook Robert A. Dahl, Ian Shapiro, Jose Antonio Cheibub, 2003-08-15 The Democracy Sourcebook offers a collection of classic writings and contemporary scholarship on democracy creating a book that can be used by undergraduate and graduate students in a wide variety of courses including American politics international relations comparative politics and political philosophy The editors have chosen substantial excerpts from the essential theorists of the past including Jean Jacques Rousseau John Stuart Mill Alexis de Tocqueville and the authors of The Federalist Papers they place them side by side with the work of such influential modern scholars as Joseph Schumpeter Adam Przeworski Seymour Martin Lipset Samuel P Huntington Ronald Dworkin and Amartya Sen The book is divided into nine self contained chapters Defining Democracy which discusses procedural deliberative and substantive democracy Sources of Democracy on why democracy exists in some countries and not in others Democracy Culture and Society about cultural and sociological preconditions for democracy Democracy and Constitutionalism which focuses on the importance of independent courts and a bill of rights Presidentialism versus Parliamentarianism Representation discussing which is the fairest system of democratic accountability Interest Groups Democracy's Effects an examination of the effect of democracy on economic growth and social inequality and finally Democracy and the Global Order discusses the effects of democracy on international relations including the propensity for war and the erosion of national sovereignty by transnational forces

Political Opposition in Theory and Central European Practice Michal Kubát, 2010 This book offers interpretations of different forms of political opposition in political theory and also in the contemporary development of politics and government in Central Europe The problem is analyzed through a comparative approach The first part of the book targets the question of definitions and typologies of political opposition above all in democratic but partly also in non democratic regimes The second part deals with the question of models of political opposition in Central Europe after the fall of communism in the late twentieth century and in the present

Political Science in Theory and Practice Ruth Lane, 1996-10-08 This text demonstrates that there is a politics model that unifies the discipline and structures its relationship to the other social sciences It shows how this model underlies

important works of applied research in all the main political science subfields Opposition in Western Europe Eva Kolinsky, 2016-06-10 This book first published in 1987 analysed the state and changing nature of political opposition in Western Europe at the time For each country covered it discusses the concept of opposition and the approach adopted by opposition parties It explores the institutional framework that was in place at the time the electoral support for opposition attitudes towards opposition and the criteria for the success of opposition parties It shows how opposition had changed in nature as a result of both voter re alignments and also because some interest groups have engaged directly in opposition activities rather than working through opposition parties as was done previously thereby increasing the scope of extra parliamentary opposition Opposition is a fundamental element in democratic politics and this book therefore throws considerable light on the whole range of political activity in the countries covered This title will be of interest to students of politics **Political Opposition in Authoritarianism** Rico Isaacs, 2022-08-13 How might political opposition shape regime outcomes over time in an authoritarian system Most studies on political opposition in authoritarian contexts tend to focus on the agency of the regime over and above that of the political opposition Using Albert Hirschman s framework of exit voice and loyalty this book examines the case of Kazakhstani opposition agency over 30 years to explore the extent to which political opposition in Kazakhstan has shaped the dynamics of authoritarian regime development in the country What the analysis reveals is that in Kazakhstan the regime has tended to treat formal institutional political opposition as neither a credible nor non credible threat Consequently the Kazakhstani regime has always responded to opposition exit and voice with sanctions and institutional adaption which strengthened the regime in the short to medium term but left them exposed to spontaneous grassroots non institutional opposition in the longer term This spontaneous grassroots opposition emerged in Kazakhstan as a series of shocks crystalised in the 2011 events in Zhanaozen the 2016 land protests the 2019 election protests and the events of qandy qantar bloody January in 2022 What this book illustrates is how authoritarian regimes which treat opposition threats ambiguously are likely to end up in a continuous state of instability because the feedback provided by opposition agency disappears leaving the regime susceptible to spontaneous opposition *Comparing Democracies 2* Lawrence LeDuc, Richard G Niemi, Pippa Norris, 2002-04-23 A vigorous and healthy system of representative government does not live by competitive elections alone conclude political scientists from North America and Europe but also requires transparency and accountability vigorous party competition political rights and civil liberties many channels for political communication and citizen participation In ten essays updated from the 1996 edition itself based on a conference they consider such aspects as the politics of direct democracy through referendums and initiatives candidate selection campaign communications and the dynamics of electoral participation **Political Parties in the UK** Alistair Clark, 2018-08-22 The second edition of this popular textbook provides a systematic and comprehensive introduction to UK party politics combining chapters on each of the main parties Conservative Labour the Liberal Democrats and the Scottish National Party with an

