Abstract: The European Citizens' Initiative (ECI) Right2Water asked for guaranteed water quality and quantity all over Europe, and demanded that water services remain in the hands of public entities. Support for Right2Water was particularly pronounced in Germany. The German organisers managed to collect 16 times more signatures than the minimum necessary to be counted towards the quorum. How have the German political parties reacted to the overwhelming public support for Right2Water? To answer this question, we examined the election manifestos of the main political parties, published for the federal elections in 2005, 2009, 2013, and 2017, and the elections to the European Parliament in 2004, 2009, 2014, and 2019. We concentrated on one specific goal of Right2Water, which refers to preventing the liberalisation of water services in the European Union. We expected the attention to and positioning of the liberalisation of water services to vary across the individual German parties. Since Right2Water was organised by public service trade unions and pursues an anti-liberalisation agenda, we expected left-wing parties to have laid a greater emphasis on this issue than right-wing parties, and for them to have adopted positions that aligned with the goals of the ECI. Our empirical findings show that a left-right division exists among the parties concerning the attention they paid to this issue as well as how they positioned themselves.

1. Introduction

Water utilities face numerous challenges related to the maintenance and modernisation of infrastructure, the ensuring of water supply and water quality, and the reduction of energy use [1]. If the water utilities fail to adequately meet these challenges, it can result in a variety of negative outcomes including public health risks, lower levels of service, price increases, and reduced contributions to environmental and climate protection [2]. With respect to the quality of drinking water, the presence of micropollutants has become a matter of concern over recent decades [3,4]. This is especially the case in areas or countries that produce their drinking water, both from groundwater and, in high percentages, from surface waters [5]. In these cases, conventional treatment methods, which primarily aim to reduce pathogens and nutrient loads, are not sufficient to provide drinking water free from chemicals [6] or pharmaceuticals [4,7]. Consequently, drinking water has to go through additional treatment steps based on, for example, active carbon nanofiltration or reverse osmosis membrane treatment, which creates additional costs. Sudhakaran et al. [7] have reviewed different treatment methods with respect to their efficiency in reducing the micropollutant burdens of drinking water but also in light of their socio-economical aspects.

Parties in Post-Uprising Tunisia and Morocco Giulia Cimini, 2023-03-31 This book offers a comparative theory grounded study of Maghrebi political parties since the Arab uprisings specifically focused on Tunisia and Morocco in the first decade after the 2011 watershed elections Based on primary sources including in depth interviews and updated party statutes and bylaws the author introduces four case studies of key Islamist and anti Islamist parties exploring their organisational standing internal working and legitimating assets By dwelling into a topic long neglected the author provides insight into the

hybrid nature of political parties in the Maghreb oscillating between juxtaposed traditional and modern discourses and ambivalent sources of political authority As such it is hybridisation that shapes parties organisational choices and development and accounts for differences within parties In the wake of political liberalisation the author argues that political parties have become increasingly distant from society distrusted by a large part of the citizenry Ultimately the Tunisian and Moroccan cases invite reflection on similar phenomena taking place within the Middle East and North Africa region and even outside of it Bridging disparate disciplines including comparative politics area studies and contemporary Middle Eastern history the book will be of interest to a broad range of graduate level students and academics

Civic Activism Unleashed

Richard Youngs, 2019-01-03 One of the signal events in global politics in the last decade has been the transformation of political and civic activism Not only is the new activism qualitatively different in character from what it was in 2000 its intensity and frequency have dramatically increased Activists are developing a new type of civic movement applying innovative forms of direct action against governments and often operating without leaders or even any well defined set of aims In *Civic Activism Unleashed* Carnegie scholar Richard Youngs examines the changing shape of contemporary civic activism He shows how the emerging civic activism has important implications for the whole concept of civil society and for the relationship between citizens political institutions and states Youngs contends that the rise and spread of these new forms of direct action civic activism and the way the trend has driven the dramatic events in global politics in recent years requires us to update our understanding of what civil society actually is and which types of organizations are in its vanguard He further looks at the global impact of recent civic activism and offers a set of variables to help explain cases of success and failure Youngs larger aim is to explore in depth the new forms of civic activism that are emerging around the world and assess how they differ from more established practices of civil society activity Theoretically ambitious and global in scope *Civic Activism Unleashed* forces us to reconsider the nature of contemporary social and civic activism and how it is reshaping contentious politics in countries across the world

Local Politics in Jordan and Morocco Janine A. Clark, 2018-04-03 In recent years authoritarian states in the Middle East and North Africa have faced increasing international pressure to decentralize political power Decentralization is presented as a panacea that will foster good governance and civil society helping citizens procure basic services and fight corruption Two of these states Jordan and Morocco are monarchies with elected parliaments and recent experiences of liberalization Morocco began devolving certain responsibilities to municipal councils decades ago while Jordan has consistently followed a path of greater centralization Their experiences test such assumptions about the benefits of localism Janine A Clark examines why Morocco decentralized while Jordan did not and evaluates the impact of their divergent paths ultimately explaining how authoritarian regimes can use decentralization reforms to consolidate power *Local Politics in Jordan and Morocco* argues that decentralization is a tactic authoritarian regimes employ based on their coalition strategies to expand their base of support and strengthen patron client ties Clark

analyzes the opportunities that decentralization presents to local actors to pursue their interests and lays out how municipal level figures find ways to use reforms to their advantage In Morocco decentralization has resulted not in greater political inclusivity or improved services but rather in the entrenchment of pro regime elites in power The main Islamist political party has also taken advantage of these reforms In Jordan decentralization would undermine the networks that benefit elites and their supporters Based on extensive fieldwork *Local Politics in Jordan and Morocco* is an important contribution to Middle East studies and political science that challenges our understanding of authoritarian regimes survival strategies and resilience

Democratic Consolidation in Turkey Muge Aknur,2012 Although Turkey began its transition to democracy as early as the 1950s it is still far from having reached a level of consolidated democracy with the country s sixty year history of democratic politics being punctuated by numerous breakdowns and restorations of democracy In an attempt to examine why consolidation of Turkish democracy has taken so long this book aims at analyzing various factors including state political parties civil society civil military relations socio economic development the EU as an international actor and the rise of internal threats political Islam and separatist Kurdish nationalism that both hinder and enhance democratic consolidation in Turkey By highlighting the strengths and shortcomings of the Turkish experience from these perspectives this book suggests the optimal policy priorities for current and future Turkish governments to establish a consolidated democracy in Turkey