assessment of post devolution Scotland Wales and Northern Ireland Clark analyses the extraordinary recent developments in UK politics including Brexit the 2015 and 2016 Labour leadership contests and the surprise 2017 general election exploring how these events have impacted the political parties the people of the UK and the UK's position in the world The book also covers the rise of minority parties such as UKIP the influence of the media and party campaigning organisation and funding Written in an accessible style this new edition is an essential companion for students taking modules on British Political Parties Party Politics or British Politics more generally as well as functioning as a useful background text for modules in Comparative Political Parties It is an ideal introduction for all readers new to the topic New to this Edition A new chapter on the Scottish National Party takes account of their rise their role as a governing party in Scotland and becoming the third largest party at Westminster Up to date coverage of all the latest developments affecting UK political parties including the Scottish referendum the 2015 and 2017 general elections the 2016 devolved elections and Brexit Extended coverage of the rise and fall of UKIP

International Democracy Documents Frithjof Ehm, Christian Walter, 2015-07-14 Since the end of the Cold War a plentitude of books and articles have been published on the subject of democracy and international law During this same period numerous international treaties declarations resolutions and policy papers have been adopted *International Democracy Documents* brings together the most important universal documents as well as those from Africa the Americas the Arab Region Asia and Europe The Editors provide a comprehensive General Introduction to the collection and contextually introduce each chapter The volume fills a gap in the literature and contributes to the advancement of the study of human rights democracy and the rule of law n'en pas douter ce copieux inventaire constituera un outil fort utile et en tout cas un excellent point de départ pour celui ou celle qui s'intéresse la notion de démocratie en droit international Puisse cet ouvrage contribuer comme c'est le vœu de ses auteurs p 35 faciliter la recherche le développement et le renforcement des standards et valeurs démocratiques au plan international Laurent Weyers *Revue Belge de droit international* No 2014 2 It is no exaggeration to recommend that every library in the Third World's law schools should have this volume on their shelves Pranoto Iskandar in *Indonesian Journal of International Comparative Law IJICL* Volume III Issue 4 October 2016 p 799 806

The Europeanization of Politics Daniele Caramani, 2015-09-09 In a broadly comparative historical and quantitative analysis this study reveals the unity of European electorates and party systems Investigating thirty countries in Western and Central Eastern Europe over 150 years of electoral history the author shows the existence of common alignments and parallel waves of electoral change across the continent Europeanization appears through an array of indicators including cross country deviation measures uniform swings of votes the correspondence between national arenas and European Parliament as well as in the ideological convergence among parties of the same families Based on a painstaking analysis of a large wealth of data the study identifies the supra national domestic and diffusion factors at the origin of Europeanization Building on previous work on the nationalization of politics this new study makes the case for Europeanization in historical

and electoral perspective and points to the role of left right in structuring the European party system along ideological rather than territorial lines In the classical tradition of electoral and party literature this book sheds a new light on Europe s democracy

Political Parties and Party Systems Moshe Maor,2005-08-10 This comprehensive textbook outlines and illuminates the main theories of political parties and party systems Applying these theoretical approaches to British party politics Moshe Maor covers all the key subjects of study including classification of party definitions party systems change party institutionalization cohesion and dissent intraparty conflicts and legislative bargaining multiparty electoral competition Maor s study highlights the importance of the intraparty arena and actors in understanding the shape and behaviour of political parties providing essential reading to students of party systems and of British politics

Party Government and Political Culture in Western Germany H. Döring,G. Smith,1982-03-04

The Oxford Handbook of Political Representation in Liberal Democracies Robert Rohrschneider,Jacques Thomassen,2020-07-28 The Handbook of Political Representation in Liberal Democracies offers a state of the art assessment of the functioning of political representation in liberal democracies In 34 chapters the world s leading scholars on the various aspects of political representation address eight broad themes The concept and theories of political representation its history and the main requisites for its development elite orientations and behavior descriptive representation party government and representation non electoral forms of political participation and how they relate to political representation the challenges to representative democracy originating from the growing importance of non majoritarian institutions and social media the rise of populism and its consequences for the functioning of representative democracy the challenge caused by economic and political globalization what does it mean for the functioning of political representation at the national level and is it possible to develop institutions of representative democracy at a level above the state that meet the normative criteria of representative democracy and are supported by the people The various chapters offer a comprehensive review of the literature on the various aspects of political representation The main organizing principle of the Handbook is the chain of political representation the chain connecting the interests and policy preferences of the people to public policy via political parties parliament and government Most of the chapters assessing the functioning of the chain of political representation and its various links are based on original comparative political research Comparative research on political representation and its various subfields has developed dramatically over the last decades so that even ten years ago a Handbook like this would have looked totally different

A Political History of Western Europe Since 1945 Derek W. Urwin,2014-07-22 Taking a thematic approach Derek Urwin addresses the major political and economic developments in western Europe since World War II right up to the present day The book covers issues and developments in national politics and the movement towards greater unity in Western Europe and the role of Europe in global politics and in the international economy The text has been revised throughout and updated to take account of the political consequences of the ending of the Cold War and the troubled progress of European integration since Maastricht The Fifth Edition has lost

nothing of its predecessor's clarity and accessibility and in its updated form will win the book a host of new admirers

New Nationalisms of the Developed West Edward Tiryakian, Ronald Rogowski, 2020-03-13 Originally published in 1985 *New Nationalisms in the Developed West* is a collection of interdisciplinary and insightful essays on modern nationalist movements. The book argues that these movements have challenged the power of Western nation states not from without but from within their frontiers. The book's focus remains predominately on Western societies and the nationalist movements of nations against states. The essays in this book are detailed and innovative and analyse nationalism through theory, methodology and empirical evidence. The book's use of research methods deepens the comparative explanation of nationalist movements and advances understanding of Western nationalisms as social movements and examples of social change in the developed world. This book will appeal to social scientists in political science and sociology.

This book delves into Political Oppositions In Western Democracies. Political Oppositions In Western Democracies is a crucial topic that needs to be grasped by everyone, from students and scholars to the general public. This book will furnish comprehensive and in-depth insights into Political Oppositions In Western Democracies, encompassing both the fundamentals and more intricate discussions.

1. This book is structured into several chapters, namely:
 - Chapter 1: Introduction to Political Oppositions In Western Democracies
 - Chapter 2: Essential Elements of Political Oppositions In Western Democracies
 - Chapter 3: Political Oppositions In Western Democracies in Everyday Life
 - Chapter 4: Political Oppositions In Western Democracies in Specific Contexts
 - Chapter 5: Conclusion
 2. In chapter 1, this book will provide an overview of Political Oppositions In Western Democracies. This chapter will explore what Political Oppositions In Western Democracies is, why Political Oppositions In Western Democracies is vital, and how to effectively learn about Political Oppositions In Western Democracies.
 3. In chapter 2, the author will delve into the foundational concepts of Political Oppositions In Western Democracies. This chapter will elucidate the essential principles that must be understood to grasp Political Oppositions In Western Democracies in its entirety.
 4. In chapter 3, the author will examine the practical applications of Political Oppositions In Western Democracies in daily life. The third chapter will showcase real-world examples of how Political Oppositions In Western Democracies can be effectively utilized in everyday scenarios.
 5. In chapter 4, the author will scrutinize the relevance of Political Oppositions In Western Democracies in specific contexts. This chapter will explore how Political Oppositions In Western Democracies is applied in specialized fields, such as education, business, and technology.
 6. In chapter 5, the author will draw a conclusion about Political Oppositions In Western Democracies. This chapter will summarize the key points that have been discussed throughout the book.
- This book is crafted in an easy-to-understand language and is complemented by engaging illustrations. This book is highly recommended for anyone seeking to gain a comprehensive understanding of Political Oppositions In Western Democracies.
